**Reading Beyond the Book** Danielle Fuller, DeNel Rehberg Sedo, 2013-04-02 Literary culture has become a form of popular culture over the last fifteen years thanks to the success of televised book clubs, film adaptations, big box book stores, online bookselling, and face-to-face and online book groups. This volume offers the first critical analysis of mass reading events and the contemporary meanings of reading in the UK, USA, and Canada based on original interviews and surveys with readers and event organizers. The resurgence of book groups has inspired new cultural formations of what the authors call shared reading. They interrogate the enduring attraction of an old technology for readers, community organizers, and government agencies exploring the social practices inspired by the sharing of books in public spaces and revealing the complex ideological investments made by readers, cultural workers, institutions, and the mass media in the meanings of reading.

**Too Busy to Shop** Kelley M. Skoloda, 2009-03-05 Research indicates that most women do it at least ten times every five minutes. What is it? Multi-minding: mentally juggling a complex mix of family, career, and self-care decisions at any given moment with little time for commercial messages to seep into the mix. How do marketers reach women who still make 85% of all consumer purchasing decisions? This book, based on research interviews and Kelley Skoloda's twenty years of leading-edge work in brand marketing with major clients, explains how to connect with multi-minding women, gain their trust, and tap into their purchasing power. Multi-minding is a cultural phenomenon that is here to stay. A multi-minding woman, even if she appears to be relaxing in front of a late-night television show, reading a magazine in the pediatrician's office, or tackling a complicated analytic study at work, is at the same time thinking about and preparing for the other dimensions of her life. She's weighing the benefits of changing her 401k plan, plotting out her organic vegetable garden, ticking off birthday party logistics, and longing for a neck massage. That's why one study shows women feel they are packing 38 hours of activity into a 24-hour period. But studies also show that most women feel marketers are ignoring their needs. That's a big mistake considering women spend 3.3 trillion annually on consumer products. *Too Busy to Shop* explains what marketers need to know about multi-minding, a word coined by Skoloda and Ketchum, and its implications for companies seeking to speak to women buyers. Besides theory and insight, readers get how-tos and action items designed to ensure women view their brands favorably and hear the marketing message. The book also contains insiders' views of some of the most successful marketing to women campaigns of recent times. In short, *Too Busy to Shop* helps marketers understand multi-minding in depth, an essential task if they want to reach today's overloaded female consumer.
