Kiras,Martijn Kitzen,2024-06-06 The moment in the sun for special operations sometimes appears to have passed seemingly eclipsed by preparations for potential conflict under the guise of great power competition combined with failure in Afghanistan Yet the war in Ukraine serves as a reminder that special operations play an even greater role today before during and presumably

after conflict The challenge remains dealing with current irregular and hybrid threats at the same time as preparing for an uncertain future as threats and technologies evolve at a dizzying pace Focusing too much on the future of conventional warfare creates a void in national security discussions related to special operations This book seeks to fill that gap drawing on the expertise of scholars and practitioners in the field from the Indo Pacific Europe and the United States to answer what if anything special operations can or should seek to do and how The contributors explore such topics as proxies non state special forces capabilities innovation and transformation artificial intelligence and special operations in space and cyberspace These chapters are united by their analysis that special operations will have future strategic and operational value for allies and adversaries alike provided that difficult choices are made in the present **Backpacker** ,2001-03 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured Bulletin of the Atomic Scientists ,1955-01 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world
