

ZENITH INTRODUCES THE COMPLETE COLOR TV

It has everything you want, including a picture even brighter
and sharper than famous Zenith Chromacolor.

New Super Chromacolor Picture Tube

Zenith has discovered a way to enlarge the color dot area, and still fully illuminate every dot on a black background. To bring you a giant-screen color picture that is even brighter and sharper than the famous Chromacolor picture, that set a new standard of excellence in color TV.

100% Solid-State Chassis

Zenith's new solid-state chassis features plug-in DuraModules. They control key set functions, such as color, picture quality, and stability. And each DuraModule is pre-tested, then tested again in the set, for long life and dependability. There are no tubes to burn out.

One-button Color Tuning

Zenith's new Chromatic Tuning controls picture brightness, contrast, tint, color level and flesh tones. If someone mistakes the color, the touch of a finger retunes it perfectly, instantly.

A Full Year Warranty

Zenith's new warranty covers the cost of all parts and service for one year. And the new Super Chromacolor picture tube is warranted for 2 years, labor covered for the first year.

Zenith Quality and Dependability

Most important of all, you get the kind of built-in quality and dependability that have made Zenith world famous. We call this reputation for excellence Zenith confidence, knowing you can't buy a better TV.

We are determined to keep this confidence. If a Zenith product doesn't live up to your expectations, we want to hear from you.

Write directly to the Vice President, Customer Relations, at Zenith Radio Corporation, 1900 N. Austin Avenue, Chicago, Illinois 60639. We want the opportunity to give your problem our personal attention. At Zenith, the quality goes in before the name goes on.
