**The Church of England and the Second World War** John D. Alexander,2025-08-28 In *The Church of England and the Second World War* John D Alexander analyses how historic Christian ethical traditions influenced the Church of England s contributions to British pre war and wartime public policy debates These traditions include just war holy war pacifism and Christian realism as deployed by such diverse Anglican figures as Cosmo Gordon Lang William Temple Herbert Hensley Henson George Bell Cyril Forster Garbett Charles Raven Percy Hartill Evelyn Underhill Vera Brittain and James Parkes Additional themes include war as divine judgement humanitarian intervention and Church of England responses to the Holocaust As a case study in the application of Christian

ethical traditions this book makes vital connections between Anglican studies international relations theory and the diplomatic military and humanitarian challenges of the mid twentieth century *Between Cross and Resurrection* Alan E. Lewis,2003-06-20 For much of Christian history the church has given no place to Holy Saturday in its liturgy or worship Yet the space dividing Calvary and the Garden may be the best place from which to reflect on the meaning of Christ s death and resurrection This superb work by the late Alan Lewis develops on a grand scale and in great detail a theology of Holy Saturday The first comprehensive theology of Holy Saturday ever written *Between Cross and Resurrection* shows that at the center of the biblical story and the church s creed lies a three day narrative Lewis explores the meaning of Holy Saturday the restless day of burial and waiting from the perspectives of narrative hearing the story doctrine thinking the story and ethics living the story Along the way he visits as many spiritual themes as possible in order to demonstrate the range of topics that take on fresh meaning when viewed from the vantage point of Holy Saturday *Between Cross and Resurrection* is not only incisive and elegantly written but it is also a uniquely moving work deeply rooted in Christian experience While writing this book Lewis experienced his own Holy Saturday in suffering from and finally succumbing to cancer He considered *Between Cross and Resurrection* to be the culmination of his life s work **The Politics of Heaven and Hell** James V. Schall,2020-10-27 *The Politics of Heaven and Hell* makes an invaluable contribution to the understanding of classical medieval and modern political philosophy while explaining the profound problem with modernity Christianity freed men from the overwhelming burden of ever thinking that their salvation will ultimately come from the political order writes Fr James Schall S J Modernity on the other hand is a perversion of Christianity which tries to achieve man s salvation in this world It does this by politicizing everything which results in the absolute state The distance from the City of God to the Leviathan is not at all far once the City of God is relocated on earth The best defense against this tyranny is the adequate description of the highest things of what is beyond politics Both reason and revelation are needed for this work and they are eloquently and ably set forth in this book Temporalities, Texts, Ideologies Bobby Xinyue,2024-01-11 *Temporalities Texts Ideologies* provides a new analysis of the significance of time in Classical and early modern literature demonstrating that literary temporality continually intervenes in questions of ontology hierarchy and politics Examining a diverse range of texts from Homeric epic to eighteenth century poems on the Last Judgement this collection of essays contends that temporality in literature sits at the heart of how authors from antiquity through to the early modern period understood and negotiated the structures that shaped their lives and may shape lives to come Approaching the topic through four themes the essays in this volume highlight the ways in which time is construed as relational contestable and politically inflected The authors show that variations in temporalities enable texts to critique the interactions or tensions between tradition and change agency and determinism social system and individual experience The result is a refreshing approach to literary figurations of time that responds to the recent temporal turn in the humanities engages with current critical trends such as ontological analysis and

ecological criticism and opens up an exciting new direction for future research on the connection between time text and context

**Confession and Memory in Early Modern English Literature** Paul D. Stegner, 2016-01-26 This is the first study to consider the relationship between private confessional rituals and memory across a range of early modern writers including Edmund Spenser Christopher Marlowe William Shakespeare and Robert Southwell *Will All be Saved?* Laurence Malcolm Blanchard, 2015-04-01 This book provides a survey and critical assessment of the doctrine of universal salvation in contemporary western theology within the context of the historic development of the doctrine

**Trinitarian Personhood** Bill Ury, 2002-02-01 The concept of the person is a crucial yet elusive component in the development of Western thought Few concepts are as replete with definitional difficulty Equally important is the application of a proper definition to all major Christian doctrinal commonplaces This work recognizing the insufficiency of modern theology to offer a cogent concept of person proposes a thorough historical and theological evaluation of Trinitarian personhood presented in three critical paradigm shifts by which one can measure the development of the idea of true personhood presented The three watershed eras of discernment of divine personhood presented are seen here as first the Cappadocian position of the mutual indwelling perichoresis of the divine persons is contrasted with Augustine's view of the place of relations in defining divine persons Second the ideas of Richard of St Victor whose *caritas consummata* and its relational implications met the nemesis of the Thomistic category of subsistent relations And last as an example of this important discussion in modernity the German Heribert Mhlen's dynamic phenomenological approach to Triune personhood is offered as a means of countering the implicit modalisms of Barth and Rahner If the personhood of God is in essence Being in Another then Christianity must apply that ontology to all sectors of reality to be fully Christian

*When Evil Strikes* Sunday Bobai Agang, 2016-06-22 Human hostility is not the narrative of a selected few Since the fall of the grandparents of the human family Adam and Eve all humans have continued to participate in the reality of evil Accordingly the question is no longer whether evil will strike but rather when evil strikes how should humans particularly Christians respond to it This book offers a relevant and effective theology and ethics for addressing the issue of Christian response to violence in Nigeria and beyond It situates the whole gamut of the reign of human hostility in its various manifestations self interest and greed for power deception and social injustices governmental official corruption terrorism and so on It encourages humans to take seriously both the fact of God creating humans good and the fall serving as the gateway of evil into the human race It recognizes the complexity of human problems Yet it offers possibility for just peacemaking In spite of the horrific violence across the globe humans are still able to do tremendous good Thus the book recognizes the paradox of humanity humans are capable of doing tremendous good and equally capable of doing tremendous evil

**The Spirit of American Liberal Theology** Gary Dorrien, 2023-09-05 The Spirit of American Liberal Theology is an interpretation of the entire U S American tradition of liberal theology A highly condensed and far more accessible summary

of Gary Dorrien's three volume trilogy *The Making of American Liberal Theology* Westminster John Knox Press 2001 2003 and 2006 Dorrien here presses the argument that the most abundant diverse and persistent tradition of liberal theology is the one that blossomed in the United States and is still refashioning itself While discussions of English and German liberalism persist new material includes expanded treatment of the Black social gospel the Universalists developments into early 2020s and a robust expression of the author's post Hegelian liberal liberationist perspective *A Generous Symphony* Christopher D. Denny, 2016-11-01 Hans Urs von Balthasar one of the preeminent theologians of Roman Catholic theology in the modern era constructed a theological world suffused by the literary a vision carried across over 16 volumes of his magnum opus *A Generous Symphony* offers a balanced appraisal of Balthasar's literary achievement and explicates Balthasar's literary criticism as a distinctive theology of revelation which offers possibilities for understanding how divine presence may be manifested outside the canonical boundaries of Christian tradition The structure of *A Generous Symphony* is a chronological presentation of the Balthasarian canon of imaginative literature which allows readers to see how social and historical interests guide Balthasar's readings in the pre Christian medieval and modern eras While other books have examined the systematic theology of Balthasar this book will examine the important question of how students of literature like Balthasar can be transformed into theologians by attending to the implicit presence of Christ in what Gerard Manley Hopkins poem *As kingfishers catch fire* called the ten thousand places Balthasar's deep investment in the uniqueness of Christian revelation is underlined while at the same time his aesthetic sympathies cause him to invest literature with quasi sacramental status

**Social Distinctives of the Christians in the First Century** Edwin A. Judge, 2007-10-01 This is a collection of pivotal essays by E A Judge who initiated many important discussions in the establishment of social scientific criticism of the Bible What is it that made the work of Judge in 1960 and in subsequent years so important Judge was the first in scholarship after the mid twentieth century to clarify early Christian ideals about society by defining what the social institutions of the broader cultural context were and how they influenced the social institutions of the early Christian communities Judge points out that earlier scholars had entered into this field of inquiry but that in general they failed due to the lack of careful definitions of the Greco Roman social institutions at the time based on a thorough use of the primary sources Thus Judge was the new founder a turning point in scholarship of what came to be called social scientific criticism of the New Testament Social scientific criticism is the term in scholarship that refers to the use of social realities e g institutions class factors of community organization in the critical study of literary sources available this is an advance over merely literary and traditional historical questions **The Spectator**, 1843 A weekly review of politics literature theology and art [Limited Government and the Death of God](#) Linda C. Raeder, 2019-01-16 [Limited Government and the Death of God](#) The Rise and Fall of Freedom is the third of three volumes comprising a comprehensive study of freedom and American society Volume III explores the historical rise of the free society in the West and especially its relation to the religious worldview that inspired the quest for individual
