Half our dayes wee passe in the shadowe of the earth, and the brother of death exacteth a third part of our lives. A good part of our sleepes is peised out with visions, and phantastical objects where wee are confessedly deceived. The day supplyeth us with truths, the night with fictions and falsehoods, which uncomforably divide the natural account of our beings. And therefore having passed the day in labours and rational enquires of truth, wee are faine to betake ourselves unto such a state of being, wherein the soberest heads have acted all the monstrosities of melancholy, and which unto open eyes are no better then folly and madnesse.

Happy are they that go to bed with grave musick like Pythagoras, or have wayes to compose the phantastical spirit, whose unruly wandrings takes of inward sleepe, filling our heads with St. Anthonies visions, and the dreams of Lipara in the sober chambers of rest. Virtuous thoughts of the day laye up good treasures for the night, whereby the impressions or imagine formes alter into sober similitudes, ascriptions into our slumbring selves, and preparatory unto divine impressions; herby Solomons sleepe was happy. Thus prepared Jacob might well dreame of Angels upon a pillow of stone, and the best sense of Adam might bee the best any after.

That there should bee divine dreames seems unreasonable doubted by Aristotle. That there are comonical dreames wee have little reason to doubt. Why may there not bee Angelicall best bee Guardian spirits, they may not bee unactively about us in sleepe, butt may sometimes order our dreames, and many strange hints, indications, or discoveries which are so amazing unto us, may arise from such foundations. Butt the phantasms of sleepe do commonly walk in the great roade of natural & animal dreames, wherein the thoughts or actions of the day are acted over and echoed in the night, who can therefore wonder that Chrysostome should dreame of St. Paul who dayly read his Epistles; or that Cæsar whose head was so taken up about the stormes should dreame that his end was in the mount Parnæ. Persons whose thoughts are dayly busied about heaven & the blessed state thereof, can hardly escape the nightly phantasms of it, which though sometimes taken for illustrations or divine dreames, yet rightly suspended may prove butt animal visions and natural night scenes of their waking contemplations.

Many dreames are made out by sagacious exposition from the signature of their subjects, carrying their interpretation in their fundamental sense & mysticke of similitude, whereby wee find understandings that natural fundamental every notional dependeth, may by symbolical adaptation hold a ready way to read the characters of Morpheus. In dreames of such a nature Aristotels, Achmet, and Strampsyclus, from Greek, Egyptian, and Arabian oneirocriticane, may lend some interpretation, who, while wee read of a ladder in Jacobs dreame, will tell us that ladders and scaires signify upbore. The greatest tyrant in such divinations was Nabuchodonosor, who will wee consider the dreame of Pharaoh, do teach us, that rivers overflowing speake plenty, leane oxen famine and scardie, and therefore it was butt reasonable in Pharaoh to demand the interpretation might escape the collision made of phantasms, that might have been moved by Satyr.
