## **Omtrent Het Parlement Opstellen Over Parlement En Democratisch Bestuur:**

*Democracies and Foreign Policy* Bernard Cecil Cohen,1995 In Democracies and Foreign Policy however Bernard Cohen offers the first detailed comparison of two Western democracies the United States and the Netherlands and their patterns of public participation in foreign policy To assess the influence of citizens on the foreign policies of each nation he examines the institutions that both shape and express public opinion national legislative bodies media of communication organized interest groups and searches for the roots of these institutions in the national political systems Cohen s thought provoking results demand a reassessment of aspects of foreign policy making that have been taken for granted in each of these countries Cohen finds for example that within the United States the media have significant power in setting agendas while the political parties remain relatively mute on foreign policy issues In the Netherlands on the other hand the media have a lesser role with the government instead sampling the opinion of the more outspoken political parties and party members The Dutch Foreign Ministry remaining walled off from the public has a much freer hand in foreign policy Cohen also finds that the U S State Department is much more sensitive to public opinion than its Dutch counterpart but surprisingly is less successful in understanding and coping with demands from its public    The Role of the Nation-State in the 21st Century: Human Rights, International Organisations and Foreign Policy Monique Castermans-Holleman,Fried van Hoof,Jacqueline Smith,2023-09-20 This collection of essays contributed by his friends pays tribute to the work of Peter R Baehr whose impressive career spans some 40 years of activity devoted to the cause of human rights Although human rights remains the leitmotiv of Professor Baehr s career the themes explored in this collection the role of the nation state in the 21st century international organisations and foreign policy are a reflection of the versatility of his work and the range of his interests This volume thus offers the reader a stimulating collection of essays by a wide range of international experts on both the theory and the practice of human rights within the context of the nation state of the 21st century    *Omtrent het parlement* ,1985
