On Christian Doctrine Dover Philosophical Classics:

On Christian Doctrine St. Augustine, 2009-01-26 Since the dawn of the fifth century theology students religious scholars and Christian readers have turned to this volume for instruction Written by one of the foremost leaders in the development of Christian thought it offers practical as well as theoretical guidance on how to read the Bible and explain the meaning of scripture Augustine intended his treatise for the priests in his North African diocese of Hippo but ultimately the saint's counsel laid the groundwork for modern hermeneutics and semiotics The first of On Christian Doctrine's four parts begins with an overview of the subjects treated in holy scripture Subsequent parts discuss signs and their recognition the distinctions between literal and figurative expressions and the scriptures stylistic combination of eloquence and wisdom Above all Augustine's text concerns itself with the ways in which individuals can live in harmony with Jesus' teachings Christians and non-Christians alike value this work for its role in historical theology its influence on the development of Biblical interpretation and its insights into the mind of a great Christian philosopher and ecclesiastic *The Self Examined* Jenny McGill, 2018-09-04 Through a fresh investigation of the relationship between faith and identity this diverse group of international contributors offers an engaging discussion of human identity and specifically Christian identity From a biblical foundation they address theological discussions of identity and contemporary cultural themes such as migration ethnicity embodiment attachment and gender Straightforward and thought provoking *The Self Examined* is an accessible guide to this wide ranging and important issue *Living Without Why* John M. Connolly, 2014-07-10 What does it mean to live without why This was the advice of Meister Eckhart ca 1260-1328 both in his Latin treatises to philosophers and theologians and in his German sermons to nuns and ordinary lay persons He seems to have meant that we should live and act out of justice or goodness and not in order to gain some reward for our deeds This message was received with indignation by the Church hierarchy and was condemned by the Pope in 1329 How did Eckhart come to formulate it And why was it so controversial John M Connolly addresses these questions by locating Eckhart's thinking about how to live within the mainstream synthesis of Christian and classical thought formulated in the High Middle Ages He calls the classical Greek moral consensus teleological eudaimonism according to which correct living coincides with the attainment of happiness eudaimonia This involves living a life marked by the practice of the virtues which in turn requires a consistent desire for the correct goal in life This desire is the core notion of will In late antiquity Augustine drew on this tradition in formulating his views about how Christians should live This required grafting onto classical eudaimonism a set of distinctively scriptural notions such as divine providence original sin redemption and grace In the 13th century these ideas were systematized by Thomas Aquinas in his will centered moral theology Eckhart claimed that this tradition was profoundly mistaken Far from being a wild eyed mystic or visionary he argued trenchantly from classical philosophical principles and the Christian scriptures Connolly proposes that Eckhart's views long obscured by the papal condemnation deserve reconsideration today [Philosophic Classics: From](#)

The Identity of Jesus Christ, Expanded and Updated Edition Hans W. Frei, 2013-11-19 This is a book about Jesus of Nazareth It is not a book about story nor about narrative theology Hans Frei was not a theologian of story or of narrative in any general way and this book is neither about the narrative quality of our existence and the gospel's relation to that quality nor about the narrative shape of the Scriptures as a whole and the call on us to place ourselves within that narrative Rather this is a book about the way in which Jesus of Nazareth's identity is rendered by the Gospels largely the Synoptic Gospels particularly the Gospel of Luke and especially in the passion and resurrection sequences by means of a certain kind of narrative from the Foreword by Mike Higton

Irreconcilable Differences? Jason C. Robinson, David Peck, 2015-03-17 What if philosophy theology and science spent a little more time together These fields often seem at odds butting metaphysical heads Instead of talking at how about talking with one another This book engages three academic disciplines distinct yet sharing much in common in a slice of conversation and community in which participants have aimed at validating the other and the way the other sees the world The result is a collection of essays united by a thread that can be hard to find in academia In bringing together a wide range of contributors on a project that at first seemed unlikely *Irreconcilable Differences* is also a testament to the spirit of cooperation and hard work evidence that small acts and events can make a big difference and that sometimes all you need in order to make something good happen is an idea with a little support along the way The editors of this collection are hopeful that its contributors and readers will keep looking for ways to bridge academic social and political gaps We need to forge relationships based on personal knowledge and proper confidence seeking to make meaningful claims in an increasingly complex world

Goods Emanuele Coccia, 2018-07-24 Objects are all around us and images of objects advertisements for objects Things are no longer merely purely physical or economic entities within the visual economy of advertising they are inescapably moral Any object regardless of its nature can for at least a moment aspire to be good can become not just an object of value but a complex of possible happiness a moral source of perfection for any one of us Our relation to things Coccia argues in this provocative book is what makes us human and the object world must be conceived as an ultimate

artifact in order for it to be the site of what the philosophical tradition has considered the good Thinking a radical political praxis against a facile materialist critique of things Coccia shows how objects become the medium through which a city enunciates its ethos making available an ethical life to those who live among them When we acknowledge that our notion of the good resides within a world of things we must grant that in advertising humans have revealed themselves as organisms that are ethically inseparable from the very things they produce exchange and desire In the advertising imaginary to be human is to be a moral cyborgs whose existence attains ethical perfection only via the universe of things The necessary alienation which commodities cause and express is moral rather than economic or social we need our own products not just to survive biologically or to improve the physical conditions of our existence but to live morally Ultimately Coccia s provocative book offers a radically political rethinking of the power of images The problem of contemporary politics is not the anesthetization of words but the excess power we invest in them Within images we already live in another form of political life which has very little to do with the one invented and formalized by the ancient and modern legal tradition All we need to do is to recognize it Advertising and fashion are just the primitive sometimes grotesque but ultimately irrepressible prefiguration of the new politics to come

Treier,2006 Theology s longest tradition is as a course of study that leads to wisdom With the growth of the academy however theology fell into a fixation with the objective results of science In this illuminating study Daniel Treier retrieves the older deeper understanding of theology and connects wisdom in theological education to the theological interpretation of scripture giving rise to a renewed understanding of the role of virtue in each Dialoguing with a number of prominent proponents of theological interpretation of scripture Treier builds on a biblical theology of wisdom that involves the daily lives of all God s people Ultimately Treier connects educational discussions of theology and hermeneutical discussions through a trinitarian understanding of wisdom As a result the increasingly diverse forms and social locations of theology can be integrated into the mainstream of theological reflection Filled with interdisciplinary wisdom *Virtue and the Voice of God* is a timely recovery of the essential conversation between theological education virtue and scriptural interpretation *Preaching from Inside the Story* Jeffrey W. Frymire,2022-06-02 *Preaching from Inside the Story* is a book that seeks to carve out an understanding of narrative preaching in an age where there is little agreement about its nature and practice Capitalizing on the works of Craddock and Lowry it seeks to find an expanded palette upon which the preacher may engage the larger canvas of narrative preaching This book will engage the mind by introducing neuroscientific understandings of creativity build upon the foundations of the philosophy of stories by engaging Aristotle s foundational understanding of narrative and renew the Lowry Loop by expanding this seminal work and how it should be understood in our current culture *Preaching from Inside the Story* breaks new ground by encouraging preachers to move inside stories and tell them from the inside out providing a positive effect thereby affording non narrative preachers to connect with storytelling principles Ultimately it is filled with examples of how to do narrative in a very practical way However in showing these practical examples the reader is involved in a deep analysis of those narrative sermons and how they fit into an overall narrative understanding of preaching In the final analysis it invites the reader to take a fresh journey into narrative preaching **Edinburgh Critical History of Nineteenth-Century Christian Theology** Daniel Whistler,2017-10-23 Bridges the gap between Plutarch Studies and Achaemenid Studies through analysis of key texts **INTRODUCTION TO COLLEGE PHILOSOPHY** Victor Moeller,2013-07-11 This college course an Introduction to Philosophy is not a history of the great philosophers and their systems It is not a survey of the traditional divisions of philosophy metaphysics epistemology phenomenology ethics politics and aesthetics It is however a process of doing philosophy that takes up some of the basic questions and problems that we will all encounter in life sooner or later It is also an application of the Socratic method of teaching and learning that develop habits of independent critical and reflective thinking It is a series of Socratic seminars on the Great Books by the greatest faculty of the Western world and a process that illustrates how to pass from the world of work need and empirical science
