Fernández-Santamaría, 2005 Natural Law Constitutionalism Reason of State and War Counter Reformation Spanish Political Thought Volumes I and II aims at understanding how Spanish thinkers in the sixteenth and early seventeenth centuries approached the emerging institution of the state Both volumes are divided evenly into four distinct but related parts that cover the Spaniards central concerns In the first part a fundamental question is asked Is the state a natural institution In the second the theme is determining the best form of government The third part is concerned with the imperative need to define the ethical boundaries beyond which the state must not trespass Finally the fourth part examines the question of war as an instrument of policy Selection of Reports and Papers of the House of Commons, 1836 **Christian Social Teachings** George W. Forell, 2012-09-01 Jesus as an instigator of revolutionary change **The Essential Summa Theologiae** Frederick Christian Bauerschmidt, 2021-11-16 Saint Thomas Aquinas s masterwork the Summa theologiae can be daunting to beginners This volume by an expert on Aquinas s theology offers an ideal introduction It presents key selections from the Summa along with accessible commentary designed to provide background explain key concepts and walk readers through Aquinas s arguments Previously published as Holy Teaching this new edition has been fully revised and includes a substantial amount of new material The book draws from the entire Summa and incorporates selections that focus on moral theology providing a fuller picture of Aquinas s thought Historical Dictionary of Lutheranism Günther Gassmann, Mark W. America on Trial, Expanded Edition Robert Reilly, 2022-02-01 The Founding of the American Republic is on trial Critics say it was a poison pill with a time release formula we are its victims Its principles are responsible for the country s moral and social disintegration because they were based on the Enlightenment falsehood of radical individual autonomy In this well

researched book Robert Reilly declares not guilty To prove his case he traces the lineage of the ideas that made the United States and its ordered liberty possible These concepts were extraordinary when they first burst upon the ancient world the Judaic oneness of God who creates ex nihilo and imprints his image on man the Greek rational order of the world based upon the Reason behind it and the Christian arrival of that Reason Logos incarnate in Christ These may seem a long way from the American Founding but Reilly argues that they are in fact its bedrock Combined they mandated the exercise of both freedom and reason **The Drama of Humanity and Other Miscellaneous Papers, 1939-1985** Eric Voegelin, 2004
