Lifeworlds of Islam Mohammed A. Bamyeh,2019-04-22 How do old ideas continue to appear relevant in a modern world A sociological approach to Islam allow us to approach an answer to this question In *Lifeworlds of Islam* Mohammed A Bamyeh shows that Islam has typically operated not in the form of standard dogmas but more often as a compass for practical individual orientations or lifeworlds Through a comprehensive sociological analysis of Islam he maps out how Muslims have employed the faith to foster global networks public philosophies and engaged civic lives both historically and in the present Bamyeh further argues that all three fields are poorly understood in recent literature which tends to focus on one specific problem or another and does not take into account the variety of lifeworlds in which Islam operates The book contends that the larger preoccupations of ordinary Muslims how to imagine a global society how to guide life in the manner of a total philosophy and how to relate to the world of daily struggles in organized or semi organized civic forums and social movements are neither unique to the present period nor to religious life They are rather shared universal quandaries A focused empirical lens on the career of a religion *Lifeworlds of Islam* contributes to the larger literature and provides insight into the nature of global citizenship the philosophical needs of individuals and the ethical values that foster social participation *Islamic Sociology* Waffie Mohammed,2008 *The International Politics of the Persian Gulf* Arshin Adib-Moghaddam,2006-09-27 Provocatively written persuasively researched and conclusively argued Adib Moghaddam presents the first comprehensive analysis of international relations in the Gulf from a mutidisciplinary perspective **Islam and Society** Riaz Hassan,2013-06-01 The central focus of this volume is to explore and highlight the nexus between the ideology of Islam and social and cultural milieus with the aim of reconceptualising the sacred as a socially constructed reality and not a transcendental supernatural phenomenon From this perspective human agency and society become the main focus for shaping perpetuating and institutionalising religious beliefs ideas and practices opening up space for empirical and

sociological analyses of religious phenomena The seven essays in this volume seek to explore and examine some of the key debates in contemporary sociology of Islam The topics explored are social factors in the origins of Islam social theory and Muslim society Islam and politics in South Asia Muslim piety anti-Semitism the social foundations of Muhammad's prophetic mission with a special reference to Arab historical memory and the role of his first wife Khadija bint Khuwaylid and the barriers to social inclusion of Australian Muslims in Australian society Islamic Studies Series Volume 14
