

The Beauty of A Woman

Audrey Hepburn, the late actress and humanitarian had this to say when asked about her “beauty tips”.

For attractive lips... Speak with words of kindness.

For lovely eyes... Seek out the good in people.

For a slim figure... Share your food with the hungry.

For beautiful hair... Let a child run his or her fingers through it once a day.

For poise... Walk with the knowledge you'll never walk alone

People, even more than things, have to be restored, renewed, revived, reclaimed and redeemed... Never throw out anybody.

Female Beauty Systems Christine Adams, Tracy Adams, 2015-09-04 Female beauty systems everywhere are complex, integrating markers of class, status, power, and sexuality to perform the fundamental function of sorting individuals into categories of more or less desirable. Heirs to the tradition of courtly love, modern western female beauty systems tend to share the norm of man as pursuer, woman as pursued, having developed around the trope of the madly desiring poet or knight supplicating his aloof and lovely lady for her favor. The apparent longevity of the courtly love tradition raises the question of whether the way in which it structures male desire in reaction to female beauty is part of a universal tendency, an evolutionary adaptation, despite clear evidence that female beauty systems are also, in fact, socially constructed and reflect enormous ambivalence about the power and performance of beauty. Although modern western female beauty systems are routinely demystified and contested today, the purveyors of culture that support them—intellectual, artistic, commercial, and popular—continue as they always have to construe women as objects of male desire. Still within this basic structure, the systems have varied greatly across time and space, with women using beauty as a form of social capital in widely differing ways. Moreover, as individuals have begun to experience their bodies as malleable and endlessly transformable rather than unruly and unyielding, many have begun to experience beauty less as a given and more as a project. The nine essays collected here examine a number of different Western female beauty systems over the centuries, considering how women have complied with, contributed to, profited or suffered from, and resisted them.

The Academy, 1910 **On the Beauty of Women** Agnolo Firenzuola, 1992 First published in 1548, Agnolo Firenzuola's *On the Beauty of Women* purports to be the record of two conversations shared by a young gentleman, Celso, and four ladies of the upper bourgeoisie of Prato, a small city in the vicinity of Florence. Meeting one afternoon in a sun-drenched garden, Celso and the ladies consider universal beauty as the proper natural balance of individually beautiful parts. On a subsequent evening, the five move to the home of one of the ladies and attempt to fashion a composite picture of perfect beauty by combining the beautiful features of women they know. The standards of beauty established in the garden give way to the artistic, creative imagination of the human spirit, and the group's movement from garden to hall seems to echo the dialogue's movement from Nature to Art, from divinely to humanly created beauty.

criticized pervasive beauty regimes such as dieting and depilation but a later argument took hold that beauty practices were no longer oppressive now that women could choose them In recent years the reality of Western beauty practices has become much more bloody and severe requiring the breaking of skin and the rearrangement or amputation of body parts Beauty and Misogyny seeks to make sense of why beauty practices have not only persisted but become more extreme It examines the pervasive use of makeup the misogyny of fashion and high heeled shoes and looks at the role of pornography in the creation of increasingly popular beauty practices such as breast implants genital waxing surgical alteration of the labia and other forms of self mutilation The book concludes by considering how a culture of resistance to these practices can be created A new and thoroughly updated edition of this essential work will appeal to all levels of students and teachers of gender studies cultural studies and feminist psychology and to anyone with an interest in feminism women and beauty and women s health

Feminists, Feminisms, and Advertising Kim Golombisky, Peggy J. Kreshel, 2017-10-16

Women and advertising are both globally ubiquitous. Yet advertising remains one of the most unabashedly misogynist, heterosexist, and racist industries. This edited volume of original, unpublished chapters is the first ever to offer explicitly feminist views on advertising. *Feminists, Feminisms, and Advertising* provides feminist analyses of the historical relationships between the advertising industry and the women's movement in the United States. Contributors consider the ways that advertisers encode race, ethnicity, gender, and heteronormativity into advertising practices and messages exported around the world. They further explore the ways that intersectional audiences such as women of color, Latinas, and lesbian and gay audiences decode, reinterpret, resist, and subvert advertising. With this book, the editors and contributors address the present lack of feminist scholarship, research, knowledge, or curriculum in advertising and begin a more honest dialogue about diversity and intersectional gender in the advertising academy, as well as the advertising industry.
