observed that severe emotional or psychiatric illnesses often involve spiritual sickness as well. Spiritual sickness is a complex concept that may take many forms depending on the type of emotional illness it accompanies. *Mental Illness and Psychiatric Treatment: A Guide for Pastoral Counselors* shows you what spiritual symptoms to look for when assessing someone in your care. For example, did you know that severe depressive illness could include the loss of faith, abandonment of hope, loss of a right relationship with God, or even self-hatred, guilt, despair, and self-annihilation? A psychotic reaction marked by loss of contact with reality might involve abnormal self-importance, grandiosity, fear, or stubbornly mistaken perceptions of reality. A problem with alcoholism might involve immoral behavior, irresponsible conduct, denial of the loss of control over liquor consumption, or abject guilt, shame, and self-hatred. Personality disorders may bring on profound disturbances in social relationships, self-centered anger, impulsiveness, dishonesty, impurity, or distrust of others. People with anxiety disorders can lose their trust in God, develop obsessive fears and tensions, and become unable to turn things over to God's divine care. In *Mental Illness and Psychiatric Treatment: A Guide for Pastoral Counselors*, you'll find the information you need to make effective judgments and assessments about the people seeking your help. The book provides you with fascinating case studies that highlight symptoms and illness patterns as well as treatment options and techniques for coordinating pastoral counseling with the mental health team. You'll learn to recognize the spiritual symptoms of disease, negative inappropriate or self-defeating attitudes or behaviors, and to deal specifically with these manifestations of illness through pastoral intervention and counseling.

**Addiction Treatment** Daniel E. Hood, 2011-01-15 *Addiction Treatment* is an ethnography that compares two types of residential drug-free treatment programs: religious faith-based programs and science-based secular programs. Although these programs have originated from significantly different ideological bases, in examining the day-to-day operations of each, Daniel E. Hood concludes that they are far more alike than they are different. Drug-free treatment today, whether in secular or religious form, is little more than a remnant of the temperance movement. It is a warning to stop using drugs. At its best, treatment provides practical advice and support for complete abstinence. At its worst, it demeans users for a form of behavior that is not well understood and threatens death if they do not stop. Hood argues that there is no universal agreement on what addiction is, and that drug abuse is little more than a catch-all term of no specific meaning used to condemn behavior that is socially unacceptable. Through extensive participatory observations, intimate life history interviews, and informal conversations with residents and staff, Hood shows how both programs use the same basic techniques of ideological persuasion, mutual witnessing, methods of social control, discourse, deprivation, and the same proposed zero-tolerance, abstinent lifestyle. Christian living vs. Right living as they endeavor to transform clients from addicts to citizens or from sinners to disciples.

**Ashamed No More** T. C. Ryan, 2012-06-28 Pastor T. C. In light of his full experience of exile and healing, Ryan calls the church to a ministry of unsettling grace.

Ponomareff, Kenneth A. Bryson, 2006-01-01 This interdisciplinary book examines the nature of spirituality and the role it plays in the search for meaning Spirituality is a loving tendency towards the sacred In a secular environment the sacred is taken to be a power greater than self In a religious environment the Sacred refers to God or Higher Power The book examines the developments of the s Sacred in great works of art and literature as well as in medicine theology psychology philosophy and religion Spirituality also functions as an unloving tendency towards disunity or a force for evil The first part of the book examines the ways of the spiritual as a force for good and evil We have just witnessed one of the bloodiest centuries in human history The experience of two World Wars leaves a legacy of brokenness Where Nossack s reminiscences bore poetic compassionate and personal witness to the disaster Eliot s poetry reads more like a sacred and religious poem taking contemporary Western European civilization to task much like the biblical prophets of old for its spiritual bankruptcy Albert Einstein Edvard Munch s Madonna and Carl Jung s unconscious touch the curve of the Sacred in more promising places The second part examines how the search for meaning works The distinction between being human and being a person plays a central role in the life of the spiritual the spiritual is manifest in the activities taking place in the central self The central self is the locus of all thoughts feelings acts of reason and judgment conscious and unconscious processes alike The central self is the place where social relationships and environmental relationships are processed The essential feature of the central self is that it does not exist outside these processes The same spiritual energies that light up great works of art also light up our destructive side only the associations change      **After a Life-Threatening Diagnosis...What's Next?** Carolyn
