simple question What does international patent law look like when we approach it through the lens of these values What is being left out when patent law is described predominantly in terms of its technical legal provisions or economic impact The book presents three interrelated contexts EU patent law bilateral trade agreements and the multilateral space Modern patent law is increasingly discussed in terms of national competitiveness or economic potential which reveals only a narrow understanding of how patent law evolves and functions The vocabulary of administrative law provides a fresh way of recasting reframing and re describing the dynamics of international patent law in a way that is more accessible to those outside of a traditional patent scholarship audience A fundamental objective of the book is to challenge the tendency towards technocratic isolation in patent law The book uses accessible vocabulary and represents a new way of conceptualising and understanding how patent law develops on a global scale The book will be of interest to researchers in the field of patent law international law and administrative law **Intellectual Property Asset Management** Claire Howell,David
