Federal Trade Commission,2003 Innovation benefits consumers through the development of new and improved goods services and processes Competition and patents stand out among the federal policies that influence innovation Both competition and patent policy can foster innovation but each requires a proper balance with the other to do so This report by the Federal Trade Commission discusses and makes recommendations for the patent system to maintain a proper balance with competition law and policy The Patentability of Software Anton Hughes,2019-02-18 This book explores the question of whether software should be patented It analyses the ways in which the courts of the US the EU and Australia have attempted to deal with the problems surrounding the patentability of software and describes why it is that the software patent issue should be dealt with as a patentable subject matter issue rather than as an issue of novelty or nonobviousness Anton Hughes demonstrates that the current approach has failed and that a fresh approach to the software patent problem is needed The book goes on to argue against the patentability of software based on its close relationship to mathematics Drawing on historical and philosophical accounts of mathematics in pursuit of a better understanding of its nature and focusing the debate on the conditions necessary for mathematical advancement the author puts forward an analytical framework centred around the concept of the useful arts This analysis both explains mathematics and therefore software s nonpatentability and offers a theory of patentable subject matter consistent with Australian American and European patent law Innovation for the 21st Century Michael A. Carrier,2011-02-04 Innovation For The 21st Century contends that intellectual property and antitrust the two most important laws fostering innovation are not being used most effectively to achieve this goal and offers various proposals that individually and collectively remedy this deficiency **The Software IP Detective's Handbook** Bob Zeidman,2011-04-28 Intellectual property software plagiarism patents and copyrights are complicated subjects This book explains the key elements better than anything else I have seen I highly recommend it to anyone who develops software or needs to protect proprietary software algorithms and to all attorneys involved with IP litigation Capers Jones President Capers Jones Associates LLC Intellectual property is an engine of growth for our high tech world and a valuable commodity traded in its own right Bob Zeidman is a leading authority on software intellectual property and in this book he shares his expertise with us The book is comprehensive It contains clear explanations of many difficult subjects Business people who study it will learn how to protect their IP Lawyers will use it to understand the specifics of how software embodies IP Judges will cite it in their decisions on IP litigation Abraham Sofaer George P Shultz Senior Fellow in Foreign Policy and National Security Affairs Hoover Institution Stanford University The Definitive Software IP Guide for Developers Managers Entrepreneurs Attorneys and Consultants In The Software IP
