Between Memory and Forgetting: Paul Ricoeur's Pedagogy of Pardon Maria Duffy, 2005

Performing Southeast Asia Marcus Cheng Chye Tan, Charlene Rajendran, 2020-02-14 Performing Southeast Asia Performance Politics and the Contemporary is an important reconsideration of the histories and practices of theatre and performance in a fluid and dynamic region that is also experiencing an overarching politics of complexity precarity and populist authoritarian tendencies In a substantial introductory essay and essays by leading scholars activists and practitioners working inside the region the book explores fundamental questions for the arts The book asks how theatre contributes to and or addresses the political condition in the contemporary moment how does it represent the complexity of experiences in peoples daily lives and how does theatre engage in forms of political activism and enable a diversity of voices to flourish The book shows how in an age of

increasingly violent politics political institutions become sites for bad actors and propaganda Forces of biopolitics neo liberalism and religious and ethnic nationalism intersect in unpredictable ways with decolonial practices all of which the book argues are forces that define the contemporary moment Indeed by putting the focus on contemporary politics in the region alongside the diversity of practices in contemporary theatre we see a substantial reformation of the idea of the contemporary moment not as a cosmopolitan and elite artistic practice but as a multivalent agent of change in both aesthetic and political terms With its focus on community activism and the creative possibilities of the performing arts the region Performing Southeast Asia is a timely intervention that brings us to a new understanding of how contemporary Southeast Asia has become a site of contest struggle and reinvention of the relations between the arts and society Peter Eckersall The Graduate Center City University of New York Performing Southeast Asia with chapters concerned with how regional theatres seek contextually grounded yet post national istic forms how history and tradition shape but do not hold down contemporary theatre and how in the editors words such artistic encounters could result in theatres that do not merely attend to matters of cultural heritage tradition or history but instead engage overtly with theatre and performance in the contemporary contributes to the possibility of understanding what options for an artistically transubstantiated now ness may be to the possibility that is of what might be called a Present Tense Theatre C J W L Wee Professor of English Nanyang Technological University Performing Southeast Asia examines contemporary performance practices and their relationship with politics and governance in Southeast Asia in the twenty first century In a region haunted historically by strongman politics authoritarianism and militarism religious tension and ethnic strife the chapters reveal how contemporary theatre and performances in the present reflect yet challenge dominant socio political discourses The authors analyse works of political commitment and conviction created and performed by Southeast Asian artists as modes and platforms of reaction and resistance to the shifting political climates that inform contemporary life in urban Southeast Asia The discussions center on issues of state hegemonies and biopolitics finance and sponsorship social liberalism and conservatism the relevance of history and tradition and globalisation and cultural practice These diverse yet related concerns converge on an examination of the efficacies of theatre and performance as means of political intervention and transformation that point to alternative embodiments of political consciousness through which artists propose critical options for rethinking the state citizenship identity and belonging in a time of seismic socio political change The editors also reframe an understanding of the contemporary not simply as a temporal adjective but in the context of present Southeast Asia as a geopolitical condition that shapes artistic and performance practices

Reading Religious Ritual with Ricoeur Christina M. Gschwandtner, 2021-08-20

Reading Religious Ritual with Ricoeur Between Fragility and Hope creates a dialogue between Ric ur s hermeneutic philosophy and the interpretation of human ritual practices especially as such practices are manifested within the context of Christian liturgy In the first part of the book Christina M Gschwandtner shows that Ric ur s account of religion would be

deepened if it were to take into account not only the biblical texts but also forms of liturgical expression and ritual actions She challenges Ric ur s early reading of the symbol and second na vet broadens his interpretation of biblical texts and faith to consider religious actions more fully and suggests that ritual can enhance human capacities The second part of the book employs Ric ur s hermeneutics in order to shed light on the analysis of liturgy demonstrating that his accounts of truth of the world of the text of religious language of the imagination and of the formation of identity are all eminently applicable to liturgical experience Reading Religious Ritual with Ricoeur shows that one of the most significant themes in Ric ur s work the tension between fragility and hope is especially helpful for understanding what liturgy does and how it functions Seeing how liturgy and ritual configure fragility and hope also enriches Ric ur s account of the role and function of religion in human experience

Dao Companion to Chinese Buddhist Philosophy Youru Wang,Sandra A. Wawrytko,2019-01-31 Too often Buddhism has been subjected to the Procrustean box of western thought whereby it is stretched to fit fixed categories or had essential aspects lopped off to accommodate vastly different cultural norms and aims After several generations of scholarly discussion in English speaking communities it is time to move to the next hermeneutical stage Buddhist philosophy must be liberated from the confines of a quasi religious stereotype and judged on its own merits Hence this work will approach Chinese Buddhism as a philosophical tradition in its own right not as an historical after thought nor as an occasion for comparative discussions that assume the west alone sets the standards for or is the origin of philosophy and its methodologies Viewed within their own context Chinese Buddhist philosophers have much to contribute to a wide range of philosophical concerns including metaphysics epistemology ethics philosophy of language philosophy of mind and philosophy of religion even though Western divisions of philosophy may not exhaust the rich contents of Chinese Buddhist philosophy

Life Writing and Politics of Memory in Eastern Europe Simona Mitroiu,2015-08-25 This volume addresses the issues of remembering and performing the past in Eastern European ex communist states in the context of multiplication of the voices of the past The

book analyzes the various ways in which memory and remembrance operate it does so by using different methods of recollecting the past from oral history to cultural and historical institutions and by drawing on various political and cultural theories and concepts Through well documented case studies the volume showcases the plurality of approaches available for analyzing the relationship between memory and narrative from an interdisciplinary and international perspective **French XX Bibliography, Issue #62** Sheri Dion,2011-09 From Misery to Hope Joe Egan,2010 How can one believe in a God of love amid all the evil and suffering found in the world How does one do theology after Auschwitz while vast numbers of people still have to endure violent oppression every day This book seeks to address such questions from a standpoint informed by life in Africa which in the face of extraordinary difficulties bears witness to Gospel hope by demonstrating forgiveness in action and promoting reconciliation The work unfolds in two parts In the first part a description of the misery that characterises much of life in Africa in the recent past opens up to a theological consideration of the underlying causes and of God s response to them In the second part the joy which is so characteristic of life in Africa even in places of immense suffering sets the scene for detailed reflections on liturgy memory forgiveness and hope **Re-membering the New Covenant at Corinth** Emmanuel Nathan,2020-03-27 Did Paul instigate Christianity s separation from Judaism if one considers the stark polemical contrasts of new and old covenant in 2 Cor 3 Emmanuel Nathan argues that Paul reconfigured traditions and memories shaping the identity of his community at Corinth back cover Memory John Scanlan,2013-08-15 When we think of getting older we know we will slowly lose more and more of our memory and with it our sense of where we belong and how we connect to others We might relax a little if we considered the improvements in computer data storage which may lead us into a future when the limits of our memory become less constricting In this book John Scanlan explores the nature of memory and how we have come to live both with and within it as well as what might come from memory becoming a process as simple as retrieving and reading data Probing the ways philosophers look at memory Scanlan reveals that some argue that being human means having the ability to remember to see oneself as a being in time with a past and future At the same time he shows our memories can undo our present sense of time and place by presenting us with our past lives And in a digital age we are immersed in a vast archive of data that not only colors our everyday experiences but also supplies us with information on anything we might otherwise have forgotten breaking down the distinction between the memories of the individual and the collective Drawing on history philosophy and technology Memory offers an engaging investigation of how we comprehend recollection and how memory as a phenomenon continually remakes everyday life

Movement Or Moment? Patrick Claffey, Joe Egan, 2009 This collection of essays was written to mark the fortieth anniversary of the Second General Conference of Latin American Bishops which convened at Medell n Colombia in 1968 Inspired by the Second Vatican Council and seeking to implement its vision the bishops viewed the occasion as a decisive one for Latin America which they saw as standing on the threshold of a new epoch in the history of our continent It appears to have been a time full of zeal for emancipation of liberation from every form of servitude of personal maturity and of collective integration Forty years later however it is appropriate to remember the event and to review the significance of liberation theology in light of all that has happened during the intervening period The colloquium at the Milltown Institute Dublin which led to this book sought to do precisely that to establish where liberation theology now stands by questioning whether it really is a significant theological and ecclesial movement or merely a moment whose time has passed and to investigate its enduring legacy

Dialogic Ethics Ronald C. Arnett, François Cooren, 2018-06-14 Dialogic Ethics offers an impressionistic picture of the diversity of perspectives on this topic Daily we witness local regional national and international disputes each propelled by contention over what is and should be the good propelling communicative direction and action Communication ethics understood as an answer to problems often creates them If we understand communication ethics as a good protected and promoted by a given set of communicators we can understand how acts of colonialism and totalitarianism could move forward legitimized by the assumption that I am right This volume eschews such a presupposition recognizing that we live in a time of narrative and virtue contention We dwell in an era where the one answer is more often dangerous than correct
