*Paul's Early Period* Rainer Riesner, 1998 This monumental work by German scholar Rainer Riesner examines both biblical and extra biblical sources to establish the chronology of Paul's early ministry and also illumines our understanding of his work by portraying him in his cultural context

**Chronicles and the Politics of Davidic Restoration** David Janzen, 2017-05-18 David Janzen argues that the Book of Chronicles is a document with a political message as well as a theological one and moreover that the book's politics explain its theology The author of Chronicles was part of a 4th century B C E group within the post exilic Judean community that hoped to see the Davidides restored to power and he or she composed this work to promote a restoration of this house to the position of a client monarchy within the Persian Empire Once this is understood as the political motivation for the work's composition the reasons behind the Chronicler's particular alterations to source material and emphasis of certain issues becomes clear The doctrine of immediate retribution the role of all Israel at important junctures in Judah's past the promotion of Levitical status and authority the virtual joint reign of David and Solomon and the decision to begin the narrative with Saul's death can all be explained as ways in which the Chronicler tries to assure the 4th century assembly that a change in local government to Davidic client rule would benefit them It is not necessary to argue that Chronicles is either pro Davidic or pro Levitical it is both and the attention Chronicles pays to the Levites is done in the service of winning over a group within the temple personnel to the pro Davidic cause just as many of its other features were designed to appeal to other interest groups within the assembly

**Paul's Large Letters** Steve Reece, 2016-12-15 At the end of several of his letters the apostle Paul claims to be penning a summary and farewell greeting in his own hand 1 Corinthians Galatians Philemon of Colossians 2 Thessalonians Paul's claims raise some interesting questions about his letter writing practices Did he write any complete letters himself or did he always dictate to a scribe How much did his scribes contribute to the composition of his letters Did Paul make the effort to proofread and correct what he had dictated What was the purpose of Paul's autographic subscriptions What was Paul's purpose in calling attention to their autographic nature Why did Paul write in large letters in the subscription of his letter to the Galatians Why did he call attention to this peculiarity of his handwriting A good source of answers to these questions can be found among the primary documents that have survived from around the time of Paul a large number of which have been discovered over the past two centuries and in fact continue to be discovered to this day From around the time of Paul there are extant several dozen letters from the caves and refuges in the desert of eastern Judaea in Hebrew Aramaic Nabataean Greek and Latin several hundred from the remains of a Roman military camp in Vindolanda in northern England in Latin and several thousand from the sands of Middle and Upper Egypt in Greek Latin and Egyptian Demotic Reece has examined almost all these documents many of them unpublished and rarely read with special attention to their handwriting styles in order to shed some light on these technical aspects of Paul's letter writing conventions

**Rabbi Paul** Bruce Chilton, 2011-01-12 A brilliant new

biography of Saint Paul whose interpretations of the life and teachings of Jesus transformed a loosely organized grassroots peasant movement into the structured religion we know today Without Paul there would be no Christianity His letters to various churches scattered throughout the Roman Empire articulated for the first time the beliefs that make up the heart of Christian practice and faith In this extraordinary biography Bruce Chilton explains the changing images of Paul from the early Church period when he was regarded as the premiere apostle who separated Christianity from Judaism to more recent liberal evaluations which paint him as an antifeminist homophobic figure more dedicated to doctrine than to spiritual freedom By illuminating Paul's thoughts and contributions within the context of his time Chilton restores him to his place as the founding architect of the Church and one of the most important figures in Western history Rabbi Paul is at once a compelling highly readable biography and a window on how Jesus message was transformed into a religion embraced by millions around the world Drawing on Paul's own writings as well as historical and scholarly documents about his life and times Chilton portrays an all too human saint who helped to create both the most beautiful and the most troublesome aspects of the Church He shows that Paul sought to specify the correct approach to such central concerns as sexuality obedience faith conscience and spirit to define religion as an institution and to clarify the nature of the religious personality issues that Christians still struggle with today From the Trade Paperback edition      The Galatians Commentary Collection Scot McKnight, Thomas R. **First Letter to the Corinthians** Roy E Ciampa, Brian S Rosner, 2020-05-21 This careful sometimes innovative mid level commentary touches on an astonishingly wide swath of important sensitive issues theological and pastoral that have urgent resonances in twenty first century life This thorough commentary presents a coherent reading of 1 Corinthians taking full account of its Old Testament and Jewish roots and demonstrating Paul's primary concern for the unity and purity of the church and the glory of God Those who preach and teach 1 Corinthians will be grateful to Ciampa and Rosner for years to come and scholars will be challenged to see this letter with fresh eyes Paul's 'Works of the Law' in the Perspective of Second Century Reception Matthew J. Thomas, 2018-07-24 Paul writes that we are justified by faith apart from works of the law a disputed term that represents a fault line between old and new perspectives on Paul Was the Apostle reacting against the Jews good works done to earn salvation or the Mosaic Law's practices that identified the Jewish people Matthew J Thomas examines how Paul's second century readers understood these points in conflict how they relate to old and new perspectives and what their collective witness suggests about the Apostle's own meaning Surprisingly these early witnesses align closely with the new perspective though their reasoning often differs from both viewpoints They suggest that Paul opposes these works neither due to moralism nor primarily for experiential or social reasons but because the promised new law and covenant which are transformative and universal in scope have come in Christ **History and Literature of Early Christianity** Helmut Koester, 2019-09-23 No detailed description available for History and Literature of Early Christianity

Toney, 2008 Adapted from the author's dissertation Ph D Loyola University Chicago 2007 **Dutch Silver** J.W. Frederiks, 2012-12-06 Prosperity generally brings with it a desire for luxury which finds its expression in man's endeavour to surround himself with objects of beauty Artists of all kinds are always being attracted to the centres of wealth which thus develop into centres of art We observe this through the whole of history in antiquity in the Middle Ages and above all during the Renaissance in Italy where the many States and cities vied with each other in fostering cultural life where palaces castles and churches were built and decorated by the greatest artists as a result of the liberality of the art loving princes whose example was followed by the nobility and the rich merchants North of the Alps it was mainly France that came into the foreground in this field The Duc de Berry was one of the greatest patrons of art of all times His brother Philip Duke of Burgundy and his successors made of their court which frequently resided in the Southern Netherlands a centre of culture Under the Hapsburgs the tradition was continued The Northern Netherlands which also gradually came to be part of the Burgundian realm Holland since 1433 at first lagged

behind as far as cultural life was concerned but little by little they caught up with their southern contemporaries. An important factor in the development of the Netherlands was their geographical position which predestined them to become a great commercial centre.
