**Post-Mao China** Sujian Guo, 2000-01-30 Guo challenges the predominant view that post Mao China has moved away from communist totalitarianism and that totalitarianism is an outdated paradigm for China studies He seeks to reconstruct a

plausible macro model in conceptual and comparative terms for defining regime identity and assessing the nature of regime change Professor Guo then applies the model to the study of regime change in post Mao China and reevaluates post Mao changes across the five major empirical aspects of regime change political ideological economic legal and social and the most critical dimensions of each The findings of Guo s study demonstrate that the practice of post Mao reforms remains rooted in and committed to the hard core of Chinese communist totalitarianism and that the regime has attempted to revive many typical totalitarian practices Most essential or core elements of the idea practice and institution of totalitarianism remain essentially unchanged in all major aspects of the post Mao regime though the post Mao regime does suffer from a certain degree of regime weakening in its adjustments of the action means or protective belt of defending the hard core of the communist totalitarian regime A controversial and essential analysis for scholars researchers and policy makers involved with contemporary China

**Political Reform in Post-Mao China** Barrett L. McCormick, 2024-03-29

After the death of Mao the leadership of the Chinese Communist Party embarked on a series of ambitious political reforms Barrett L McCormick develops a theory of Leninist states to explore the prospects for these reforms He finds that although the Chinese people have made significant economic and political gains the basic contours of the state remain unchanged and as events in June 1989 clearly showed reform has not diminished the state s ability to impose its prerogatives on society Drawing on Weber s political sociology McCormick argues that patronage and corruption are integral aspects of Leninist rulership Reformers have attempted to promote democracy and law and to fight corruption but when they attempt to implement their programs through traditional hierarchical Leninist institutions lower level cadres have been able to utilize patronage networks to blunt the impact of reform and protect their personal agendas In his case studies of the legal system the people s congress and party rectification McCormick points up these obstacles to progressive change and assesses the extent to which reformers goals have been realized He shows that despite the often radical nature of the reform movements the principal dimensions of the Leninist system one party rule state domination of the economy a confining ideology remain largely intact These findings will be of interest to China specialists as well as students of comparative communism and Leninist states This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990

**Is China Unstable?** David L. Shambaugh, 2016-09-16 Focuses on the potential for instability in China from political economic and historical perspectives The book considers elite national and local politics micro and macro economics urban and rural conditions attitudes among intellectuals and minority areas The high profile contributors include Thomas Bernstein Pieter Bottelier Bruce Dickson June Dryer Merle Goldman Steven Jackson Nicholas

Lardy H Lyman Miller David Shambaugh and Dorothy Solinger      **Asian Forms of the Nation** Stein Tonnesson, Hans Antlov, 2013-10-23 The general tendency among theorists in nationalism and national identity has been to assume that the modernization process in Asia and Africa is a kind of distorted reflection of a Western precedent Asian forms of the nation have rarely been seen as independent alternative models Among today s leading theoreticians there is a growing tendency to take Asia seriously and to include Asian examples in the general discussion The aim of the present collection is to build on and reinforce this tendency It does not postulate any specifically Asian form of the nation as opposed to a Western one Rather it seeks to demonstrate that in Asia as well as in Europe each nation forms a unique amalgam which can be compared fruitfully with others History culture and geography have posed various kinds of limits to what can be imagined as Benedict Anderson puts it The relationship between geographical space and national construction is explored in depth here      **Media Transparency in China** Baohui Xie, 2014-08-20 This book argues that the gap between the official transparency rhetoric and the censorship reality has demonstrated the discrepancy between what the Party is and what it claims to be Such a discrepancy is manifested by the reality that the reformed news industry a hybrid of market oriented commercialization and party state control has largely failed to deliver either the voice of the disenfranchised groups or the value of journalism To observe the discrepancy this book investigates the role of transparency in the Chinese news media Media transparency which goes beyond the issue of censorship and press freedom has been undermined by the consensus reached between the party state and the media on political and market control It is this mutually accommodating and benefiting scheme between power and profits that has been hollowing out the substance of the transparency rhetoric and distorting the Marxist idea of press freedom as freedom for all This book argues that the cause of such a gap between rhetoric and reality is rooted in the disjuncture of political representation of both the party state and the profit seeking media      Bureaucracy, Politics, and Decision Making in Post-Mao China Kenneth G. Lieberthal, David M. Lampton, 2024-07-26 Using a model of fragmented authoritarianism this volume sharpens our view of the inner workings of the Chinese bureaucracy The contributors interviews with politically well placed bureaucrats and scholars along with documentary and field research illuminate the bargaining and maneuvering among officials on the national provincial and local levels CONTRIBUTORS Nina P Halpern Carol Lee Hamrin David M Lampton Kenneth G Lieberthal Melanie Manion Barry Naughton Lynne Paine Jonathan D Pollack Susan L Shirk Paul E Schroeder Andrew G Walder David Zweig This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992      **Civil-military Relations in Today's China: Swimming in a New Sea** David M. Finkelstein, Kristen Gunness, 2015-03-26 This work provides an in depth and up to date examination of civil military relations in China It reflects the significant changes taking

place in Chinese society and their impact on the civil military dynamic with particular attention to how the military will fit in with the new class of entrepreneurs Rather than focusing exclusively on elite Party Army relations the book examines civil military relations from various vantage points at the center and in the provinces between civilian leaders and military leaders from a strictly military perspective and from a civilian perspective and from the angle of specific issue areas Chapters explore issues such as the impact of AIDS the defense budget the emerging dynamic between the military and China's new leadership resettling demobilized troops back into civilian life and the role of the militia reserve units and other civilian groups The contributors are highly respected specialists in China studies including political scientists historians PLA specialists and sociologists They present a vibrant portrait of the new civil military dynamic in the PRC within the complex social changes that China is exploring today

Mariani, 2025-07-15 Paul P Mariani charts China's fraught Catholic revival after the Cultural Revolution as Catholics loyal to Rome clashed with a state sanctioned church Focusing on Shanghai where the state appointed Bishop Louis Jin Luxian found himself at odds with underground church leaders Mariani details a community perilously divided

Chinese Politics as Fragmented Authoritarianism Kjeld Erik Brødsgaard, 2016-10-04 This book explores how far the concept of fragmented authoritarianism remains valid as the key concept for understanding how the Chinese political process works It contrasts fragmented authoritarianism which places bureaucratic bargaining at the centre of policy making arguing that the goals and interests of the implementing agencies have to be incorporated into a policy if implementation is to be secured with other characterisations of China's political process Individual chapters consider fragmented authoritarianism at work in a range of key policy areas including energy issues climate change and environmental management financial reform and civil military relations The book also explores policy making at the national provincial city and local levels debates how far the model of fragmented authoritarianism is valid in its current form or whether modifications are needed and discusses whether the system of policy making and implementation is overcomplicated unwieldy and ineffective or whether it is constructive in enabling widespread consultation and scope for imagination flexibility and variation

*The Modern Chinese State* David Shambaugh, 2000-05-08 Publisher Description *China Today, China Tomorrow* Joseph Fewsmith, 2010 About the Editor

Chinese Assertiveness, Ideational Mobilization, and the Rise of Xi Jinping Friso M.S. Stevens, 2025-05-06 This book examines the historical domestic and leadership drivers behind the repositioning of China toward center stage after 2008 In the years of global turmoil that followed the 2008 global financial crisis China's foreign policy of the late Hu Jintao years came to be viewed in Western discourse as increasingly assertive Displaying a certain cognitive dissonance China however vehemently rejects this viewpoint Especially after Xi Jinping rose to power in 2012 it is clear that China has abandoned its long held foreign policy doctrine of keeping a low profile Analyzing how language has been produced and reproduced over time this book explains the shift to a more assertive China by examining the intervening ideas about China's desired place in East Asia's regional order The Chinese Communist Party

propaganda offers compelling evidence that there is much greater continuity between the Hu and Xi eras than is exhibited in the current literature Moreover the book traces the deeper ideational sources of Chinese assertiveness back to the New Left movement and the Patriotic Education Campaign of the 1990s Agency for the turn in the late 2000s and the selection of the compromise candidate Xi is attributed to the choices past leaders made with some Party elders ruling from behind the curtain This book will be of much interest to students of Chinese politics and foreign policy East Asian International Relations and Security Studies     *Problems of Communism* ,1987     **Civil-military Relations in Today's China** David Michael Finkelstein,Kristen Gunness,2007 Examines civil military relations in China Reflects the significant changes taking place in Chinese society and their impact on the civil military dynamic with particular attention to how the military will fit in with the new class of entrepreneurs
