Passages Van De Ziel:

De zielkunde van Aristoteles Paul van Schilfgaarde, 2024-05-06 , **Johan Huizinga 1872-1972** W.R.H. Koops, 2012-12-06 From 11 to 15 December 1972 a group of historians from many European countries assembled in Groningen to commemorate the centenary of Johan Huizinga's birth in that city on 7 December 1872 The conference was not intended simply as a tribute to the memory of a great historian but also as an attempt to assess the significance of his work for the present generation It was supported by generous grants from the Stichting oud studentenfonds van 1906 at Groningen the Groninger Universiteitsfonds and the Ministry of Education and Science We are pleased to be able to publish all the papers read at the conference together with Dr Jansonius's study of Huizinga's style written for another occasion The material is presented in a roughly chronological order The first three papers which examine Huizinga's intellectual and literary points of departure are followed by another three dealing with *The Waning of the Middle Ages* A special paper is devoted to Huizinga's Erasmian studies The next three authors investigate the problems which preoccupied Huizinga during the 1930s Three final papers examine general aspects of his work *Galênós van Pérgamon over de passies en vergissingen van de ziel* Jan Godderis, 2008 **Inter timorem et spem: A Study of the Theological Thought of Gerard Zerbolt of Zutphen (1367-1398)** G.H. Gerrits, 2021-10-25 **Being in Christ** Hans Burger, 2009-01-01 Being in Christ is a central theme in the message of the gospel It is central for understanding the relation of Christian believers and the church with Jesus Christ their Lord It determines the identity of a Christian It is helpful for understanding the presence of Christ and his salvation in the present It can be developed as an element of a theological ontology Finally it is a theme with a great integrating power In this book the theme being in Christ is analyzed in different perspectives The attention is focused on the reality of being in Christ its ontological implications First two representatives of the Reformed tradition are investigated the English Puritan John Owen and the Dutch Neo Calvinist Herman Bavinck Second a reconstruction of the Pauline and Johannine perspectives on being in Christ is provided Third the theme is examined in the work of the English ethicist Oliver O'Donovan and the German Swiss theologian Ingolf U Dalferth In the final chapter the author gives his own systematic theological proposal of a concept of being in Christ *The Visible World* Thijs Weststeijn, 2008 How did painters and their public speak about art in Rembrandt's age This book about the writings of the painter poet Samuel van Hoogstraten one of Rembrandt's pupils examines a wide variety of themes from painting practice and theory from the Dutch Golden Age It addresses the contested issue of Dutch realism and its hidden symbolism as well as Rembrandt's concern with representing emotions in order to involve the spectator Diverse aspects of imitation and illusion come to the fore such as the theory behind sketchy or rough brushwork and the active role played by the viewer's imagination Taking as its starting point discussions in Rembrandt's studio this unique study provides an ambitious overview of Dutch artists' ideas on painting *Mr. Petre* Hilaire Belloc, 2025-04-24 In Hilaire Belloc's poignant narrative Mr Petre the reader is drawn into the complexities of the human

condition as articulated through the character of Mr Petre a solitary figure grappling with the nuances of faith morality and the fabric of society Belloc employs a rich lyrical prose style that is both reflective and incisive exploring themes of disillusionment in a rapidly changing England during the early 20th century The book stands as a microcosm of Belloc's larger philosophical inquiries linking personal struggle to broader societal commentary against the backdrop of a tumultuous historical period Hilaire Belloc an influential literary figure of his time was a man of notable intellect and diverse interests ranging from poetry to history His deeply held Catholic faith and his staunch belief in traditional values often informed his writing Mr Petre reflects his understanding of the limitations and challenges of modernity partly shaped by his experiences in both France and England and driven by his desire to confront the moral dilemmas of contemporary life For readers who appreciate literature steeped in rich narrative and philosophical depth Mr Petre offers a rewarding exploration of the profound questions surrounding existence faith and community Belloc's unique voice provides both solace and challenge making this work an essential addition to any thoughtful reader's collection

Ruusbroec, Opera Omnia Jan Van Ruusbroec, 1981-06 Jacob Böhme in Three Worlds Lucinda Martin, Cecilia Muratori, 2023-12-18 Jacob Böhme 1575-1624 has been recognized as one of the internationally most influential German authors of the Early Modern period Even today his writings continue to impact fields as diverse as literature philosophy religion and art Yet Böhme and his reception remain understudied As a lay author his works were often suppressed and circulated underground Borrowing Böhme's idea of three worlds or planes of existence this volume traces the transmission of his thought through three stations from his first underground readers in Central and Eastern Europe to the Netherlands where most of his writings were first published to Britain where early translations made him a popular author for generations to come Drawing on the work of both established and younger researchers from around the world this volume charts new territory It fills many lacunae and reveals a number of exciting discoveries especially regarding the production and diffusion of manuscripts and previously overlooked sites of engagement This book will be of interest to a wide range of scholars interested in the development of philosophical religious literary and artistic thought from the 17th century to the present day Anima Mundi: The Rise of the World Soul Theory in Modern German Philosophy

Miklós Vassányi, 2010-11-16 This work presents and philosophically analyzes the early modern and modern history of the theory concerning the soul of the world anima mundi The initial question of the investigation is why there was a revival of this theory in the time of the early German Romanticism whereas the concept of the anima mundi had been rejected in the earlier classical period of European philosophy early and mature Enlightenment The presentation and analysis starts from the Leibnizian Wolffian school generally hostile to the theory and covers classical eighteenth century physico-theology also

reluctant to accept an anima mundi Next it discusses early modern and modern Christian philosophical Cabbala B hme and tinger an intellectual tradition which to some extent tolerated the idea of a soul of the world The philosophical relationship between Spinoza and Spinozism on the one hand and the anima mundi theory on the other is also examined An analysis of Giordano Bruno s utilization of the concept anima del mondo is the last step before we give an account of how and why German Romanticism especially Baader and Schelling asserted and applied the theory of the Weltseele The purpose of the work is to prove that the philosophical insufficiency of a concept of God as an ens extramundanum instigated the Romantics to think an anima mundi that can act as a divine and quasi infinite intermediary between God and Nature as a locum tenens of God in physical reality
