Cuba and the Politics of Passion Damián J. Fernández, 2000-12-15 Cuban politics has long been remarkable for its passionate intensity and yet few scholars have explored the effect of emotions on political attitudes and action in Cuba or elsewhere This book thus offers an important new approach by bringing feelings back into the study of politics and showing how the politics of passion and affection have interacted to shape Cuban history throughout the twentieth century Damián Fernández characterizes the politics of passion as the pursuit of a moral absolute for the nation as a whole While such a pursuit rallied the Cuban people around charismatic leaders such as Fidel Castro Fernández finds that it also set the stage for disaffection and disconnection when the grand goal never fully materialized At the same time he reveals how the politics of affection taking care of family and friends outside the formal structures of government has paradoxically both undermined state regimes and helped them remain in power by creating an informal survival network that provides what the state cannot or will not

The Trouble With Passion Cheryl Hall, 2013-01-22 Political theorists have long argued that passion has no place in the political realm where reason reigns supreme But is this dichotomy between reason and passion sustainable Does it underestimate the indispensable role of passion in a fully democratic society Drawing upon Plato Rousseau and contemporary feminist theorists Cheryl Hall argues that passion is an essential component of a just political community and that the need to educate passion together with reason is paramount Trouble with Passion provides a compelling defense of the crucial place of passion in politics

The Complexity of Populism Paula Diehl, Brigitte Bargetz, 2023-07-31 This book explores the mechanisms and elements of populism to develop new theoretical and methodological approaches Much as populism has been researched it remains a contested notion without coherent definition and methodology and shaped by dimensions such as ideology communication style discourse mobilization and organization It has simultaneously mobilized emotions produced symbols affected subjectivity and gender relations and can manifest itself in different ways and appear in hybrid forms such as in the cases of Silvio Berlusconi Hugo Chavez and Donald Trump International expert contributors explore how such a variety of phenomena can be explained and analyzed expanding the scope of populism research by proposing a multidimensional and complex understanding of populism They argue for a greater epistemological differentiation and propose a methodology that integrates different fields of politics This complex approach makes it possible to analyze populism as a multifaceted phenomenon and to understand how populisms affect politics and society Aimed at postgraduates and researchers in populism as well as scholars in political science and sociology media communication cultural gender and global studies the volume also contributes to a better understanding of manifestations of right wing and authoritarian populism in the twenty first century

Lutheran Identity and Political Theology Carl-Henric Grenholm, Goran Gunner, 2015-03-26 Lutheran tradition has in various ways influenced attitudes to work the economy the state education and health care One reason that Lutheran theology has been interpreted in various ways is that it is always influenced by surrounding social and cultural contexts In a society where the church has lost a great deal of its cultural impact and authority and where there is a plurality of religious convictions the question of Lutheran identity has never been more urgent However this question is also raised in the Global South where Lutheran churches need to find their identity in a relationship with several other religions Here this relationship is developed from a minority perspective Is it possible to develop a Lutheran political theology that gives adequate contributions to issues concerning social and economic justice What is the role of women in church and society around the world Is it possible to interpret Lutheran theology in such a way that it includes liberating perspectives These are some of the questions and issues discussed in this book Political Sentiments and Social Movements Claudia Strauss, Jack R. Friedman, 2018-03-22 This unique volume is about how ordinary people construct political meanings form political emotions and identities and become involved in or disengaged from political contests Drawing on psychological anthropology it illustrates the complexities of political subjectivities through engaging personal stories that complicate our understanding of the relationship between culture and politics Chapters examine the Tea Party and Occupy Wall Street in the United States third gender activism in India Rastafari in Jamaica Courage to Refuse in Israel the environmental movement in the U S Salafi movements in northern Nigeria post socialist labor politics in Romania and anti immigrant activism in Denmark

Passionate Work Renyi Hong, 2022-04-04 In *Passionate Work* Renyi Hong theorizes the notion of being passionate about your work as an affective project that encourages people to endure economically trying situations like unemployment job change repetitive and menial labor and freelancing Not simply a subject of aspiration passion has been deployed as a means to build resilience and mend disappointments with our experiences of work Tracking the rise of passion in nineteenth century

management to trends like gamification coworking and unemployment insurance Hong demonstrates how passion can emerge in instances that would not typically be understood as passionate Gamification numbs crippling boredom by keeping call center workers in an unthinking suspensive state pursuing even the most banal tasks in hope of career advancement Coworking spaces marketed toward freelancers combat loneliness and disconnection at the precise moment when middle class sureties are profoundly threatened Ultimately Hong argues the ideal of passionate work sustains a condition of cruel optimism in which passion is offered as the solution for the injustices of contemporary capitalism Unraveling Emotions in Environmental Movements and Green Politics Efser Rana Coşkun, 2025-07-29 This book offers an interesting synthesis of Social Movements Studies and International Relations IR focusing on emotions The holistic scope and the different conceptualizations of emotions in environmental movements will bring a new perspective that expands the existing approaches of Social Movements Studies and IR Although the existing literature on emotions in social movements offers rich insights the detailed analytical framework of emotions in environmental movements is overlooked In particular the realm of emotions and their intricate interaction with environmental activism remains overlooked in the context of Green Politics By building on significant studies in emotions in IR this book aims to transcend the boundaries of state centric discussions to create a platform for the manifestation of social movements *Understanding Social Movements* Steven M. Revolution he suggests that these were the right steps in the wrong direction He argues that while the revolutionary terror of Robespierre Mao and the Bolsheviks ended in historic failure and monstrosity this is not the whole story There is in fact a redemptive moment that gets lost in the outright liberal democratic rejection of revolutionary authoritarianism and the valorization of soft consensual decentralized politics i ek claims that particularly in light of the forthcoming ecological crisis we should reinvent revolutionary terror and the dictatorship of the proletariat in the struggle for universal emancipation We need to courageously accept the return to this Cause even if we court the risk of a catastrophic disaster In the words of Samuel Beckett Try again Fail again Fail better International Handbook of Philosophy of Education Paul

School Trouble Deborah Youdell, 2010-11-01

What is the trouble with schools and why should we want to make school trouble Schooling is implicated in the making of educational and social exclusions and inequalities as well as the making of particular sorts of students and teachers For this reason schools are important sites of counter or radical politics In this book Deborah Youdell brings together theories of counter politics and radical traditions in education to make sense of the politics of daily life inside schools and explores a range of resources for thinking about and enacting political practices that make school trouble The book offers a solid introduction to the much debated issues of intersectionality and the limits of identity politics and the relationship between schooling and the wider policy and political context It pieces together a series of tools and tactics that might destabilize educational inequalities by unsettling the knowledges meanings practices subjectivities and feelings that are normalized and privileged in the business as usual of school life Engaging with curriculum materials teachers lesson plans and accounts of their pedagogy and ethnographic observations of school practices the book investigates a range of empirical examples of critical action in school from overt political action pursued by educators to day to day pedagogic encounters between teachers and students The book draws on the work of Michel Foucault Judith Butler Ernesto Laclau and Chantal Mouffe and Gilles Deleuze and Felix Guattari to make sense of these practices and identify the political possibilities for educators who refuse to accept the everyday injustices and wide reaching social inequalities that face us School Trouble appears at a moment of political and economic flux and uncertainty and when the policy moves that have promoted markets and private sector involvement in education around the globe have been subject to intense scrutiny and critique Against this backdrop renewed attention is being paid to the questions of how politics might be rejuvenated how societies might be made fair and what role education might have in pursuing this This book makes an important intervention into this terrain By exploring a politics of discourse an anti identity politics a politics of feeling and a politics of becoming it shows how the education assemblage can be unsettled and education can be re imagined The book will be of interest to advanced undergraduate and postgraduate students and scholars in the fields of education sociology cultural studies and social and political science as well as to critical educators looking for new tools for thinking about their practice
