ancient principle of wu wei non trying The bleak cycle of depression starts when people experience negativity They turn inward to try to find self esteem but the negativity strips all the power of self affirmation from them The gap between is and ought how they see themselves and how they want to be is too great to bridge The cycle known as self regulatory perseveration means that depressed persons are caught in a desperate fruitless search for affirmation Instead of self esteem they find self criticism and further negative thoughts Yet they keep looking and looking and looking The more they look for self worth inside the less they find and the harder they try the cycle continues When trying simply doesn t work wu wei the principle of letting go may help break that cycle When trying simply doesn t work wu wei not trying may help Wu wei is the principle of letting go By giving up on the self imposed and unattainable oughts and shoulds the depressed person stops focusing on self Wu wei breaks the cycle of negativity allowing the depressed person to begin to heal Wu Wei Negativity and Depression offers a comprehensive discussion of depression including epidemiology of depression etiology and biological causes psychosocial theories standard treatments of the past and present pastoral care of depressed persons This important book constructs a possible approach to depressed souls weary of fighting and trying to fix themselves Wu Wei Negativity and Depression can bring new hope to those who most need it
