The collection comprising insights from autistic women and girls and educational and medical professionals makes recommendations for a collaborative and integrated approach that enables girls on the spectrum to reach their full potential. By establishing close collaborations between girls on the spectrum their parents teachers and specialist professionals the field can move forwards in terms of providing understanding and an appropriate educational framework for success. *New Trends in Intelligent Software Methodologies, Tools and Techniques* H. Fujita, E. Herrera-Viedma, 2018-09-18 Knowledge based systems fully integrated with software have become essential enablers for both science and commerce. But current software methodologies tools and techniques are not robust or reliable enough for the demands of a constantly changing and evolving market and many promising approaches have proved to be no more than case oriented methods that are not fully automated. This book presents the proceedings of the 17th international conference on New Trends in Intelligent Software Methodology Tools and Techniques SoMeT18 held in Granada Spain 26-28 September 2018. The SoMeT conferences provide a forum for the exchange of ideas and experience foster new directions in software development methodologies and related

tools and techniques and focus on exploring innovations controversies and the current challenges facing the software engineering community The 80 selected papers included here are divided into 13 chapters and cover subjects as diverse as intelligent software systems medical informatics and bioinformatics artificial intelligence techniques social learning software and sentiment analysis cognitive systems and neural analytics and security among other things Offering a state of the art overview of methodologies tools and techniques this book will be of interest to all those whose work involves the development or application of software

The Airmobility Workhorse Slip Case Bill Kourelakos,2025-09-30 Air Mobility Workhorse recounts the operational history of the Lockheed C 130 Hercules in Royal Australian Air Force RAAF service spanning the A E and H models from 1958 to 2012 leaving the current J model to be covered in the future The C 130 was the catalyst for a transformational shift from Second World War technology to leading edge aircraft systems in RAAF air mobility and the broader Air Force The Hercules has become iconic in Australian culture as the first thing viewers often see of news reports when Australia reaches out to the rest of the world to offer aid in times of disaster The author s intimate knowledge of the aircraft along with his extensive service on them brings an insight that only someone who has flown them in testing times can bring His extensive connections within the Hercules community have brought their stories from the inside to give readers a rare glimpse of service in military aviation It is a detailed and balanced reflection of what the mighty Hercules did for Australia and how it affected those who flew it maintained it supported it flew as passengers or benefited from the missions it conducted This aircraft was truly Australia s Air Mobility Workhorse Two full colour hardback volumes limited edition presented in a slipcase

Armageddon and OKRA Lewis Frederickson, 2020-12-02 The dispatch of an Ottoman Army by Australian led Imperial air power in the Wadi Fara on 21 September 1918 occurred just five years after the advent of military aviation in Australia In 1914 the fledgling Australian air service operated the flimsy Bristol Boxkite four years later it was flying the far more advanced Bristol F2B Fighter This leap forward represented a profound progress in technology that has typified the technical development of aviation particularly in Australia ever since Ironically on 21 September 2014 96 years after the events of the Wadi Fara Australian squadrons were again deployed to the same part of the world where they would remain for more than three years on operations against extremist terrorism *Armageddon and OKRA* contrasts these events a century apart in the context of the development of Australian air power The book tracks the history where Australia has maintained a balanced air service compelling high technical logistics and engineering standards and effective training and command and control systems for more than 100 years These processes were as applicable a century ago as they are today By examining these operational events the author establishes the connection that access to the technology associated with air power is intrinsically linked to Australia's enduring foreign and defence policy more so that military power is a means to an end and never an end unto itself
