this volume language learning and professionalization are explored by addressing the existing gap between pressing needs for enhanced soft skills in work environments wherein technology mediated multilingual communication is increasingly the norm and current foreign language teaching and learning offerings in higher education Considering theoretical methodological and pedagogical perspectives for preparing language learners and teachers in for the 21st century this volume s eight chapters underscore that research findings should inform the design of learning experiences so that people s communication needs in fast changing work environments are met and the link between language education and professionalization within a lifelong learning perspective is sustained     Pathways to Reform Alexandra W.

Logue,2017-09-08 A personal account of the implementation of a controversial credit transfer program at the nation s third largest university Change is notoriously difficult in any large organization Institutions of higher education are no exception From 2010 to 2013 Alexandra Logue then chief academic officer of The City University of New York led a controversial reform initiative known as Pathways The program aimed to facilitate the transfer of credits among the university s nineteen constituent colleges in order to improve graduation rates a long recognized problem for public universities such as CUNY Hotly debated Pathways met with vociferous resistance from many faculty members drew the attention of local and national media and resulted in lengthy legal action In Pathways to Reform Logue the figure at the center of the maelstrom blends vivid personal narrative with an objective perspective to tell how this hard fought plan was successfully implemented at the third largest university in the United States Logue vividly illustrates why change does or does not take place in higher education and the professional and personal tolls exacted Looking through the lens of the Pathways program and factoring in key players she analyzes how governance structures and conflicting interests along with other institutional factors impede change which Logue shows is all too rare slow and costly In this environment she argues it is shared governance combined with a strong central decision making authority that best facilitates necessary reform Logue presents a compelling investigation of not only transfer policy but also power dynamics and university leadership Shedding light on the inner workings of one of the most important public institutions in the nation Pathways to Reform provides the first full account of how despite opposition a complex higher education initiative was realized All net royalties received by the author from sales of this book will be donated to The City University of New York to support undergraduate student financial aid     **Learning**

**Text-Dependent Questions, Grades K-5** Douglas Fisher, Nancy Frey, Heather Anderson, Marisol Thayre, 2014-09-02 Fisher Frey s answer to close and critical reading No doubt since the cave paintings of prehistoric times humans have asked questions to make sense of the message So what could possibly be new about posing questions about text Plenty and with TDQ Doug Fisher and Nancy Frey reveal it all After one quick read you will have learned all the very best ways to use text dependent questions as scaffolds during close reading and the big understandings they can yield especially when executed the Fisher and Frey way But that s just for starters Fisher and Frey also include illustrative video recommended texts and questions examples from across content areas and an online professional learning guide making the two volumes of TDQ a potent professional development tool across all of K 12 The genius of TDQ is the way Fisher and Frey break down the process into four cognitive pathways that help teachers organize the journey through a text and frame an extended discussion around

it Step by step this approach ensures that in every close reading lesson students are guided to consider explicit and implied meanings and deeply analyze and appreciate various aspects of a text especially those that may be challenging or confusing Here s how the four inter related processes play out with every why and every how answered What does the text say general understandings and key details How does the text work vocabulary structure and author s craft What does the text mean logical inferences and intertextual connections What does the text inspire you to do write investigate present debate The cool thing These questions ignite students engagement and discussion because they strategically lead students to a place of understanding where explicit and implied meanings and interpretations can be debated Far from being overly literal or teacher led the questioning framework Fisher and Frey advance enhances the quality of student talk and idea generation All in all there s no better resource to cultivate students capacity for independent reading and incisive thinking Longtime collaborators and recipients of numerous teaching and leadership awards DOUGLAS FISHER and NANCY FREY are Professors of Educational Leadership at San Diego State University as well as teacher leaders at Health Sciences High Middle College *Indigenous Pathways Into Social Research* Donna M Mertens,Fiona Cram,Bagele Chilisa,2016-06-03 The life stories included here present the journeys of over 30 indigenous researchers from six continents and many disciplines including the challenges and oppression they have faced their strategies for overcoming them and how their work has produced more meaningful research and a more just society **Teaching English to Second Language Learners in Academic Contexts** Jonathan M.
