Hipsky, 2011-10-15 Today's mass market romances have their precursors in late Victorian popular novels written by and for women. In *Modernism and the Women's Popular Romance* Martin Hipsky scrutinizes some of the best-selling British fiction from the period 1885 to 1925, the era when romances, especially those by British women, were sold and read more widely than ever before or since. Recent scholarship has explored the desires and anxieties addressed by both low modern and high modernist British culture in the decades straddling the turn of the twentieth century. In keeping with these new studies, Hipsky offers a nuanced portrait of an important phenomenon in the history of modern fiction. He puts popular romances by Mrs. Humphry Ward, Marie Corelli, the Baroness Orczy, Florence Barclay, Rebecca West, Elinor Glyn, Victoria Cross, Ethel Dell, and E. M. Hull into direct relationship with the fiction of Virginia Woolf, Katherine Mansfield, James Joyce, and D. H. Lawrence among other modernist greats.

**Reading Popular Romance in Early Modern England** Lori Humphrey Newcomb, 2002 This volume examines the proliferation of popular romances, their vilification by elite writers, and the ultimate opposition of popular and literary fiction. Using Robert Greene's *Pandosto* (1585), an Elizabethan prose romance that inspired Shakespeare's late play *The Winter's Tale* as a case study, Newcomb demonstrates that versions of the two texts repeatedly converge, resisting simple high/low division. Because Shakespeare's works are considered timeless literary achievements, critics have distanced his plays from their romance sources, a separation that until now has gone largely unquestioned. Newcomb challenges this assumption, providing a fascinating account of an early best-seller's incarnations over 250 years of literary history.

[Women and Magic in Medieval Romance](#) Jane Elizabeth Bonsall, 2025-04-08 Explores the conventions and contradictions inherent in archetypes of magical femininity from loathly ladies to monstrous mothers in a range of popular late medieval English romances The female characters in Middle English romances with particular power and agency are often portrayed as supernatural possessing either magical abilities or identities This book argues that a genre focused reading of these supernatural women reveals romance s strategies for working through and articulating anxieties about the changing world of the late medieval period as well as exposing their contemporary audiences unexpectedly flexible attitudes toward feminine authority and moral ambiguity It explores five distinct types of magical femininity the Tristan tradition s marvelously gifted healers the Muslim princess in *Bevis of Hampton* the endlessly wealthy fairy imagined by Sir Launfal and Partonope of Blois the monster mother Melusine and Morgan le Fay the prototypical witch By tracking the way each type first establishes then complicates generic patterns this study highlights the tension between romance s persistent fascination with feminine power and its simultaneous reiteration of the social and generic bounds on women s agency and authority Interrogating generic expectations from an intersectional feminist perspective it makes a case for a recuperative re reading of romance one that asks us to revise our assumptions about the potentialities of women s power in the medieval imaginary

Cervantes's Don Quixote of la Mancha in England      Popular Romance in Iceland Sheryl McDonald Werronen, 2025-10-01

A late medieval Icelandic romance about the maiden king of France N t da saga generated interest in its day and grew in popularity in post Reformation Iceland yet until now it has not received the comprehensive scholarly analysis that it much deserves. Analysing this saga from a variety of perspectives, this book sheds light on the manner in which N t da saga explores and negotiates the romance genre from an Icelandic perspective, showcasing this exciting saga's strong female characters, worldviews, and long manuscript tradition. Beginning with N t da saga's manuscript context, including its reception and transformation in early modern Iceland, this study also discusses how N t da saga was influenced by and also later influenced other Icelandic romances. Considering the text as literature, discussion of its unusual depiction of world geography as well as the various characters and their relationships provides insights into medieval Icelanders' ideas about themselves and the world they lived in, including questions about Icelandic identity, gender, female solidarity, and the literary genre of romance itself. The book also includes a newly revised reading edition and translation of N t da saga.
