Philosophers and Religious Leaders Christian von Dehsen,2013-09-13 *Philosophers and Religious Leaders* provides a synopsis of the lives and legacies of 200 men and women from the areas of religion and philosophy who have changed the world These individuals have developed extended or exemplified ideas fundamental to the way human beings perceive the meaning and purpose of their own lives and of their societies Some have challenged prevailing convictions and worked for immediate change during their lifetimes others have proposed new modes of thinking that have flourished only after their passing **American Religious History** Gary Scott Smith,2020-12-07 A mix of thematic essays reference entries and

primary source documents covering the role of religion in American history and life from the colonial era to the present. Often controversial, religion has been an important force in shaping American culture. Religious convictions strongly influenced colonial and state governments as well as the United States as a new republic. Religious teachings, values, and practices deeply affected political structures and policies, economic ideology and practice, educational institutions and instruction, social norms and customs, marriage and family life. By analyzing religion's interaction with American culture and prominent religious leaders and ideologies, this reference helps readers to better understand many fascinating, often controversial, religious leaders, ideas, events, and topics. The work is organized in three volumes devoted to particular periods. Volume one includes a chronology highlighting key events related to religion in American history and an introduction that overviews religion in America during the period covered by the volume and roughly 10 essays that explore significant themes. These essays are followed by approximately 120 alphabetically arranged reference entries providing objective, fundamental information about topics related to religion in America. Each volume presents nearly 50 primary source documents, each introduced by a contextualizing headnote. A selected general bibliography closes volume three.

The 17th and 18th Centuries Frank N. Magill, 2013-09-13. Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

Transfiguring America Jeffrey Steele, 2001. Transfiguring America is the product of more than ten years of research and numerous published articles on Margaret Fuller, arguably America's first feminist theorist and one of the most important woman writers in the nineteenth century. Focusing on Fuller's development of a powerful language that paired cultural critique with mythmaking, Steele shows why her writing had such a vital impact on the woman's rights movement and modern conceptions of gender. This groundbreaking study pays special attention to the ways in which Fuller's feminist consciousness and social theory emerged out of her mourning for herself and others, her dialogue with Emersonian Transcendentalism, and her eclectic reading in occult and mythical sources. Transfiguring America is the first book to provide detailed analyses of all of Fuller's major texts, including her mystical Dial essays, correspondence with Emerson, Summer on the Lakes, 1844 poetry, Woman in the Nineteenth Century, and New York Tribune essays written both in New York and Europe. Starting from her own profound sense of loss as a marginalized woman, Fuller eventually recognized the ways in which the foundational myths of American society, buttressed by conservative religious ideologies, replicated dysfunctional images of manhood and womanhood. With Woman in the Nineteenth Century, after exploring the roots of oppression in her essays and poetry, Fuller advanced the cause of woman's rights by

conceptualizing a more fluid and equitable model of gender founded upon the mythical reconfiguration of human potential. But as her horizons expanded Fuller demanded not only political equality for women but also emotional intellectual and spiritual freedom for all victims of social oppression. By the end of her career Steele shows Fuller had blended personal experience and cultural critique into the imaginative reconstruction of American society. Beginning with a fervent belief in personal reform she ended her career with the apocalyptic conviction that the dominant myths both of selfhood and national identity must be transfigured. Out of the ashes of personal turmoil and political revolution she looked for the phoenix of a revitalized society founded upon the ideal of political justice.

Two Millennia of Memorable Christian Women Stanley M. Burgess, Ruth Vassar Burgess, 2020-08-19 For over 2 000 years Christian women have struggled with inequities between the genders. This certainly has been true in matters religious. Christian women have shown ethical moral and spiritual strength while being deprived of leadership or power positions reserved for their male counterparts. In this tome the authors celebrate a wide variety of such female heroines drawn from early Christian Roman Catholic Orthodox Protestant Pentecostal and Charismatic groups as well as a sprinkling of so called heretical individuals. These women often have become saints martyrs visionaries missionaries and spiritual voices models to all generations. At the same time it must be remembered that many of them also carried and gave birth to children raised them and fulfilled the other functions required of them in their social contexts. The emphasis is on celebrating these memorable individuals.

A History of the Apocalypse Catalin Negru, 2018-07-26 Every generation of people think that their problems are the most important ever. As history flows without interruption and doomsday scenarios fail the following generations focus on their own contemporary events ignoring or underestimating the past. In this way people always see signs in their times and the end of the world is constantly a fresh subject.

Priestess, Mother, Sacred Sister Susan Starr Sered, 1996-04-11 Religion is often denounced as one of the tools used by patriarchal societies to maintain the status quo and especially to persuade women to accept subordinate roles. This does not explain however the existence of many religious groups in which women are both leaders and the majority of participants. How are these women's religions different from those dominated by men? What can we learn from them about the special ways in which women experience their unique reality? In this fascinating and pathbreaking work the first comparative study of women's religions Susan Starr Sered seeks answers to these compelling questions. Looking for common threads linking groups as diverse as the ancestral cults of the Black Caribs of Belize Korean shamanism Christian Science and the Feminist Spirituality movement Sered finds that motherhood and motherly concerns play a vital role in these female dominated groups. Nurturing and concern for others are at the center as are healing arts and ways of dealing with illness and the death of children. Religion not only enables women to find sacred meaning in their daily lives from the preparation of food to caring for their families but an offer intense and personal relationships with deities and spirits often through ecstatic possession trance as well as opportunities to celebrate and mourn with other women. By examining the shared experiences of

women across great cultural divides Priestess Mother Sacred Sister offers a new understanding of the role gender plays in determining how individuals grapple with the ultimate questions of existence In the process it not only highlights the profound differences between men and women but the equally important ways in which we are all alike **Archaeology and Preservation of Gendered Landscapes** Sherene Baugher, Suzanne M. Spencer-Wood, 2010-03-11 Historical archaeology of landscapes initially followed the pattern of Classical Archaeology by studying elite men's gardens Over time particularly in North America the field has expanded to cover larger settlement areas but still often with ungendered and elite focus The editors of this volume seek to fill this important gap in the literature by presenting studies of gendered power dynamics and their effect on minority groups in North America Case studies presented include communities of Native Americans African Americans multi ethnic groups religious communities and industrial communities Just as the research focus has previously neglected the groups presented here so too has funding to preserve important archaeological sites As the contributors to this important volume present a new framework for understanding the archaeology of religious and social minority groups they also demonstrate the importance of preserving the cultural landscapes particularly of minority groups from destruction by the modern dominant culture A full and complete picture of cultural preservation has to include all of the groups that interacted form it **Literature Connections to World History 712** Lynda G. Adamson, 1998-06-15
