Mother Shock Loving Every Other Minute Of It:

Mother Shock Andrea J. Buchanan, 2009-03-13 According to Andrea Buchanan Mother shock is the state in which many new parents exist during those first confusing chaotic and often comical years of parenting It is the clash between expectation and result theory and reality It is the twilight zone of 24 hour a day living where life is no longer neatly divided into day and night the triple impact of hormonal imbalance sleep deprivation and physical exhaustion It is the stress of trying to acclimate quickly to the immediacy of mothering a new conception of oneself one's role in the family and in the world a fearful new level of responsibility and a new delegation of domestic duties In this much needed and delightfully funny collection of essays Buchanan shares the insight she gains as she moves through the stages of mother shock From Fear of the Double Stroller and Confessions of a Bottle Feeder to I'm an Idiot and Everything I Needed to Know I Learned in Playgroup Buchanan details the unimaginably difficult and unbelievably rewarding process of becoming a mother Mother Shock Andrea Buchanan, 2003-03-20 In 30 amusing and insightful pieces new mom Buchanan offers a refreshingly down to earth look at the birth of a mother **The Mommy Chronicles** Sara Ellington, Stephanie Triplet, 2005-02-01 When girlfriends Stephanie Triplet and Sara Ellington realized that they were both pregnant and their babies were due just weeks apart they began e-mailing each other constantly Throughout their individual journeys both women discovered many aspects of pregnancy childbirth and especially motherhood that no one ever seemed to talk about Stephanie and Sara had both read every book on these subjects they could find so why weren't they prepared for the roller coaster ride they were about to embark on Why hadn't anyone ever given them the real truth about being a Mommy before The Mommy Chronicles is a warm candid and sometimes irreverent view into the lives and emotions of these two new mothers In intimate and often hilarious detail the authors share their own diverse and universal experiences as they progress from being pregnant to being parents Listen in on their conversations as they laugh cry rage and celebrate Labor and delivery postpartum depression career choices daycare dilemmas husbands who don't get it it's all here presented in an entertaining easy to read format

Writing Alice Braun, 2024-08-21 This book aims to study the representation of motherhood in self life writing by English speaking authors It highlights the particular issues women writers are faced with when they try to combine their vocation as artists with their duties to their children For those women who claim their right to be both mothers and writers several cultural myths need to be taken down chief among which is the representations that we have of what being an artist should be like as well as the role a mother should have towards her children This book looks at self life writing by women from English speaking countries to reveal the common themes and tropes which recur in texts written on the subject of motherhood by looking at them from both a literary and a cultural perspective It also aims to demonstrate that a new generation of women writers is taking up the subject and forging a new literary tradition Motherhood and Choice Amrita Nandy, 2017-10-02 How can women live fully If autonomy is critical for humans why do women have little or no choice vis vis motherhood Do women know they have a choice if they do How free are these choices in a context where the self is socially mired and deeply enmeshed into the familial What are implications of motherhood on how human relatedness and belonging are defined These questions underlie Amrita Nandy s remarkable research on motherhood as an institution one that conflates

Addresses women s anxieties over parenting in a book that mixes memoir interviews historical analysis and feminist insight Matricentric Feminism: Theory, Activism, Practice. The 2nd Edition Andrea O'Reilly,2021-04-04 The 2nd edition includes a new preface that considers how matricentric feminism in positioning mothering as a verb affords a gender neutral understanding of motherwork and allows for an appreciation of how motherwork is deeply gendered and how this may be challenged and changed through empowered mothering The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face are specific to women s role and identity as mothers Indeed mothers are oppressed under patriarchy as women and as mothers Consequently mothers need a feminism of their own one that positions mothers concerns as the starting point for a theory and politic of empowerment O Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice Literary Mama: Reading for the Maternally Inclined Andrea J. Matricentric Feminism Andrea O'Reilly, 2016-10-01 The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face social economic political cultural psychological and so forth are specific to women s role and identity as mothers Indeed mothers are oppressed under patriarchy as women and as mothers Consequently mothers need a feminism of their own one that positions mothers concerns as the starting point for a theory and politic of empowerment O Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice The chapter on maternal theory examines the central theoretical concepts of maternal scholarship while the chapter on activism considers the twenty first century motherhood movement Feminist mothering is likewise examined as the specific practice of matricentric feminism and this chapter discusses various theories and strategies on and for maternal empowerment Matricentric feminism is also examined in relation to the larger field of academic feminism here O Reilly persuasively shows how matricentric feminism has been marginalized in academic feminism and considers the reasons for such exclusion and how such may be challenged and changed
