program serves newcomer and refugee families within the unique context of the New Latine Diaspora The author draws upon critical theory to showcase how neoliberal and deficit ideologies are at play throughout the different aspects of the program the influence these ideologies have on the participants and the tactics used by the caregivers to resist and change the programmatic structures and curriculum to meet their needs As such the book invites educators administrators and scholars into the nebulous and difficult conversation about how schools paradoxical entities that often colonize but prospectively liberate must not just rethink how they work with parents and caregivers but rather dismantle traditional cultural practices that seek to assimilate minoritized families Showcasing the power of ethnography as a tool which can be used to support educators and scholars to understand cultural elements of family outreach programs on a semiotic level and how transforming these semiotic building blocks can lead to equitable relationships it will appeal to scholars and researchers with interests in adult education social foundations of education critical ethnography multilingual Adult Basic Education and family outreach

**Promiscuous Feminist Methodologies in Education** Sara M Childers, Stephanie L Daza, Jeong-eun Rhee, 2016-04-14 The book marks the circulation of the term promiscuous feminist methodology and registers its salience for educational researchers who risk blundering feminist theories and methodologies in chaotic and unbridled ways The sexism embedded in language is what makes the notion of promiscuous feminists gone wild tantalizing though what the book puts forth is how the messy practice of inquiry transgresses any imposed boundaries or assumptions about what counts as research and feminism What can researchers do when we realize that theories are not quite enough to respond to our material experiences with people places practices and policies becoming data As a collection the book provides how various theories researchers put to work get dirty as they are contaminated and re appropriated by other ways of thinking and doing through contexts of messy practices In this way gender cannot simply be gender and promiscuous feminist methodologies are always in the making and already ahead of what we think they are This book was originally published as a special issue of the International Journal of Qualitative Studies in Education
