students and I experienced shocking revelations as they researched their selected celebrities As an Instructor I saw students were excited about learning that each celebrity they chose had a story which inspired drive to reach their glory Students had taken it at face value that these people s lives were always perfect Secondly I think this curriculum project gave students much needed advice Advice impacts differently when it comes from someone you idolize It gave these freshmen ideas of how to handle college and how to navigate issues in their lives Most importantly this project allowed students to exhale they now know whatever their struggles they are not alone Dr Jessie Broussard Researcher and Instructor University of Louisiana Lafayette When I was introduced to the Reconstructing Lives Project I was delighted to have a new way to assess my students comprehension of teaching theories Teacher candidates thought the theories were boring however they eventually found that connecting theories to their icons and later to themselves was meaningful The majority of my students felt the redemption that it brought them They didn t write it all in their papers rather they came to my office and explained what the project meant to them personally What surprised me most in 10 years of using the Project was the fact that it was not only a measure of student learning but also a measure of how much I could teach them about theory about my life and about their own life success Dr Felicie Barnes Professor of Education Retired Grambling State University Companion Workbook available at [www.amazon.com](http://www.amazon.com) RE MAKE AN ICON SO YOU CAN PRODUCE ONE
