Mother Love A Bipolar Odyssey:

Rural Odyssey Dr. R Leonard Carroll, 2018-10-30 *Rural Odyssey* is a story that follows the family and life of a young man who grew up in rural America. This book is made up of the many experiences and stories and incorporates secrets that were involved in all relationships in his parents' families and in his own family. It also weaves in the accounts of growing up in a straight Pentecostal and faith-based life. The young man's life is shaped by his experiences and is followed as he grows up in a minister's family. His education is begun in a rural one-room schoolhouse and then advances to the usual elementary and secondary school systems, attendance at a state university, and entry in medical school at 19 years of age. Multiple successes and failures are included. The intricacies of his life along with multiple marriages, children, and drug-associated problems are told through stories. Always trying to be a knight in shining armor and everything to everyone caused many problems. Faith was the glue that kept his life together. 50 years in the practice of general surgery has brought about a lot of observations and many varied and entertaining stories. Many technical advances are noted both in life and medical practice. Problems are presented and interesting simple solutions are given. All in all, this is very readable, understandable, hilarious, and intensely fascinating. *Adventure of growing up in the country and memories of family, faith, and secrets*. *Nutrients Quiet the Unquiet Brain* David Moyer LCSW, 2015-02-10 Can nutrients successfully reduce and even stop symptoms of bipolar disorder and other mental disorders? Can Lyme disease treatment stop psychosis? Can antibodies to a milk protein contribute to mania? These are some of the questions answered in this revised edition of *Nutrients Quiet the Unquiet Brain*. Licensed Clinical Social Worker Moyer updates his readers on his family's journey by presenting research findings from the 12 intervening years since the book was first published. Part medical memoir, part medical detective story, the book describes the author's four-generation bipolar family odyssey that led him to paths less traveled. Moyer describes his efforts to help his father and son whose lives were severely disrupted by mood swings and psychotic episodes. While trying to cope with the consequences of the illness, he explores the role of genes, foods, vaccines, microbes, and nutrients. He discusses multiple biological triggers and leading edge interventions for those suffering from bipolar and other mental disorders. He explores new ways to assess and treat what he now calls biobehavioral syndromes. The book gives readers a view into bipolar disorder through the writings of his father and his son. He critically examines assumptions and practices in the justice and mental health care system that adversely impact those called the mentally ill. He describes new ways for patients, family members, education, criminal justice, and mental health care professionals to understand and respond to mental illness. The book was the first of what ultimately became *The Transformation Trilogy*, three books that collectively argue for a fundamental transformation in the response of society and most importantly the mental health care industry to victims of mental illness. *Denied! Failing Cordelia: Parental Love and Parental-State Theft in Los Angeles Juvenile Dependency Court* Simon Cambridge, 2019-09-17 *Climbing the Broken Judicial Ladder* continues the author's journey of exploring the heartbreak and loss of first adopting

Cordelia with severe reactive attachment disorder RAD in Washington state and then of nearly losing her to the draconian and confused child welfare legal complex in Los Angeles In this third volume of his Denied Failing Cordelia trilogy Cambridge climbs the broken California judicial ladder from the California Court of Appeals Second Appellate District based in Los Angeles to the California Supreme Court Cambridge concludes that in appeals relating to dependency cases the ladder is broken for parents seeking to advocate for themselves and for the true best interests of their children Policies relating to child welfare are flawed Cambridge argues because of the preemptive and prejudicial response to the issues raised during the detention of children As with his two earlier books Cambridge explores issues connected with how best to parent his adopted daughter and advocate for her needs in the context of a dependency case Cordelia s reactive attachment disorder would surface throughout the judicial struggle as would the author s own struggles with Asperger syndrome Each would feed negatively into the overall trauma and drama of the author s unrelenting quest to reunite his forever family Cambridge believes that dependency proceedings are ill equipped on many levels to elicit a proper understanding of RAD or of the therapeutic parenting needed to address it Cambridge believes that adoptive parents of children with special needs need to be understood by more sympathetic social workers and by therapists trained in attachment disorders Cambridge s persistent efforts to reunite his forever family would leave him increasingly isolated as he climbs the judicial ladder Based on his experiences Cambridge explores areas for reform in Los Angeles dependency proceedings and evokes Shakespeare s King Lear by arguing that social workers need to see better and that the Los Angeles Juvenile Dependency Court needs to encourage a broader understanding of the issues raised through more effective legal advocacy from assigned dependency lawyers Cambridge argues that parents should be allowed to address the court directly Cambridge also relates how he and his daughter have found many positive and healthy ways to heal in the years since their dependency case ended Much trauma could have been avoided if those around them had seen better and had recognized the value in their dramatic and loving adoption journey

Non-Elegiac Latin Love Poetry of Late Antiquity Vasileios Pappas, 2025-05-19 For about five hundred years between Ovid s death 17 AD and Maximianus Elegies 6th century AD the genre of love elegy disappears Does this mean that love poetry in general was no longer being written This was certainly not the case Poets continued to compose love poetry merely in other forms than elegy This book deals with non elegiac Latin love poetry of Late Antiquity It is the first monograph to focus on the metaliterary interpretation of four non elegiac poetic works the Pervigilium Veneris Ausonius Bissula Reposianus De concubitu Martis et Veneris and the Aegritudo Perdicae The book contains all the required information about these poems including their date authorship structure and literary tradition However its content is predominantly original as it examines subjects that have not previously been discussed in the past These include a the generic interaction between the poems host genre and several guest genres that are present within them b the metaliterary discourse developed in several passages which reveals the metapoetic self consciousness of their poets c their hidden
