Motherhood In Bondage Motherhood In Bondage:

Motherhood in Bondage, 2000 The letters are grouped by theme into sixteen chapters and Sanger wrote an introduction to each chapter In her new foreword for this edition Margaret Marsh describes the controversies surrounding these letters and places them in their historical context BOOK JACKET *Motherhood in Bondage* Margaret Sanger, 1928

Motherhood in Bondage Margaret Sanger, 1928 **Motherhood in Bondage** Margaret Sanger, 2000 **Entangled** Ashley Boggan, 2025-05-06 The United Methodist impasse over human sexuality has its roots in two dichotomous ideologies of history and theology This book maps how American Methodists have responded to sexual change since World War II It argues that the current United Methodist impasse over human sexuality has its root in the existence of two dichotomous ideologies of Methodist history and theology one liberal and one evangelical which come to the foreground in discussions of human sexuality It offers evidence about how these ideologies have sought to reconcile their sexual ethic with sexual change since the birth control movement of the 1920s In post WWII America most Methodists upheld a limited notion of family life and sexuality one that allowed for the use of artificial contraception within marriage and for divorce In response to the sexual revolution liberal leaning Methodists upheld a new sexual ethic the new morality which peaked with radical new approaches to sex education a full endorsement of abortion rights and support of the homophile movement However the new morality coincided with an increased presence of and a new voice for evangelical Methodists Charles Keysor and the Good News Movement Evangelical Methodists critiqued the new morality as value neutral and anti Scripture The evangelical desire for a rules based morality solely reliant on Scripture collided with the new morality and led to intense debates over sex education abortion and the inclusion of LGBTQ persons within the United Methodist denomination from the 1970s onward Since 1972 United Methodists have continually debated human sexuality at each General Conference primarily through the advocacy efforts of political caucus groups This author hopes that an historical examination of how Methodists have confronted sexual change will enlighten current conversations about human sexuality **Mother-Work** Molly Ladd-Taylor, 2022-10-17 Early in the twentieth century maternal and child welfare evolved from a private family responsibility into a matter of national policy Molly Ladd Taylor explores both the private and public aspects of child rearing using the relationship between them to cast new light on the histories of motherhood the welfare state and women s activism in the United States Ladd Taylor argues that mother work women s unpaid work of reproduction and caregiving motivated women s public activism and maternalist ideology Mothering experiences led women to become active in the development of public health education and welfare services In turn the advent of these services altered mothering in many ways including the reduction of the infant mortality rate *The Keloids We Heal* Sarah Soanirina Ohmer, 2025-05-13 The corporeal and spiritual healing in literature by women of colors can be seen to redefine modern thought and printed text Sarah Soanirina Ohmer traces the impact of colonization and enslavement on Black women and Black women s contributions to colonial nineteenth and twentieth century literature in

the US Brazil and West Indies Her analysis unlocks the literature's power to heal through gut wrenching descriptions of wounds and thrilling passages of hope and liberation Drawing on intersectional analysis Ohmer focuses on portrayals of trauma and spirituality in works by Toni Morrison Concei o Evaristo Maryse Cond Gloria Anzald a the Quilombhoje poets and Mar a de los Reyes Castillo Ohmer compares literature from different countries along four thematic pathways ghosts mirrors naming and motherhood Her analysis unlocks the literature's power to heal through gut wrenching descriptions of wounds and thrilling passages of hope and liberation Throughout Ohmer weaves in her life story as a Black woman as she reflects on how colonialism racism sexism and capitalism have impacted her work traumas and faith journey **A History of Hope** NA,2016-09-27 This book chronicles American history through the stories of the individuals and movements that dreamed of a better future and then took action to make that dream a reality arguing that the much heralded American spirit was not born as a gift of our founding but was forged through our adversity and triumphs From colonial revolutionaries to abolitionists labor organizers to suffragists progressives to civil rights activists it was individuals and movements who dared to go against the American majority that both guarded and created our best national self *The Mother / Daughter Plot* Marianne Hirsch,1989-10-22 Mothers and daughters the female figures neglected by classic psychoanalysis and submerged in traditional narrative are at the center of this book The novels of nineteenth and twentieth century women writers from the Western European and North American traditions reveal that the story of motherhood remains the unspeakable plot of Western culture Focusing on the feminine and more controversially on the maternal this book alters our perception of both the familial structures basic to traditional narrative the Oedipus story and the narrative structures basic to traditional representations of the family Freud's family romance Confronting psychoanalytic theories of subject formation with narrative theories Marianne Hirsch traces the emergence and transformation of female family romance patterns from Jane Austen to Marguerite Duras **The Moral Veto** Gene Burns,2005-04-11 Why have legislative initiatives occurred on such controversial issues as contraception and abortion at times when activist movements had demobilized and the public seemed indifferent Why did the South currently a region where anti abortion sentiment is stronger than in most of the country liberalize its abortion laws in the 1960s at a faster pace than any other region Why have abortion and contraception sometimes been framed as matters of medical practice and at other times as matters of moral significance These are some of the questions addressed in *The Moral Veto Framing Contraception Abortion and Cultural Pluralism in the United States* Based on archival and sociological research and speaking to issues in the study of culture social movements and legal change this 2005 book examines what the history of controversies over such morally charged issues tells us about cultural pluralism in the United States *The Battle for Birth Control* Jessica L. Furgerson,2022-03-29 The Battle for Birth Control delves into the complex rhetorical history of the American birth control movement in its formative years In just four decades advocates under the strategic guidance of Margaret Sanger transitioned the fight for contraception from fringe radical movement to a

respectable mainstream cause endorsed by powerful professionals and politicians alike Eschewing their early ideological commitments to obtain widespread acceptance birth controllers adopted a strategy of political accommodation characterized by deferential rhetoric and careful posturing This strategy secured significant victories for the movement but at what cost Informed by a deep commitment to reproductive justice *The Battle for Birth Control* traces the duplicity of the movement's early rhetoric and argues that their accommodationist strategy yielded increased contraceptive access solely because of their willingness to endorse the neoliberal regime of reproductive control largely responsible for the current threats to reproductive autonomy in the 21st century

The Birth Control Review Margaret Sanger, 1917 *Learning from My Mother's Voice* Jean Lau Chin, 2005 A compelling saga of mothers and daughters survival and striving women family and culture that will resonate with all Americans who have immigrant roots This fascinating book takes a new and different look at the immigrant experience of Asian Americans Through the voice of her Chinese mother the author examines perennial themes of separation loss guilt and bicultural identity in the lives of immigrant families Grounded in a historical context that spans events of more than a century World War II McCarthyism Civil Rights the Women's movement this volume Uses oral history to show how families rely upon myth and legend as they adjust to a new culture Illustrates how strong cultural and intergenerational bonds can both support and oppress Chinese American families Uses Asian mythology and symbols to understand the psyche of Chinese Americans and their immigration experience illustrating the contrasting world views of Asian and Western culture Provides strategies for coping with the immigration experience for use by counselors and other professionals

Not My Mother's Sister Astrid Henry, 2004-09-07 No matter how wise a mother's advice is we listen to our peers At least that's writer Naomi Wolf's take on the differences between her generation of feminists the third wave and the feminists who came before her and developed in the late 60s and 70s the second wave In *Not My Mother's Sister* Astrid Henry agrees with Wolf that this has been the case with American feminism but says there are problems inherent in drawing generational lines Henry begins by examining texts written by women in the second wave and illustrates how that generation identified with yet also disassociated itself from its feminist foremothers Younger feminists now claim the movement as their own by distancing themselves from the past By focusing on feminism's debates about sexuality they are able to reject the so-called victim feminism of Catherine MacKinnon and Andrea Dworkin Rejecting the orthodoxies of the second wave younger feminists celebrate a woman's right to pleasure Henry asserts however that by ignoring diverse older voices the new generation has oversimplified generational conflict and has underestimated the contributions of earlier feminists to women's rights They have focused on issues relating to personal identity at the expense of collective political action Just as writers like Wolf Katie Roiphe and Rene Denfeld celebrate a new feminist hetero sexuality posited in generational terms queer and lesbian feminists of the third wave similarly distance themselves from those who came before Henry shows how 1970s lesbian feminism is represented in ways that are remarkably similar to the puritanical portrait of feminism offered by straight

third wave. She concludes by examining the central role played by feminists of color in the development of third wave feminism. Indeed, the term third wave itself was coined by Rebecca Walker, daughter of Alice Walker. *Not My Mother's Sister* is an important contribution to the exchange of ideas among feminists of all ages and persuasions. *Laws of Early Iceland*

, 2000-11-03 The laws of Medieval Iceland provide detailed and fascinating insight into the society that produced the Icelandic sagas. Known collectively as Gragas, this great legal code offers a wealth of information about early European legal systems and the society of the Middle Ages. This first translation of Gragas Laws of Early Iceland is in two volumes. Testimonies Concerning the Character and Ministry of Mother Ann Lee and the First Witnesses of the Gospel of

Lee ... given by some of the aged brethren and sisters of the United Society, etc. [Edited by S. Y. W.] Seth Y. WELLS, 1827 **The Mother in Psychoanalysis and Beyond** Rosalind Mayo, Christina Moutsou, 2016-10-04 The question of what it means to be a mother is a very contentious topic in psychoanalysis and in wider society. *The Mother in Psychoanalysis and Beyond* explores our relationship to the maternal through psychoanalysis, philosophy, art, and political and gender studies. Over two years, a group of psychotherapists and members of the public met at the Philadelphia Association for a series of seminars on the Maternal. In the discussions that followed, a chasm opened up slowly and painfully between the idealised longings and fantasies we all share and the realities of maternal experiences. Here were met the great silences of love, loss, longing, memories, desire, hatred, and ambivalence. This book is the result of this bringing together in conversation and reflections of what so often seems unsayable about the Mother. It examines how issues of personal and gender identity are shaped by the ideals of separation from the mother, the fears and anxiety of merging with the mother, and how this has often led in psychoanalysis and society to holding mothers responsible for a variety of personal and social ills and problems in which maternal vulnerability is denied and silenced. There are two main themes running throughout the book: Matricide and Maternal Subjectivity. On the theme of matricide, several contributors discuss the ways in which the discourse and narratives of the Mother have been silenced on a sociocultural level and within psychoanalysis and philosophy in favour of discourses

that promote independence autonomy power and the avoidance and denial of our fundamental helplessness and vulnerability On the theme of maternal subjectivity several chapters look at the actual experience of mothering and or our relationship to our mother to highlight the ways in which the maternal is intimately connected with human subjectivity The Mother in Psychoanalysis and Beyond provides new and provocative thinking about the maternal and its place in various contemporary discourses It will appeal to psychoanalysts psychotherapists and psychologists of different schools scholars and advanced students of art gender studies politics and philosophy as well as anyone interested in maternity studies and the relationship between the maternal and human subjectivity **Mother in Bondage** Paul Gable,1981
