Kinser, 2010-05-04 How does feminism relate to motherhood how has it changed over time and what does the future of motherhood and feminism look like These are just some of the questions Amber E Kinser PhD tackles in *Motherhood and Feminism* The latest in the Seal Studies series *Motherhood and Feminism* is an important title examining the role of feminism within motherhood The topic has garnered a lot of attention lately as society shifts to adapt to new definitions of these roles Kinser has made a career of speaking teaching and writing about motherhood and feminism weaving her own experience as a mother together with the

knowledge and critique she has garnered through her studies She offers insight on the core questions of motherhood what it means to be a good mother the role of mothers in the family and in society and how motherhood has been redefined throughout time Kinser examines how the changing world of motherhood fits into feminist activism and speculates on the future directions of these identities *Matricentric Feminism: Theory, Activism, Practice. The 2nd Edition* Andrea O'Reilly, 2021-04-04 The 2nd edition includes a new preface that considers how matricentric feminism in positioning mothering as a verb affords a gender neutral understanding of motherwork and allows for an appreciation of how motherwork is deeply gendered and how this may be challenged and changed through empowered mothering The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face are specific to women's role and identity as mothers Indeed mothers are oppressed under patriarchy as women and as mothers Consequently mothers need a feminism of their own one that positions mothers concerns as the starting point for a theory and politic of empowerment O'Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice The Matrix of Race Rodney D. Coates, Abby L. Ferber, David L. Gendered Mobilities Tim Cresswell,2016-04-22 Being socially and geographically mobile is generally seen as one of the central aspects of women s wellbeing Alongside health education and political participation mobility is indispensable in order for women to reach goals such as agency and freedom Building on new philosophical underpinnings of mobility whereby society is seen to be framed by the convergence of various mobilities this volume focuses on the intersection of mobility social justice and gender The authors reflect on five highly interdependent mobilities that form and reform social life *The Routledge Companion to Motherhood* Lynn O'Brien Hallstein,Andrea O'Reilly,Melinda Giles,2019-11-04 Interdisciplinary and intersectional in emphasis the Routledge Companion to Motherhood brings together essays on current intellectual themes issues and debates while also creating a foundation for future scholarship and study as the field of Motherhood Studies continues to develop globally This Routledge Companion is the first extensive collection on the wide ranging topics themes issues and debates that ground the intellectual work being done on motherhood Global in scope and including a range of disciplinary perspectives including anthropology literature communication studies sociology women s and gender studies history and economics this volume introduces the foundational topics and ideas in motherhood delineates the diversity and complexity of mothering and also stimulates dialogue among scholars and students approaching from divergent backgrounds and intellectual perspectives This will become a foundational text for academics in Women s and Gender Studies and interdisciplinary researchers interested in this important complex and rapidly growing topic Scholars of psychology sociology or public policy and activists in both university and workplace settings interested in motherhood and mothering will find it an invaluable guide **Motherhood in the Media** Barbara Barnett,2016-02-19 This book examines contemporary media stories about women who kill their children By analyzing media texts motherhood blogs and journalistic interviews the book seeks to understand better maternal violence and the factors that lead women to harm their children The central thesis of

this book is that media practices have changed dramatically during the past 50 years as has society's views on appropriate feminine behavior yet definitions of characteristics of good mothers remain largely defined by 1950s sitcoms Victorian ideals and Christian theology The book contends that in spite of media saturation in American society and the media's increased opportunities to tell complex and nuanced stories news media narratives continue to situate maternal violence as rare unfathomable and unpredictable The news media's shift in focus from public service to profit making industry has encouraged superficial coverage of maternal violence as reporters look for stories that sell not stories that explain Motherhood blogs in contrast offer an opportunity for women to tell their own stories about motherhood based on experience Interviews with journalists offer insights into how the structure of their jobs dictates media coverage of this intimate form of violence

Little House, Long Shadow Anita Clair Fellman, 2008-05-21 Beyond their status as classic children's stories Laura Ingalls Wilder's Little House books play a significant role in American culture that most people cannot begin to appreciate Millions of children have sampled the books in school played out the roles of Laura and Mary or visited Wilder homesites with their parents who may be fans themselves Yet as Anita Clair Fellman shows there is even more to this magical series with its clear emotional appeal a covert political message that made many readers comfortable with the resurgence of conservatism in the Reagan years and beyond In Little House Long Shadow a leading Wilder scholar offers a fresh interpretation of the Little House books that examines how this beloved body of children's literature found its way into many facets of our culture and consciousness even influencing the responsiveness of Americans to particular political views Because both Wilder and her daughter Rose Wilder Lane opposed the New Deal programs being implemented during the period in which they wrote their books reflect their use of family history as an argument against the state's protection of individuals from economic uncertainty Their writing emphasized the isolation of the Ingalls family and the family's resilience in the face of crises and consistently equated self sufficiency with family acceptance security and warmth Fellman argues that the popularity of these books abetted by Lane's overtly libertarian views helped lay the groundwork for a negative response to big government and a positive view of political individualism contributing to the acceptance of contemporary conservatism while perpetuating a mythic West Beyond tracing the emergence of this influence in the relationship between Wilder and her daughter Fellman explores the continuing presence of the books and their message in modern cultural institutions from classrooms to tourism newspaper editorials to Internet message boards Little House Long Shadow shows how ostensibly apolitical artifacts of popular culture can help explain shifts in political assumptions It is a pioneering look at the dissemination of books in our culture that expands the discussion of recent political transformations and suggests that sources other than political rhetoric have contributed to Americans renewed appreciation of individualist ideals

Theatre History Studies 2016, Vol. 35 Sara Freeman, 2016-12-06 Rosemarie K Bank and Michal Kobialka eds Theatre Performance Historiography Time Space Matter Reviewed by Danny Devlin [From Happy Homemaker to Desperate Housewives](#)

Rebecca Feasey, 2012-11-01 *From Happy Homemaker to Desperate Housewives: Motherhood and Popular Television* is a comprehensive and accessible introduction to key debates concerning the representations of motherhood, motherwork and the maternal role in contemporary television programming. The volume looks at the construction of motherhood in the ostensibly female genre of soap opera, the mother as housewife in the domestic situation comedy, deviant, desiring and delinquent motherwork in the teen drama, the single working mother in the contemporary dramedy, the fragile and failing mother of reality parenting television, the serene and selfless celebrity motherhood profile and the new mother in reality pregnancy and childbirth television. *Motherhood and Popular Television* examines the depiction of motherhood in this wide range of popular television genres in order to illustrate how the maternal role is being constructed, circulated and interrogated in contemporary factual and fictional programming, paying particular attention to the ways in which such images can be seen to challenge or conform to the ideal image of the good mother that dominates the contemporary cultural landscape.

The Online World of Surrogacy Zsuzsa Berend, 2016-09-01 Zsuzsa Berend presents a methodologically innovative ethnography of SurroMomsOnline.com, the largest surrogacy support website in the United States. Surrogates' views emerge from the stories, debates and discussions that unfold online. The *Online World of Surrogacy* documents these collective meaning-making practices and explores their practical, emotional and moral implications. In doing so, the book works through themes of interest across the social sciences, including definitions of parenthood, the symbolic role of money, reproductive loss, altruism and the moral valuation of relationships.

The Power and Vulnerability of Love Elizabeth O'Donnell Gandolfo, 2015 Gandolfo constructs a theological anthropology that begins with the condition of human vulnerability as a site to answer why human beings experience and inflict terrible suffering. This volume argues that vulnerability is a dimension of human existence that causes us great anxiety, which forms the basis for violence but also affords the possibility.

Confronting Postmaternal Thinking Julie Stephens, 2012-03-20 Julie Stephens confronts the core claims of postmaternal thought and criticises dominant representations of feminism as having forgotten motherhood. She does this through an investigation of oral histories, life narratives, web blogs and other rich and varied sources. The book highlights the deep cultural anxiety that exists around public expressions of maternalism. It examines why postmaternal thinking has become so influential in recent decades and asks why there has been a growing unease with maternal forms of subjectivity and maternalist perspectives.

Who's Afraid of Women's Studies? Mary Frances Rogers, C. D. Garrett, 2002 In *Who's Afraid of Women's Studies?* the authors ask why there persists a fear of feminism and women's studies in the academy. Rogers and Garrett remind us that this field came into being as the result of women's practical efforts of advocacy and activism to represent marginalized, excluded and silenced voices. They explain the complex relationship between feminism, women's studies and their deradicalized offspring, gender studies. Six broad topics that have dominated the field over the past twenty-five years are examined in individual chapters: girls and women's bodies, anger and desires, sexuality, identity, politics,

insider backlash and feminist methods The authors challenge women and men alike to reevaluate the concepts and analytical tools available in women s studies that are so uniquely oriented to understanding women s everyday lived experiences They demonstrate how its rich historical and social analyses are the basis for a passionate scholarship one that builds bridges between theory and practice to transform communities women s organizations and social movements This new book will be a stimulating overview of women s studies gender studies and feminist theory as well as a concise introduction to supplement standard texts or anthologies
