Shah, Wendi L. Gardner, 2008-01-01 Integrating significant advances in motivation science that have occurred over the last two decades this volume thoroughly examines the ways in which motivation interacts with social developmental and emotional processes as well as personality more generally The Handbook comprises 39 clearly written chapters from leaders in the field Cutting edge theory and research is presented on core psychological motives such as the need for esteem security consistency and achievement motivational systems that arise to address these fundamental needs the process and consequences of goal pursuit including the role of individual differences and contextual moderators and implications for personal well being and interpersonal and intergroup relations      **Why Motivating People Doesn't Work . . . and What Does** Susan Fowler, 2017-02-27 A top leadership consultant says Stop trying to motivate people Find a powerful alternative to the carrot and stick in this science driven guide It s frustrating for everyone involved and it just doesn t work You can t motivate people they are already motivated but generally in superficial and short term ways In this book Susan Fowler builds upon the latest scientific research on the nature of human motivation to lay out a tested model and

course of action that will help leaders guide their people toward the kind of motivation that not only increases productivity and engagement but that gives them a profound sense of purpose and fulfillment Fowler argues that leaders still depend on traditional carrot and stick techniques because they haven't understood their alternatives and don't know what skills are necessary to apply the new science of motivation Her Optimal Motivation process shows leaders how to move people away from dependence on external rewards and help them discover how their jobs can meet the deeper psychological needs for autonomy relatedness and competence that science tells us result in meaningful and sustainable motivation Optimal Motivation has been proven in organizations all over the world Fowler's clients include Microsoft CVS NASA the Catholic Leadership Institute H R Block Mattel and dozens more Throughout this book she illustrates how each step of the process works using real life examples and offers a groundbreaking answer for leaders who want to get motivation right
