The Canoe and the Saddle Theodore Winthrop, 1913

Book of the Fourth World Gordon Brotherston, 1995-11-24

The Book of the Fourth World offers detailed analyses of texts that range far back into the centuries of civilised life from what is now Latin and Anglo America At the time of its discovery the American continent was identified as the Fourth World of our planet In the course of just a few centuries its original inhabitants though settled there for millennia and countable in many millions have come to be perceived as a marginal if not entirely dispensable factor in the continent's destiny Today the term has been taken up again by its native peoples to describe their own world both its threatened present condition and its political history which stretches back thousands of years before Columbus In order to explore the literature of this world Brotherston uses primary sources that have traditionally been ignored because they have not conformed to Western definitions of oral and written literature such as the scrolls of the Algonkin the knotted strings Quipus of the Inca Navajo dry paintings and the encyclopedic pages of Meso America's screenfold books

Among Friends Anne Dewey, Libbie Rifkin, 2013-05-15 With friendship as an optic the essays in this volume offer important new insights into the gender politics of the poetic avant garde since poetry as an institution has continued to be transformed by dramatic changes wrought by second wave feminism sexual liberation and gay rights These essays reveal the intimate social negotiations that fight fracture and queer the conventions of authority and community that have long constrained women poets and the gendering of poetic subjectivities From this shared perspective the essays collected here investigate a historically and aesthetically wide ranging array of subjects from Joanne Kyger and Philip Whalen's trans Pacific friendship to Patti Smith's grounding of her punk persona in the tension between her romantic friendships with male artists and her more professional connections to the poets of the St

Library,1970 **The Journal of Education** ,1872 **High Life** John B West,2013-05-27 HE history of high altitude physiology and medicine is such a rich and T colorful topic that it is perhaps surprising that no one has undertaken a comprehensive account before There are so many interesting ramifications from the early balloonists to the various high altitude expeditions culminating in the great saga of climbing Mt Everest without supplementary oxygen Underpinning this variety is the basic biological challenge of hypoxia and the ways organisms adapt to it a subject that is of key importance in medicine and many other life sciences encountered as it is by organisms throughout the animal kingdom I hope that this book will be of interest to a wide range of people from biologists and physiologists to pulmonologists and others who manage patients with hypoxemia The topic should also appeal to those who love the mountains including trekkers skiers climbers and mountaineers The book begins with a short introductory chapter to set the scene for the non scientist It then follows a general chronological sequence beginning with the Greeks and ending with contemporary events In some places however some compromises have been made to group together areas of related interest For example in Chapter 4 the controversy about oxygen secretion is traced from the 1870s to the 1930s and includes the Anglo American Pikes Peak Ex pedition of 1911 and the International High Altitude Expedition to Cerro de Pasco Peru during 1921 1922 It makes sense to consider these events together *Billboard* ,1967-03-25 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends
