Mercedes Hfp Manual:

Manual de Derecho Constitucional con perspectiva de género Asunción Ventura Franch, Mercedes Iglesias Báñez, 2020-07-01 Este volumen que el lector y lectora tiene entre sus manos o visualiza a través de una pantalla es resultado de un intenso debate y reflexión sobre el Derecho Constitucional español bajo dos principios vertebradores. El primero de ellos fundamenta una obra canónica que permita al lector y lectora adentrarse no solo en la teoría sino en la práctica del Derecho constitucional español con todo el rigor académico. El segundo principio vertebrador hace de este Manual una obra absolutamente novedosa: incluye e integra la perspectiva de género lo que comporta la inclusión de las mujeres como sujetos constitucionales y como principio en la construcción de un nuevo Derecho Constitucional. No existe en España un manual que disponga de esta doble función. Su novedad radical se viene gestando a lo largo de varios seminarios y encuentros de la red de estudio Red Feminista de Derecho Constitucional. Y la publicación por parte de una editorial académica Ediciones Universidad de Salamanca supone un nuevo hito en el diálogo fecundo y constante entre sociedad y universidad a la que nos debemos. La obra se conforma en dos volúmenes. Este primer volumen analiza a lo largo de cinco bloques la Constitución y el constitucionalismo español: las fuentes del Derecho, los órganos y poderes del Estado y finalmente la organización territorial del Estado desde la perspectiva de género. En sus aspectos metodológicos cada uno de los capítulos que componen el manual dispone de un riguroso marco teórico donde se exponen las cuestiones generales propias de este tipo de obras esbozadas y enriquecidas con la perspectiva de género orientado siempre a cumplir las funciones tanto de manual al uso como de manual con perspectiva de género. A continuación se incluye una práctica que servirá al lector y lectora para aplicar sus conocimientos teóricos a un caso concreto. El capítulo finaliza con una relación bibliográfica: la legislación nacional e internacional y la jurisprudencia nacional e internacional que permitirán profundizar y ampliar conocimientos. Cada capítulo se ha construido con el espíritu crítico y propositivo que inspira a la Red por lo que además de una exposición de las cuestiones a tratar se incluyen unas propuestas de reforma constitucional con perspectiva de género en las que la Red lleva trabajando varios años y cuyos estudios y propuestas en este ámbito son pioneros. El segundo volumen Derechos fundamentales y garantías constitucionales se encuentra en preparación.
