## **Mercenaries An African Security Dilemma:**

**Mercenaries** Abdel-Fatau Musah, Kayode Fayemi, J. 'Kayode Fayemi, 2000 Second volume of Deutscher prize winning trilogy on the future of IR tracing the defining characteristics of foreign encounters over time **African Security Politics Redefined** K. Dokken, 2008-05-26 This book analyzes recent alterations in African security politics focusing on regionalization of civil wars transnational aspects of African conflicts African regional peacekeeping efforts the privatization of security in Africa and the role of the UN in peacekeeping **Private Militaries and the Security Industry in Civil Wars** Seden Akcinaroglu, Elizabeth Radziszewski, 2020-09-09 Since the 1990s private military and security companies PMSCs have intervened in civil wars around the globe However reports that such contractors have been responsible for human rights abuses have spurred the need to evaluate the industry's impact on conflicts This book identifies two market forces that impact PMSCs military effectiveness local or conflict level competition and global or industry level competition The book argues that competitive market pressure creates a strong monitoring system and that the company's corporate structure and external competitive environment in a given conflict help to explain the variance in accountability to clients Including an analysis of data on international PMSCs interventions in civil wars from 1990-2008 Seden Akcinaroglu and Elizabeth Radziszewski show the impact of competition on companies' contribution to the termination of different types of civil wars

The Ashgate Research Companion to Modern Warfare John Buckley, George Kassimeris, 2016-03-23 This research collection provides a comprehensive study of important strategic cultural ethical and philosophical aspects of modern warfare It offers a refreshing analysis of key issues in modern warfare not only in terms of the conduct of war and the wider complexities and ramifications of modern conflict but also concepts of war the crucial shifts in the structure of warfare and the morality and legality of the use of force in a post 9/11 age **Military Law Review**, **Private Military and Security Companies** Erika Calazans, 2016-05-11 This book's primary concern is the application of International Humanitarian Law and International Human Rights Law in addressing the business conduct of Private Military and Security Companies PMSCs during armed conflicts as well as state responsibility for human rights violations and current attempts at international regulation The book discusses four interconnected themes First it differentiates private contractors from mercenaries presenting an historical overview of private violence Second it situates PMSCs employees under the legal status of civilian or combatant in accordance with the Third and Fourth Geneva Conventions of 1949 It then investigates the existing law on state responsibility and what sort of responsibility companies and their employees can face Finally the book explores current developments on regulation within the industry on national regional and international levels These themes are connected by the argument that in order to find gaps in the existing laws it is necessary to establish what they are what law is applicable and what further developments are needed *Private Military and Security Companies* Andrew Alexandra, Deane-Peter Baker, Marina Caparini, 2009-10-16 Over the past twenty years Private Military and Security Companies PMSCs have become

significant elements of national security arrangements assuming many of the functions that have traditionally been undertaken by state armies. Given the centrality of control over the use of coercive force to the functioning and identity of the modern state and to international order, these developments clearly are of great practical and conceptual interest. This edited volume provides an interdisciplinary overview of PMSCs: what they are, why they have emerged in their current form, how they operate, their current and likely future military, political, social and economic impact, and the moral and legal constraints that do and should apply to their operation. The book focuses firstly upon normative issues raised by the development of PMSCs and then upon state regulation and policy towards PMSCs, examining finally the impact of PMSCs on civil-military relations. It takes an innovative approach, bringing theory and empirical research into mutually illuminating contact. Includes contributions from experts in IR, political theory, international and corporate law and economics, and also breaks important new ground by including philosophical discussions of PMSCs.

**Australia, International Security and the Outsourcing of State Violence** Natalie McLean, 2024-11-07. This book sheds light on the complex and controversial realm of Private Military and Security Companies (PMSCs) and their impact on international security. The rise of PMSCs as key participants in the security arena has sparked debates worldwide, challenging the traditional monopoly on violence held by nation-states. Structured meticulously, Chapter One introduces the rise of PMSCs, focusing on Australia as a case study for their effect on state control and accountability. Chapter Two examines historical PMSC development and case studies revealing global implications for regulation and oversight. Chapter Three builds a theoretical framework for analyzing the Australian case, and Chapters Four and Five scrutinize Australia's government and PMSC industry, uncovering deficiencies in regulatory mechanisms and human rights abuses. In Chapter Six, implications on security outsourcing and regulation are explored, culminating in a thought-provoking conclusion in Chapter Seven. This book is a crucial resource for anyone seeking a deeper understanding of the challenges posed by PMSCs in the realm of international security.

*Private Military and Security Companies* Thomas Jäger, Gerhard Kümmel, 2009-04-23. Private Sicherheits- und Militärunternehmen erleben seit den 1990er Jahren einen außerordentlichen Boom und sind derzeit eines der spannendsten Phänomene in den internationalen Beziehungen. Die Palette der von ihnen angebotenen Dienstleistungen ist groß. Sie reichen von logistischer Unterstützung über Aufklärung bis hin zu Kampfeinsätzen. Zu ihren Kunden zählen Regierungen, Wirtschaftsunternehmen, internationale Organisationen, NGOs, humanitäre Organisationen sowie Privatpersonen. Gegenwärtig lässt sich an den Auseinandersetzungen im Irak sowohl die Aktualität wie auch die Brisanz ihres Einsatzes illustrieren. Gibt es doch Anzeichen dafür, dass Beschäftigte solcher Unternehmen auch in die Folterung von Gefangenen verwickelt sind. Die Beiträge des Sammelbandes aus der Feder nationaler wie internationaler Expertinnen und Experten beschreiben und analysieren verschiedene Typen von privaten Sicherheits- und Militärunternehmen, ihre Dienstleistungen und die Umstände, die ihren Boom befördert haben. Sie diskutieren die Vor- wie auch die Nachteile ihres Einsatzes und beschreiben Instrumente, die die Tätigkeit dieser Unternehmen strukturell

reglementieren und kontrollieren können *Civil Wars in Africa* Kelechi A. Kalu, George Klay Kieh Jr., 2022-05-05 *Civil Wars in Africa* edited by Kelechi A Kalu and George Klay Kieh Jr examines civil conflicts throughout various African countries They argue that civil wars in Africa are by products of the contradictions and crises engendered by the post colonial state building and nation building projects in Africa With few exceptions the post colonial states in Africa have failed to build societies that invest in the material well being of their citizens protect their political civil and other rights promote accountability transparency the rule of law judicial independence and the holding of free and fair elections and promote ethnic pluralism tolerance mutual respect and peaceful co existence among others In addition the contributors show that the post colonial states in Africa have been ruled by corrupt and autocratic leaders who are obsessed with the maintenance of state power as the pathway to ensuring the private accumulation of wealth through sundry illegal means including bribery extortion and theft of public funds In sum this volume addresses how the failure of the post colonial African state to shepherd the process of building democratic societies based on the centrality of human security has led to the erosion of the legitimacy of the state and its custodians Thus once the contradictions and crises reached their crescendo these post colonial societies than implode into civil wars even at the micro level *Sword & Salve* Peter J. Hoffman, Thomas G. Weiss, 2006-03-03 Arguing forcefully that changing times are a clarion call for new thinking this book convincingly shows that if humanitarian organizations continue to operate as they have in the past they will fail to help the very victims whom they try to save Focusing especially on the emergence of new wars Hoffman and Weiss insist that humanitarian organizations must recognize that they live in a political world and that their actions and goals are invariably affected by military action The brand of warfare that erupted in the 1990s marked by civil or transnational armed conflicts featuring potent non state actors altered political economies a high proportion of civilian casualties and a globalized media produced horrors that shocked consciences and led humanitarian agencies to question their unyielding stance of neutrality and impartiality Indeed in a departure from earlier norms and practices some have reinvented their policies and tools and created new humanitarianisms This authoritative book traces the evolution of the international humanitarian system from its inception in the 1860s parses the dynamics of war and emergency response from the 1980s through the current disasters in Afghanistan and Iraq and provides a strategic roadmap for practitioners By bringing historical perspective to bear this volume provides an invaluable analytical framework for grasping the nature of humanitarian crises and how agencies can respond strategically rather than reactively to change Students will find its blend of clearly presented theory and case studies a powerful tool for understanding the roles of state and non state actors in international relations By charting the tides of continuity and change this book will prepare agencies to dodge both figurative and actual bullets that threaten humanitarian action at the outset of the millennium Security Studies Paul D Williams, Matt McDonald, 2023-03-29 *Security Studies* An Introduction 4th edition is the most comprehensive textbook available on the subject providing students with in depth coverage of traditional and critical approaches and an

essential grounding in the debates frameworks and issues of the contemporary security agenda This new edition has been completely revised and updated to cover major developments such as COVID 19 the rise of populism climate change China and Russia s place in the world and the Trump administration It also includes new chapters on great power rivalry emerging technologies and economic threats Divided into four parts the text provides students with a detailed accessible overview of the major theoretical approaches key themes and most significant issues within security studies Part 1 explores the main theoretical approaches from both traditional and critical standpoints Part 2 explains the central concepts underpinning contemporary debates Part 3 presents an overview of the institutional security architecture Part 4 examines some of the key contemporary challenges to global security Collecting these related strands into a single textbook creates a valuable teaching tool and a comprehensive accessible learning resource for undergraduates and MA students

**The African Court of Justice and Human and Peoples' Rights in Context** Charles C. Jalloh, Kamari M. Clarke, Vincent O. Nmehielle, 2019-05-16

This volume analyses the prospects and challenges of the African Court of Justice and Human and Peoples Rights in context The book is for all readers interested in African institutions and contemporary global challenges of peace security human rights and international law This title is also available as Open Access on Cambridge Core

**State Control over Private Military and Security Companies in Armed Conflict** Hannah Tonkin, 2011-08-11

The past two decades have witnessed the rapid proliferation of private military and security companies PMSCs in armed conflicts around the world with PMSCs participating in for example offensive combat prisoner interrogation and the provision of advice and training The extensive outsourcing of military and security activities has challenged conventional conceptions of the state as the primary holder of coercive power and raised concerns about the reduction in state control over the use of violence Hannah Tonkin critically analyses the international obligations on three key states the hiring state the home state and the host state of a PMSC and identifies the circumstances in which PMSC misconduct may give rise to state responsibility This analysis will facilitate the assessment of state responsibility in cases of PMSC misconduct and set standards to guide states in developing their domestic laws and policies on private security

*The Market for Force* Deborah D. Avant, 2005-07-25 The legitimate use of force is generally presumed to be the realm of the state However the flourishing role of the private sector in security over the last twenty years has brought this into question In this book Deborah Avant examines the privatization of security and its impact on the control of force She describes the growth of private security companies explains how the industry works and describes its range of customers including states non government organisations and commercial transnational corporations She charts the inevitable trade offs that the market for force imposes on the states firms and people wishing to control it suggests a new way to think about the control of force and offers a model of institutional analysis that draws on both economic and sociological reasoning The book contains case studies drawn from the US and Europe as well as Africa and the Middle East

**West Africa's Security Challenges** Adekeye Adebajo, Ismail O. D. Rashid, 2004 Provides a context for

understanding West Africa's security dilemmas highlighting the link between failures of economic development governance and democratization on the one hand and military insecurity and violent conflicts on the other **Do the Geneva**

**Conventions Matter?** Matthew Evangelista, Nina Tannenwald, 2017 Do the Geneva Conventions Matter provides a rich comparative analysis of the laws that govern warfare and a more specific investigation relating to state practice and gives insight into how the Geneva regime has constrained guerrilla warfare and terrorism and the factors that affect protect human rights in wartime **The Mercenary** Christopher Kinsey, 2023-05-19 Ever since the French Revolution and the rise of the rise of national armies the mercenary has been viewed as a maligned and marginalized actor in international relations The Mercenary challenges this view suggesting instead that while relegated to the periphery of Great Power politics the mercenary remained a coercive instrument of state power who was willing to discretely promote the client's foreign policy when called upon to do so Never has this been more evident than today This book offers fresh insight into the future of the mercenary as an instrument of state coercion and explains why there is a mercenary renaissance in the 21st century The start of the 21st century has seen renewed interest in the mercenary from across the political spectrum The growing reliance by the US Russia and China on military and security contractors suggests that the mercenary remains a key player in International Politics now emerging from the shadows to help expand state influence on the world stage by serving as an important actor in the conduct of conflict and the winning of small wars Far from being marginalized the future of the mercenary is set to be increasingly active *Privatisation of Security* Thomas Mandrup, Gunnar Lind, Maria Nebolsina, Katja Creutz, Doug Brooks, Angela Aranas, Joakim Berndtsson, Bjørn Møller, 2012-10-15 The aim of this study is to fill a significant gap in the existing literature on the role of non state actors ranging from rebels and criminal gangs at one extreme to the corporate security industry at the other As part of the general privatisation of the security sector in the western world combined with the US led war on terror non state actors have increasingly been tied to the foreign policy priorities of the dominant western military powers Iraq and Afghanistan are the examples often used and are well described in other chapters in this book In sub Saharan Africa as in many fragile states around the world this picture is blurred and it is often difficult to make clear distinctions between public and private or between illegal and legal etc non state actors According to much of the academic literature the nature of war changed dramatically in the last part of the twentieth century especially after the end of the Cold War According to this logic there is a dichotomy between war as a social phenomenon and warfare as the domain of the state as envisaged by the late Prussian military theorist Carl von Clausewitz in the shape of the Trinitarian War The lack of capacity on the part of predominately Third World states to control conflicts has led to low intensity conflicts LIC which can be witnessed for instance in Uganda the Democratic Republic of Congo Colombia and Sri Lanka Since the end of the Cold War it has been common for weak state rulers with formal state legitimacy but not empirical legitimacy to have continued to enjoy international recognition because of international fears that they are the only barrier against a total

collapse Amongst other things this paved the way for an expansion of the market for private military and security companies PMSC such as the South African based Executive Outcomes EO in the 1990s However the lack of state capacity led to a sub contracting willingly or unwillingly of the state s monopoly on the use of force to non state actors PMSCs and semi state actors like local militias warlords criminal gangs and vigilant groups in an attempt to secure weak state leaders positions In the competition for state control internationally recognised leaders have an advantage over their non state rivals because they can seek military help outside their countries with the agreement of the international community and in accordance with international law

*Corporate Warriors* P. W. Singer, 2011-06-16 Some have claimed that War is too important to be left to the generals but P W Singer asks What about the business executives Breaking out of the guns for hire mold of traditional mercenaries corporations now sell skills and services that until recently only state militaries possessed Their products range from trained commando teams to strategic advice from generals This new Privatized Military Industry encompasses hundreds of companies thousands of employees and billions of dollars in revenue Whether as proxies or suppliers such firms have participated in wars in Africa Asia the Balkans and Latin America More recently they have become a key element in U S military operations Private corporations working for profit now sway the course of national and international conflict but the consequences have been little explored In this book Singer provides the first account of the military services industry and its broader implications *Corporate Warriors* includes a description of how the business works as well as portraits of each of the basic types of companies military providers that offer troops for tactical operations military consultants that supply expert advice and training and military support companies that sell logistics intelligence and engineering In an updated edition of P W Singer s classic account of the military services industry and its broader implications the author describes the continuing importance of that industry in the Iraq War This conflict has amply borne out Singer s argument that the privatization of warfare allows startling new capabilities and efficiencies in the ways that war is carried out At the same time however Singer finds that the introduction of the profit motive onto the battlefield raises troubling questions for democracy for ethics for management for human rights and for national security

## **Mercenaries An African Security Dilemma Introduction**

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Mercenaries An African Security Dilemma PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Mercenaries An African Security Dilemma PDF books and manuals is

convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Mercenaries An African Security Dilemma free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

### FAQs About Mercenaries An African Security Dilemma Books

**What is a Mercenaries An African Security Dilemma PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Mercenaries An African Security Dilemma PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Mercenaries An African Security Dilemma PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Mercenaries An African Security Dilemma PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Mercenaries An African Security Dilemma PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe

Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
