*Technology of the Oppressed* David Nemer,2022-02-15 How Brazilian favela residents engage with and appropriate technologies both to fight the oppression in their lives and to represent themselves in the world Brazilian favelas are impoverished settlements usually located on hillsides or the outskirts of a city In *Technology of the Oppressed* David Nemer draws on extensive ethnographic fieldwork to provide a rich account of how favela residents engage with technology in community technology centers and in their everyday lives Their stories reveal the structural violence of the information age But they also show how those oppressed by technology don t just reject it but consciously resist and appropriate it and how their experiences with digital technologies enable them to navigate both digital and nondigital sources of oppression and even at times to flourish Nemer uses a decolonial and intersectional framework called Mundane Technology as an analytical tool to understand how digital technologies can simultaneously be sites of oppression and tools in the fight for freedom Building on the work of the Brazilian educator and philosopher Paulo Freire he shows how the favela residents appropriate everyday technologies technological artifacts cell phones Facebook operations repair and spaces Telecenters and Lan Houses and use them to alleviate the oppression in their everyday lives He also addresses the relationship of misinformation to radicalization and the rise of the new far right Contrary to the simplistic techno optimistic belief that technology will save the poor even with access to technology these marginalized people face numerous sources of oppression including technological biases racism classism sexism and censorship Yet the spirit love community resilience and resistance of favela residents make possible their pursuit of freedom *Gulf Business* ,2008 *Everyday Piety* Sarah A. Tobin,2016-02-04 Working and living as an authentic Muslim comporting oneself in an Islamically appropriate way in the global economy can be very challenging How do middle class Muslims living in the Middle East navigate contemporary economic demands in a distinctly Islamic way What are the impacts of these efforts on their Islamic piety To what authority does one turn when questions arise What happens when the answers vary and there is little or no consensus To answer these questions *Everyday Piety* examines the intersection of globalization and Islamic religious life in the city of Amman Jordan Drawing on in depth ethnographic fieldwork in Amman Sarah A Tobin demonstrates that Muslims combine their interests in exerting a visible Islam with the opportunities and challenges of advanced capitalism in an urban setting which ultimately results in the cultivation of a neoliberal Islamic piety Neoliberal piety Tobin contends is created by both Islamizing economic practices and economizing Islamic piety and is done in ways that reflect a modern cosmopolitan style and aesthetic revealing a keen interest in displays

of authenticity on the part of the actors Tobin highlights sites at which economic life and Islamic virtue intersect Ramadan the hijab Islamic economics Islamic banking and consumption Each case reflects the shift from conditions and contexts of highly regulated and legalized moral behaviors to greater levels of uncertainty and indeterminacy In its ethnographic richness this book shows that actors make normative claims of an authentic real Islam in economic practice and measure them against standards that derive from Islamic law other sources of knowledge and the pragmatics of everyday life
