A Different Order of Difficulty Karen Zumhagen-Yekplé, 2020-04-15 Is the point of philosophy to transmit beliefs about the world or can it sometimes have higher ambitions In this bold study Karen Zumhagen Yekpl makes a critical contribution to the resolute program of Wittgenstein scholarship revealing his *Tractatus Logico Philosophicus* as a complex mock theoretical puzzle designed to engage readers in the therapeutic self clarification Wittgenstein saw as the true work of philosophy Seen in this light Wittgenstein resembles his modernist contemporaries more than might first appear Like the literary innovators of his time Wittgenstein believed in the productive power of difficulty in varieties of spiritual experience in the importance of age old questions about life s meaning and in the possibility of transfigurative shifts toward the right way of seeing the world In a series of absorbing chapters Zumhagen Yekpl shows how Kafka Woolf Joyce and Coetzee set their readers on a path toward a new way of being Offering a new perspective on Wittgenstein as philosophical modernist and on the lives and afterlives of his indirect teaching *A Different Order of Difficulty* is a compelling addition to studies in both literature and philosophy

The Ethics and Poetics of Alterity Maylis Rospide, Sandrine Sorlin, 2015-09-04 This volume focuses on language and ethics in literary genres such as dystopia science fiction and fantasy that depict encounters with alterity Indeed so called genre literature embodies a heuristic model that dramatizes and exacerbates these encounters by featuring exotic subhuman or post human beings that defy human knowledge elements particularly prevalent in science fiction and fantasy These genres have often been regarded as an entertaining or escapist field that does not lend itself to ethical and poetical reflections limiting its scope to a hollow and servile repetition of genre codes This volume shows unequivocally that this field does lend itself to such reflections The contributors to this book highlight genre literature s defamiliarising power through which things can be seen In meta conceptualising the relationship between language and reality it problematises and enhances this relation by making it more easily perceivable The book shows that rather than contenting itself with merely questioning the mechanism of estrangement genre literature explores the confines of readability and the boundary between the readerly and the writerly In their desire to represent the Other in all its complexity writers are indeed confronted with an ethical and poetical aporia how can what escapes humanity be described in human language How can human language represent things that have no known referent in the reader s world of experience This collection of essays reveals that the most prototypical traits of genre literature lie in the encounter with otherness and the linguistic issues this raises

The German Ideology Karl Marx, 2024-05-09 Written across the years 1845-46 this collection of writings by Marx and Engels were published in the early 20th century from his estate The bulk of these were written by Marx but some parts by Engels Moses Hess Joseph Weydemeyer and Roland Daniels Die deutsche Ideologie is considered a key work in the development of historical materialism Engels noted that this work contained his first sketch of Historical Dialectical Materialism although you see elements of this in his 1841 Differenz der demokritischen und epikureischen Naturphilosophie his doctoral thesis and his early criticisms of Hegel's Philosophy of Right his 1844 Zur Kritik der Hegelschen Rechtsphilosophie Written in 1845-1846 but unpublished during Marx and Engels' lifetimes The German Ideology Die deutsche Ideologie was conceived as a comprehensive polemic against the dominant philosophical currents of post-Hegelian Germany particularly those espoused by Bruno Bauer Ludwig Feuerbach and Max Stirner Intended as a full theoretical break from the abstractions of German idealism the manuscript was composed in a fragmentary often repetitious manner and left abandoned when no publisher accepted it later unearthed and printed in part in the 1930s It was in these pages that Marx

and Engels first articulated in clear and systematic form their theory of historical materialism asserting that the mode of material production in any society shapes its institutions culture and consciousness The text rejects the idea that ideas or consciousness determine social life arguing instead that it is social being shaped by labor and economic organization that gives rise to thought It openly mocks the lofty metaphysical preoccupations of the Young Hegelians and positions them as trapped in a self referential illusion detached from the real conditions of existence The book also includes a sharp critique of Stirner s individualism and idealist egoism casting it as another symptom of the German philosophical retreat from history and practice Although the manuscript was never revised into a final form its theoretical content introduced the decisive materialist standpoint that would underpin Marx s later writings marking the emergence of a philosophy not of contemplation but of transformation This modern Critical Reader s Edition includes an illuminating afterword tracing Marx s intellectual relationships with revolutionary thinkers and philosophers including Hegel Feuerbach Engels and Ricardo containing unique research into his ideological development and economic metaphysical theories a comprehensive timeline of his life and works a glossary of Marxist terminology and a detailed index of all of Marx s writings This professional translation renders Marx s dense dialectical prose into modern language to preserve the original force and precision of the text Combined with the scholarly amplifying material this edition is an indispensable exploration of Marx s classic works and his enduring Hegelian Protestant influence in the political religious economic and philosophical spheres **Anna Karenina** graf Leo Tolstoy,2014-01-01 Presents the classic nineteenth century Russian novel in which a young woman is destroyed when she attempts to live outside the moral law of her society **Delphi Collected Works of Friedrich Engels (Illustrated)** Friedrich Engels,2023-07-27 The German socialist Friedrich Engels first developed an interest in the philosophy of G W F Hegel prior to forming a permanent partnership with Karl Marx to promote the socialist movement After persuading the second Communist Congress to adopt their views the two friends drafted the Communist Manifesto of 1848 After Marx s death in 1883 Engels was the foremost authority on Marx and Marxism He produced wide ranging works of his own including philosophical writings on materialism idealism and dialectics His important work helped supply Marxism with an ontological and metaphysical foundation This eBook presents Engels collected works with numerous illustrations rare texts informative introductions and the usual Delphi bonus material Version 1 Beautifully illustrated with images relating to Engels life and works Concise introductions to the major texts All of the major treatises with individual contents tables Features rare works appearing for the first time in digital publishing Images of how the books were first published giving your eReader a taste of the original texts Easily locate the texts you want to read Features Karl Kautsky s early biography discover Engels incredible life Ordering of texts into chronological order and genres CONTENTS The Works The Condition of the Working Class in England 1845 The Holy Family 1845 The German Ideology 1845 The Anniversary of the Polish Revolution of 1830 1847 Preface to On the Question of Free Trade 1848 The Communist Manifesto 1848 Address of the
