Politics and Power in the Maghreb Michael Willis, 2014-04-17 The overthrow of the regime of President Ben Ali in Tunisia on 14 January 2011 took the world by surprise The popular revolt in this small Arab country and the effect it had on the wider Arab world prompted questions as to why there had been so little awareness of it up until that point It also revealed a more general lack of knowledge about the surrounding western part of the Arab world or the Maghreb which had long attracted a tiny fraction of the outside interest shown in the eastern Arab world of Egypt the Levant and the Gulf This book examines the politics of the three states of the central Maghreb Algeria Tunisia and Morocco since their achievement of independence from European colonial rule in the 1950s and 1960s It explains the political dynamics of the region by looking at the roles played by the military political parties and Islamist movements and addresses factors such as Berber identity and economics as well as how the states of the region interact with each other and with the wider world

The Berber Identity Movement and the Challenge to North African States Bruce Maddy-Weitzman, 2011-05-01 Like many indigenous groups that have endured centuries of subordination the Berber Amazigh peoples of North Africa are demanding linguistic and cultural recognition and the redressing of injustices Indeed the movement seeks nothing less than a refashioning of the identity of North African states a rewriting of their history and a fundamental change in the basis of collective life In so doing it poses a challenge to the existing political and sociocultural orders in Morocco and Algeria while serving as an important counterpoint to the oppositionist Islamist current This is the first book length study to analyze the rise of the modern ethnocultural Berber Amazigh movement in North Africa and the Berber diaspora Bruce Maddy Weitzman begins by tracing North African history from the perspective of its indigenous Berber inhabitants and their interactions with more powerful societies from Hellenic and Roman times through a millennium of Islam to the era of Western colonialism He then concentrates on the

marginalization and eventual reemergence of the Berber question in independent Algeria and Morocco against a background of the growing crisis of regime legitimacy in each country His investigation illuminates many issues including the fashioning of official national narratives and policies aimed at subordinating Berbers in an Arab nationalist and Islamic centered universe the emergence of a counter movement promoting an expansive Berber imagining that emphasizes the rights of minority groups and indigenous peoples and the international aspects of modern Berberism **North Africa** Phillip C. Naylor, 2009-12-03 North Africa has been a vital crossroads throughout history serving as a connection between Africa Asia and Europe Paradoxically however the region s historical significance has been chronically underestimated In a book that may lead scholars to reimagine the concept of Western civilization incorporating the role North African peoples played in shaping the West Phillip Naylor describes a locale whose transcultural heritage serves as a crucial hinge politically economically and socially Ideal for novices and specialists alike North Africa begins with an acknowledgment that defining this area has presented challenges throughout history Naylor s survey encompasses the Paleolithic period and early Egyptian cultures leading readers through the pharonic dynasties the conflicts with Rome and Carthage the rise of Islam the growth of the Ottoman Empire European incursions and the postcolonial prospects for Egypt Libya Tunisia Algeria Morocco and Western Sahara Emphasizing the importance of encounters and interactions among civilizations North Africa maps a prominent future for scholarship about this pivotal region **Handbook of US-Middle East Relations** Robert Looney, 2014-05-22 Divided into three sections the Handbook of US Middle East Relations provides a thorough and up to date overview of contemporary US Middle East relations in historical perspective With chapters contributed by leading experts in the field this Handbook will be of use to academics students and researchers in international relations policy analysts media professionals and government officials Part I Factors Affecting US Relations contains essays including Globalization Energy Security Wars and Revolution Peace Processes US Foreign Aid Policy to the Middle East and US Relations with Islamic Groups in the Middle East Part II Perceptions of US Relations contains essays on how US policies are viewed including The View from the Arab Street The View from Palestine The View from Pakistan and The View from Kurdistan Part III US Relations at the Country Level comprise essays detailing relations between the USA and countries and areas in the Middle East and North Africa including Saudi Arabia Egypt Israel Tunisia Lebanon Iran Iraq Libya Algeria and Bahrain A comprehensive index completes the volume **Elites and Arab Politics** Ian Kelly, 2020-06-11 This work explains elite behaviour in authoritarian systems and proposes why elites withdraw their support for the incumbent when faced with popular uprisings Building upon foundations drawn from institutional authoritarianism and synthesised with local context from the substantial scholarship on the Middle East and North Africa the book argues that the elite supporting autocrats come from three distinct cadres the military the single party and the personalist Each of these cadres possesses its own distinct institutional interests and preferences towards regime change Drawing on these interests the study constructs a

theoretical framework that is assessed through testing it against three variables Utilising an analytic narrative the research finds that the withdrawal of elite support is the consequence of long term processes that see distinct cadres marginalised First increased incumbent preference for personalist elements destabilises regimes as the military and single party cadres reconsider their positions Second neoliberal economic policies implemented via structural adjustment accelerated this personalisation as the state s withdrawal from the economy This in turn affected the ability of the military and single party elites to access patronage Finally the degree of military involvement in the formal political sphere contributes to shaping the nature of the system that replaced the incumbent regime under examination Building upon a wide range of literature the book argues that interest realisation determines whether or not elite actors support regime change in authoritarian systems The volume will be of interest to scholars researching politics social sciences and the Middle East **Global Security Watch—The Maghreb** Yahia H. Perspectives on Western Sahara Anouar Boukhars,Jacques Roussellier,2013-12-18 The ongoing conflict in Western Sahara is one of the more intractable legacies of European colonization in North Africa Following the withdrawal of Spain this territorial dispute escalated in 1975 into a war of independence between the Sahrawi people of the Polisario Front who were backed by Algeria and the states of Mauritania and Morocco In 1976 the Polisario Front established the Sahrawi Arab Democratic Republic which was not admitted in the UN but won recognition by a few states After multiple peace efforts the conflict reemerged in 2005 as the independence Intifada Today the Polisario Front controls about 20% of Western Sahara At the heart of the conflict lie geopolitical interests and incompatible claims aggravated by the

The Will of Change Eva-Maria Maggi, 2015-10-13 In this book Eva Maria Maggi argues that the European Union EU had an impact on institutional reform processes in North Africa in cases where major domestic actors agreed She analyzes how political actors in Morocco used EU neighborhood policies to shape economic and environmental policy between 1995 and 2008 Maggi argues that it was not the design of the EU's neighborhood policies but rather the will of change of domestic actors in Morocco that determined the pace direction of reform and the extent to which the EU continues to play a role in them While Moroccan politics were indeed europeanized Maggi highlights the role of domestic actors who so effectively managed to put forth their own policy priorities and essentially moroccanized the ENP
