North African Politics Yahia H. Zoubir, Gregory White, 2015-09-16 In the aftermath of the turmoil that shook North Africa in late 2010 and early 2011 commentators and analysts have sought explanations to the factors that triggered the uprisings and to understand why a region seemingly characterized by relative stability for decades would suddenly erupt in convulsions Had an underlying dynamism in the region overwhelmed what were ostensibly stable authoritarian regimes What were the connections to events and dynamics beyond the region such as countries in the Middle East international commodity markets and environmental factors amongst others Why had allies abetted authoritarianism for so long and what were the implications for such alliances

North African Politics Change and continuity brings together experts to explore these questions providing in depth analyses of important developments in the region which build upon and complement the 2008 companion volume *North Africa Politics Region and the Limits of Transformation* This 21 chapter volume is a key contribution that responds to the need in the Anglo American sphere for sustained critical studies on North Africa and examines political economic security social and military aspects of the region Focused studies on individual countries allow detailed discussion of regional factors The book also examines extrinsic trans regional dynamics such as North Africa's influential interdependencies with the Levant and the Gulf Europe Sahelian and sub Saharan Africa and North America Its innovative approach provides new perspectives on North Africa extending its research scope to include Egypt and exploring China's evolving role in the region Providing an important contribution in the assessment of the ever shifting political and social tectonics within and beyond North Africa *North African Politics* is an essential resource for students scholars and policy makers in Middle Eastern and North African Studies and beyond

Protests and Generations:

Legacies and Emergences in the Middle East, North Africa and the Mediterranean, 2017-04-18 The aim of *Protests and Generations* is to problematize the relations between generations and protests in the Middle East North Africa and the Mediterranean Most of the work on recent protests insists on the newness of their manifestation but leave unexplored the various links that exist between them and what preceded them Mark Muhannad Ayyash and Ratiba Hadj Moussa Eds argue that their articulation relies at once on historical ties and their rejection It is precisely this tension that the chapters of the book address in specifically documenting several case studies that highlight the generating processes by which generations and protests are connected What the production and use of generation brings to scholarly understanding of the protests and

the ability to articulate them is one of the major questions this collection addresses Contributors are Mark Muhannad Ayyash Lorenzo Cini ric Gobe Ratiba Hadj Moussa Andrea Hajek Chaymaa Hassabo Gal Levy Ilana Kaufman Sunaina Maira Mohammad Massala Matthieu Rey G kb r Sarp Tanyildiz and Stephen Luis Vilaseca Protests and Generations is now available in paperback for individual customers **T&T Clark Handbook of the Early Church** Ilaria L.E. of peace Do they believe that apologies can improve the chances of reconciliation What do they think are the best ways for achieving peace Does reasoning regarding the achievability of world peace vary by region International Handbook of Peace and Reconciliation a companion volume to the International Handbook on War Torture and Terrorism examines and analyzes how people around the world think about justice governmental apologies the right to protest the peace process the justifiability of armed conflict the possibility of world peace and reconciliation To address these questions researchers from the Group on International Perspectives on Governmental Aggression and Peace GIPGAP administered the Personal and Institutional Rights to Aggression and Peace Survey PAIRTAPS to volunteers from over 40 countries representing the major regions of the world The volume is organized such that the responses to the survey are summarized and analyzed by both by country and by theme Integrative chapters provide an up to date overview of historical and current events relevant to peace and reconciliation and a grounded theory analysis of definitions of peace and reconciliation and of the role of apology in reconciliation In addition to describing the major themes emerging from the responses in each region the volume reports on some exploratory analyses addressing the extent to which we found differences in patterns of responding based on characteristics such as gender military experience and involvement in anti war protest activity International Handbook on Peace and Reconciliation allows ordinary citizens from around the world to voice their views on peace and related issues and examines the context of these views Thus it offers researchers in political science peace psychology social psychology social justice and anthropology a comprehensive resource for a changing global landscape Handbook of Civil Society and Social Movements in Small States Lino Briguglio, Michael Briguglio, Sheila Bunwaree, Claire Slatter, 2023-02-22 This volume is unique because of its focus on small states There are many studies on civil society and social movements but none that specifically deal with this category of countries As is well known small states have particular characteristics including a limited ability to reap the benefits of economies of scale a high degree of exposure to forces outside their control and the proximity of politicians to the voters often leading to clientelistic relationships and patronage networks The small island developing states have the additional problem of high environmental vulnerability with some also dealing with disproportionate ecological footprints These factors have a bearing on the organization and performance of civil society organizations and social movements as explained in several chapters of this book The volume is organized in three parts dealing with aspects of civil society and social movements in small states in the political social and environmental spheres respectively Various definitions of civil society are proposed in the chapters but most authors associate the term with organized groups operating in the interest of citizens independently of government and commercial business including various forms of non governmental organizations NGOs Civil society also encompasses social movements which are considered to be loosely organized collective campaigns in pursuit of social goals These two terms are sometimes used interchangeably however some authors argue that social movements tend to engage in contentious politics including protests

while NGOs engage through more organized and institutional routes *The Handbook of the International Law of Military Operations* Terry Gill,Dieter Fleck,2010-08-19 This handbook provides a single comprehensive guide to the many areas of international law which are relevant to the planning and conduct of contemporary military operations It also serves as an educational tool and academic reference for those in the classroom to the war zone **The Wiley-Blackwell History of**

The Book of Revelation and Its Interpreters Ian Boxall,Richard Tresley,2015-11-25 The Book of Revelation has fired the imaginations of theologians preachers artists and ordinary Christians across the centuries The resulting number of commentaries on the book is enormous and most studies can only touch upon at most a representative sample of this vast literature As a consequence many focus largely on the interpretation of the Apocalypse only within specific periods such as the patristic period or during the Reformation One result of this severe limitation given the vast literary corpus is how historical interpretations in critical commentaries of the Book of Revelations tend to prioritize authors from the modern period In The Book of Revelation and Its Interpreters Short Studies and an Annotated Bibliography editors Richard Tresley and Ian Boxall fill a significant gap in the scholarly literature At its heart is an extensive annotated bibliography covering commentaries on the book up to 1700 including most of the early illuminated Apocalypses Supporting the presentation of this survey of the historical interpretations of the Book of Revelation is an extended overview of Revelation s often colorful reception history by Christopher Rowland together with a number of short studies on various aspects of the book These include discussions of specific commentators such as Sean Michael Ryan s look at Tyconius and Francis X Gumerlock exploration of Chromatius of Aquileia alongside a more general treatment of Revelation s impact on the figure of John of Patmos in an essay by Ian Boxall and the visual reception of Revelation in Natasha O Hear s article The Book of Revelation and Its Interpreters provides a valuable bibliographical resource for those working in the field of Biblical Studies history of Christianity eschatology and apocalyptic studies The accompanying essays orient the authors recorded in the bibliography within a larger context offering specific examples of the Apocalypse s capacity to speak in fresh and often surprising ways to diverse audiences throughout history

Only Muslim Naomi Davidson,2012-07-11 The French state has long had a troubled relationship with its diverse Muslim populations In Only Muslim Naomi Davidson traces this turbulence to the 1920s and 1930s when North Africans first immigrated to French cities in significant numbers Drawing on police reports architectural blueprints posters propaganda

films and documentation from metropolitan and colonial officials as well as anticolonial nationalists she reveals the ways in which French politicians and social scientists created a distinctly French vision of Islam that would inform public policy and political attitudes toward Muslims for the rest of the century Islam fran ais French Muslims were cast into a permanent otherness that functioned in the same way as racial difference This notion that one was only and forever Muslim was attributed to all immigrants from North Africa though in time Muslim came to function as a synonym for Algerian despite the diversity of the North and West African population Davidson grounds her narrative in the history of the Mosqu e de Paris which was inaugurated in 1926 and epitomized the concept of Islam fran ais Built in official gratitude to the tens of thousands of Muslim subjects of France who fought and were killed in World War I the site also provided the state with a means to regulate Muslim life throughout the metropole beginning during the interwar period Later chapters turn to the consequences of the state s essentialized view of Muslims in the Vichy years and during the Algerian War Davidson concludes with current debates over plans to build a Muslim cultural institute in the middle of a Parisian immigrant neighborhood showing how Islam remains today a marker of an unassimilable difference

Hughes,2015-09-15 Winner of the Franco British Society Literary Prize 2015 Few figures of twentieth century French culture carry such an air of romance and intrigue as Albert Camus Though his life was cut short by a fatal car accident in 1960 when he was just forty six years old he packed those years with an incredible amount of experience and accomplishment This new entry in the Critical Lives series offers a fresh look at Camus life and work from his best selling novels like *The Stranger* to his complicated political engagement in a postwar world of intensifying ideological conflict Edward Hughes offers a particularly nuanced exploration of Camus relationship to his native Algeria a connection whose strength would be tested in the 1950s as France s conflict with the anticolonial movement there became increasingly violent and untenable Ultimately the picture Hughes offers is of a man whose commitment to ideas and truth reigned supreme whether in his fiction journalism or political activity a commitment that has led the man who disclaimed leadership I do not guide anyone he once pleaded to nonetheless be seen as a powerful figure and ethical force
