**The Routledge Research Companion to Shakespeare and Classical Literature** Sean Keilen, Nick Moschovakis, 2017-03-31 In this wide ranging and ambitiously conceived Research Companion contributors explore Shakespeare's relationship to the classic in two broad senses The essays analyze Shakespeare's specific debts to classical works and weigh his classicism's likeness and unlikeness to that of others in his time they also evaluate the effects of that classical influence to assess the extent to which it is connected with whatever qualities still make Shakespeare himself a classic arguably the classic of modern world literature and drama The first sense of the classic which the volume addresses is the classical culture of Latin and Greek reading translation and imitation Education in the canon of pagan classics bound Shakespeare together with other writers in what was the dominant tradition of English and European poetry and drama up through the nineteenth and even well into the twentieth century Second and no less central is the idea of classics as such that of books whose perceived value exceeding that of most in their era justifies their protection against historical and cultural change The volume's organizing insight is that as Shakespeare was made a classic in this second antiquarian sense his work's reception has more and more come to resemble that of classics in the first sense of ancient texts subject to labored critical study by masses of professional interpreters who are needed to mediate their meaning simply because of the texts growing remoteness from ordinary life language and consciousness The volume presents overviews and argumentative essays about the presence of Latin and Greek literature in Shakespeare's writing They coexist in the volume with thought pieces on the uses of the classical as a historical and pedagogical category and with practical essays on the place of ancient classics in today's Shakespearean classrooms      **Public Library Catalog** Juliette Yaakov, 2004 More than 8 000 books in the main volume More than 2 400 new titles in annual paperbound supplements More than 2 000 analytic entries for items in collections and anthologies      *Norton's Literary and Educational Register, for 1854* ,1854      **The Classical Bulletin** ,1928

*Shakespeare Attacks Bigotry* Elaine L. Robinson, 2009-06-08 The author argues that Renaissance humanism created a

system of bigotry and eroded the practice of Christianity and that Shakespeare attempted to expose and condemn that shift. The book examines six of his plays: Titus Andronicus, The Merchant of Venice, Hamlet, Othello, King Lear, and Macbeth, and explores how they satirized humanism's grounding in Aristotle's philosophy of slavery and supremacy. Shakespeare used characters like Hamlet and Aaron the Moor to attack that bigotry, and his stance against racism and humanism revealed his Catholic faith.
