Not The Impossible Faith Why Christianity Didn't Need A Miracle To Succeed:

Not the Impossible Faith Richard Carrier, 2009-01-27 Dr Richard Carrier is an expert in the history of the ancient world and a critic of Christian attempts to distort history in defense of their faith Not the Impossible Faith is a tour de force in that genre dissecting and refuting the oft repeated claim that Christianity could not have succeeded in the ancient world unless it was true Though framed as a detailed rebuttal to Christian apologist J P Holding author of The Impossible Faith Carrier takes a general approach that educates the reader on the history and sociology of the ancient world answering many questions like How did Christians approach evidence Was there a widespread prejudice against the testimony of women Was resurrection such a radical idea Who would worship a crucified criminal And much more Written with occasional humor and an easy style and thoroughly referenced with many entertaining gotcha moments Not the Impossible Faith is a must read for anyone interested in the origins of Christianity

The End of Christianity John W. Loftus, 2011-07-12 In this successor to his critically acclaimed anthology The Christian Delusion Why Faith Fails a former minister and now leading atheist spokesperson has assembled a stellar group of respected scholars to continue the critique of Christianity begun in the first volume Contributors include Victor Stenger Robert Price Hector Avalos Richard Carrier Keith Parsons David Eller and Taner Edis Loftus is also the author of the best selling Why I Became an Atheist A Former Preacher Rejects Christianity Taken together the Loftus trilogy poses formidable challenges to claims for the rationality of the Christian faith Anyone with an interest in the philosophy of religion will find this compilation to be intellectually stimulating and deeply thought provoking

Jesus: Evidence and Argument or Mythicist Myths? Maurice Casey, 2014-01-16 Did Jesus exist In recent years there has been a massive upsurge in public discussion of the view that Jesus did not exist This view first found a voice in the 19th century when Christian views were no longer taken for granted Some way into the 20th century this school of thought was largely thought to have been utterly refuted by the results of respectable critical scholarship from both secular and religious scholars Now many unprofessional scholars and bloggers mythicists are gaining an increasingly large following for a view many think to be unsupportable It is starting to influence the academy more than that it is starting to influence the views of the public about a crucial historical figure Maurice Casey one of the most important Historical Jesus scholars of his generation takes the mythicists to task in this landmark publication Casey argues neither from a religious perspective nor from that of a committed atheist Rather he seeks to provide a clear view of what can be said about Jesus and of what can't

50 Great Myths About Atheism, 2013-08-12 Tackling a host of myths and prejudices commonly leveled at atheism this captivating volume bursts with sparkling eloquent arguments on every page The authors rebut claims that range from atheism being just another religion to the alleged atrocities committed in its name An accessible yet scholarly commentary on hot button issues in the debate over religious belief Teaches critical thinking skills through detailed rational argument Objectively considers each myth on its merits Includes a history of atheism and its advocates an appendix detailing atheist

organizations and an extensive bibliography Explains the differences between atheism and related concepts such as agnosticism and naturalism **The Loftus Delusion: Why Atheism Fails and Messianic Israelism Prevails** David Reuben Stone,2010-02-14 David Reuben Stone has published the definitive critique of the anti Biblical atheism of John W Loftus Also included 1 New mathematical proof of Wagner s Modus Tollens Probabilized theorem 2 Improved inductive logic in Intelligent Design arguments of Behe Dembski and Ross 3 ACPO occasionalist metaphysics 4 New debate resolution procedure STONE 5 STONE based defense of Minimalist Theism 6 Human Ignorance Principle used to refute atheistic arguments from evil 7 Justification of conservative Biblical theology 8 Biblical Gospel presentation 9 Messianic Israelism definition and defense 10 130 Scriptural arguments for Torah observant Biblical ethics 11 An ecclesiology of church Israel identity refuting Dispensationalism and Supersessionism 12 Detailed critique of opposition including John W Loftus Elliott Sober Jordan Howard Sobel Bart D Ehrman Graham R Oppy and Michael L Brown Visit www.loftusdelusion.com for details

The Christian Delusion John W. Loftus,2010-04-27 In this anthology of recent criticisms aimed at the reasonableness of Christian belief former evangelical minister and apologist Loftus has assembled fifteen outstanding articles by leading skeptics expanding on themes introduced in Loftus first book *An Evidentiary Analysis of Doctor Richard Carrier's Objections to the Resurrection of Jesus Christ* S. Ross Hickling,2018-07-19 Resurrection Jesus Christ Richard Carrier Evidence Analysis Contradiction Comparison Dying and rising gods Hallucination *The New Atheist Denial of History* B. Painter,2014-11-19 This compact forcefully argued work calls Sam Harris Richard Dawkins Steven Pinker and the rest of the so called New Atheists to account for failing to take seriously the historical record to which they so freely appeal when attacking religion The popularity of such books as Harris s *The End of Faith* Dawkins s *The God Delusion* and Christopher Hitchens *God Is Not Great* set off a spate of reviews articles and books for and against yet in all the controversy little attention has focused on the historical evidence and arguments they present to buttress their case This book is the first to challenge in depth the distortions of this New Atheist history It presents the evidence that the three authors and their allies ignore It points out the lack of historical credibility in their work when judged by the conventional criteria used by mainstream historians It does not deal with the debate over theism and atheism nor does it aim to defend the historical record of Christianity or religion more generally It does aim to defend the integrity of history as a discipline in the face of its distortion by those who violate it *Atheism and Naturalism* Nicholas Covington,2010-04-12 Have you ever wondered what Atheists believe You know what they DON T believe in but what positive beliefs do they have Are you an atheist who wants to fully explore the philosophical and scientific issues surrounding your worldview In either case this book is for you This book explores the arguments for God why they fail the arguments against God and argues that Nature is all that exists Naturalism This book covers everything from Meaning and Morality to Creationism and Evolution **The Scientist in the Early Roman Empire** Richard Carrier,2017-12-01 In this extensive sequel to *Science Education in the Early Roman Empire* Dr

Richard Carrier explores the social history of scientists in the Roman era Was science in decline or experiencing a revival under the Romans What was an ancient scientist thought to be and do Who were they and who funded their research And how did pagans differ from their Christian peers in their views toward science and scientists Some have claimed Christianity valued them more than their pagan forebears In fact the reverse is the case And this difference in values had a catastrophic effect on the future of humanity The Romans may have been just a century or two away from experiencing a scientific revolution But once in power Christianity kept that progress on hold for a thousand years while forgetting most of what the pagans had achieved and discovered from an empirical anatomy physiology and brain science to an experimental physics of water gravity and air Thoroughly referenced and painstakingly researched this volume is a must for anyone who wants to learn how far we once got and why we took so long to get to where we are today **Resurrection: Faith or Fact?** Carl Stecher, Craig L. Blomberg, 2019-04-09 Is there enough evidence to believe Jesus rose from the dead or must such a judgment be based only on faith Can the resurrection story be considered a fact of history or should it be viewed as an ahistorical account Two renowned professors atheist Carl Stecher and Christian Craig Blomberg engage in a groundbreaking new debate on these very questions Other experts on the resurrection atheist Richard Carrier and Christian Peter S Williams comment on the outcome Presenting new approaches to these centuries old questions and taking into account the latest scholarly research Resurrection Faith or Fact is a must have not only for all those following the resurrection question but also for those skeptics and Christians alike who are interested in determining for themselves the truth behind this foundational doctrine of the Christian faith *The Debaters of This Age* Steven H Propp, 2019-02-05 It is June 2018 as an unusual group of scholars professors lecturers and students gather in a California hotel They are all attendees of an Apologetics conference intended to join qualified representatives of Christian Deist and Atheist thought for a two week no holds barred debate and discussion of their respective positions that will ultimately be included in a book published after the conference Evangelical Christianity is represented by advocates of Evidentialist and Presuppositionalist approaches to Apologetics Catholicism liberal Christianity and Deism are also well supported The Atheist perspective is advocated by a polemical author and a college professor notorious for attacking the views of his Christian students As the participants argue over controversial issues such as cosmology evolution The Bible historical evidence for Jesus the resurrection biblical prophecies and the problem of evil intellectual fireworks result But what will result when such a volatile and eclectic group is placed face to face for more than two weeks The Debaters of this Age is the tale of what happens inside a California hotel in 2018 when a group of intellectuals gather to vigorously discuss the religious issues of our time Proving History Richard C. Carrier, 2012-04-03 This in depth discussion of New Testament scholarship and the challenges of history as a whole proposes Bayes s Theorem which deals with probabilities under conditions of uncertainty as a solution to the problem of establishing reliable historical criteria The author demonstrates that valid historical methods not only in the study of

Christian origins but in any historical study can be described by and reduced to the logic of Bayes's Theorem. Conversely he argues that any method that cannot be reduced to this theorem is invalid and should be abandoned. Writing with thoroughness and clarity the author explains Bayes's Theorem in terms that are easily understandable to professional historians and laypeople alike, employing nothing more than well-known primary school math. He then explores precisely how the theorem can be applied to history and addresses numerous challenges to and criticisms of its use in testing or justifying the conclusions that historians make about the important persons and events of the past. The traditional and established methods of historians are analyzed using the theorem as well as all the major historicity criteria employed in the latest quest to establish the historicity of Jesus. The author demonstrates not only the deficiencies of these approaches but also ways to rehabilitate them using Bayes's Theorem. Anyone with an interest in historical methods, how historical knowledge can be justified, new applications of Bayes's Theorem, or the study of the historical Jesus will find this book to be essential reading.

Is This Not The Carpenter? Thomas L. Thompson, Thomas S. Verenna, 2017-09-19. The historicity of Jesus is now widely accepted and hardly questioned by most scholars. But this assumption disarms biblical texts of much of their power by privileging an historical interpretation which effectively sweeps aside much theological speculation and allusion. Furthermore, the assumption of historicity gathers further assumptions to it, shaping the interpretation of texts both denying and adding subtext. Scholars are now faced with an endless array of works on the historical Jesus and few question what has been lost through this wide-spread assumption of historicity. *Is This Not the Carpenter?* presents a very valuable corrective, a literary rereading of the New Testament.

God and the Folly of Faith Victor J. Stenger, 2012-04-03. A thorough and hard-hitting critique that is a must-read for anyone interested in the interaction between religion and science. It has become the prevalent view among sociologists, historians, and some theistic scientists that religion and science have never been in serious conflict. Some even claim that Christianity was responsible for the development of science. In a sweeping historical survey that begins with ancient Greek science and proceeds through the Renaissance and Enlightenment to contemporary advances in physics and cosmology, Stenger makes a convincing case that not only is this conclusion false but Christianity actually held back the progress of science for one thousand years. It is significant, he notes, that the scientific revolution of the seventeenth century occurred only after the revolts against established ecclesiastic authorities in the Renaissance and Reformation opened up new avenues of thought. The author goes on to detail how religion and science are fundamentally incompatible in several areas: the origin of the universe and its physical parameters, the origin of complexity, holism versus reductionism, the nature of mind and consciousness, and the source of morality. In the end, Stenger is most troubled by the negative influence that organized religion often exerts on politics and society. He points out antiscientific attitudes embedded in popular religion that are being used to suppress scientific results on issues of global importance such as overpopulation and environmental degradation. When religion fosters disrespect for science, it threatens the generations of humanity that will follow ours. **A**

Thematic Access-Oriented Bibliography of Jesus's Resurrection Michael J. Alter, 2019-12-31 The keystone of Christianity is Jesus's physical bodily resurrection. Present-day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus. The literature measures well over seven thousand sources in English language books alone. This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task. Even when a specific book is relevant, finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort. A Thematic Access-Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways. First, the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty-four subcategories which are designed to help you find the most relevant literature quickly and efficiently. Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views: theistic (e.g., Christian, Jewish, Muslim, etc.), agnostic, and nontheistic. The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives, allowing you to browse or find the one source accurately and with ease.

Resurrection Remembered David Graeig, 2024-03-26 This book is the first major study to investigate Jesus' resurrection using a memory approach. It develops the logic for and the methodology of a memory approach, including that there were about two decades between the events surrounding Jesus' resurrection and the recording of those events in First Corinthians. The memory of those events was frequently rehearsed, perhaps weekly. The transmission of the oral tradition occurred in various ways, including the overlooked fourth model: formal, uncontrolled. Consideration is given to an examination of the philosophy and psychology of memory, including past and new research on: 1) the constructive nature of memory, 2) social memory, 3) transience, 4) memory distortion, 5) false memories, 6) the social contagion of memory, and 7) flashbulb memory. In addition, this is the first New Testament study to consider the insights for a memory approach from the philosophical considerations of: 1) forgetting and 2) the theories of remembering, and from the psychological studies on: 1) memory conformity, 2) memory and age, and 3) the effects of health on memory. It is argued that Paul remembers Jesus as having been resurrected with a transformed physical body. Furthermore, the centrality of Jesus' resurrection in Paul's theology suggests it was a deeply embedded memory of primary importance to the social identity of the early Christian communities. New Testament scholars and students will want to take note of how this work advances the discussion in historical Jesus studies. The broader Christian audience will also find the apologetic implications of interest.

Studies in Late Antiquity David Neal Greenwood, 2024-03-29 Late Antiquity was an era of remarkable change as beliefs were shaped and reshaped by the competing philosophies of traditional Greco-Roman religion, Middle and Neoplatonist philosophy, and the theology of the early Church. Current narratives of both peaceful competition and violent struggle between Christianity and paganism are reductive. The research presented in this Variorum volume, originally published between 2013 and 2018 in the fields of history, divinity, and

philosophy demonstrates the complexity of the age and provides a more complete picture of major actors including the emperor Julian Porphyry of Tyre and Celsus From the second to the fourth centuries these were some of the major players in attempting to define the terrain in the conflict between their philosophies and the Christian religion While the timeframe remains consistently within the late second to the mid fourth centuries A D the sources range between inscriptions literature and historical accounts The particular focus is the emperor Julian Flavius Claudius Julianus d 363 a figure of perennial interest as not only the last pagan emperor but the last anti Christian polemicist of real significance in antiquity This volume offers a new perspective on Julian bringing together research from ancient history Neoplatonist philosophy and patristic theology and will be useful to students and scholars alike

Seeing Through Christianity Bill Zuersher, 2014-06-24 The only book youll ever need to read about Christianity This remarkable book provides a critical overview of Christian beliefs and the evidence for them Where did these beliefs come from Are there good reasons to believe Christianity is true Bill Zuersher clearly explains each of Christianitys major beliefs He then proceeds to demonstrate significant difficulties with each of them The book tackles these beliefs in a logical order beginning with the problems at the root of virtually all religions suffering and death and culminating in their supposed resolution through Jesus Mr Zuersher also examines the evidence for Christianity namely religious writings and the historical fact of the early Jesus movement He makes the case that this evidence does not support the religions claims and he provides naturalistic alternative explanations for how its core beliefs arose In these pages we see the coalescence of Jewish and Zoroastrian religious ideas with those of Greek philosophy and mystery cults to form the belief system we recognize as Christianity today The result Mr Zuersher argues is not revealed truth but rather a human patchwork which contains unwarranted assumptions and logical flaws all founded upon questionable evidence Entertaining throughout it is must reading for skeptics apologists and anyone interested the worlds largest religion or the culture wars behind todays politics an invaluable resource for students and teachers writers and debaters

Jesus' Resurrection and Apparitions Jake O'Connell, 2016-11-03 Did Jesus rise physically from the dead or did he rise as a real non bodily apparition like those reported in the parapsychological literature In this book which is the first book length examination of the question in over fifty years Jake O Connell argues in favor of the physical resurrection hypothesis In order to do so he employs Bayes Theorem a mathematical theorem which encapsulates the way humans think when they analyze the probability of a hypothesis In addition he provides a thorough overview of the evidence for the reality of apparitions of the dead
