Noncognitivism In Ethics New Problems Of Philosophy:

Noncognitivism in Ethics Mark Schroeder, 2010-04-05 According to noncognitivists when we say that stealing is wrong what we are doing is more like venting our feelings about stealing or encouraging one another not to steal than like stating facts about morality These ideas challenge the core not only of much thinking about morality and metaethics but also of much philosophical thought about language and meaning *Noncognitivism in Ethics* is an outstanding introduction to these theories ranging from their early history through the latest contemporary developments Beginning with a general introduction to metaethics Mark Schroeder introduces and assesses three principal kinds of noncognitivist theory the speech act theories of Ayer Stevenson and Hare the expressivist theories of Blackburn and Gibbard and hybrid theories He pays particular attention both to the philosophical problems about what moral facts could be about or how they could matter which noncognitivism seeks to solve and to the deep problems that it faces including the task of explaining both the nature of moral thought and the complexity of moral attitudes and the Frege Geach problem Schroeder makes even the most difficult material accessible by offering crucial background along the way Also included are exercises at the end of each chapter chapter summaries and a glossary of technical terms making *Noncognitivism in Ethics* essential reading for all students of ethics and metaethics

Noncognitivism in Ethics Mark Schroeder, 2023 This 2nd edition has been revised and updated throughout Schroeder makes even the most difficult material accessible by offering crucial background along the way Also included are exercises at the end of each chapter chapter summaries and a glossary of technical terms Essential reading for all students of ethics and metaethics

Noncognitivism in Ethics Mark Schroeder, 2023-07-18 According to noncognitivists when we say that stealing is wrong what we are doing is more like venting our feelings about stealing or encouraging one another not to steal than like stating facts about morality These ideas challenge the core not only of much thinking about morality and metaethics but also of much philosophical thought about language and meaning *Noncognitivism in Ethics* is an outstanding introduction to these theories ranging from their early history through the latest contemporary developments Beginning with a general introduction to metaethics Mark Schroeder introduces and assesses three principal kinds of noncognitivist theory the speech act theories of Ayer Stevenson and Hare the expressivist theories of Blackburn and Gibbard and hybrid theories He pays particular attention both to the philosophical problems about what moral facts could be about or how they could matter which noncognitivism seeks to solve and to the deep problems that it faces including the task of explaining both the nature of moral thought and the complexity of moral attitudes and the Frege Geach problem This second edition has been revised and updated throughout It includes new sections on whether expressivism is a metasemantic thesis the rise of relational expressivism the idea that expressivism leads us to a novel understanding of the nature of propositions and expressivism and epistemic modals deontic modals probability and truth Schroeder makes even the most difficult material accessible by offering crucial background along the way Also included are exercises at the end of each

chapter chapter summaries and a glossary of technical terms making *Noncognitivism in Ethics* essential reading for all students of ethics and metaethics

Fiction and Fictionalism R. M. Sainsbury, 2009-09-11 Are fictional characters such as Sherlock Holmes real What can fiction tell us about the nature of truth and reality In this excellent introduction to the problem of fictionalism R M Sainsbury covers the following key topics what is fiction realism about fictional objects including the arguments that fictional objects are real but non-existent real but non-factual real but non-concrete the relationship between fictional characters and non-actual worlds fictional entities as abstract artefacts fiction and intentionality and the problem of irrealism fictionalism about possible worlds moral fictionalism R M Sainsbury makes extensive use of examples from fiction such as Sherlock Holmes Anna Karenina and Madame Bovary and examines the work of philosophers who have made significant contributions to the topic including Meinong David Lewis and Bas Van Fraassen Additional features include chapter summaries annotated further reading and a glossary of technical terms making *Fiction and Fictionalism* ideal for those coming to the issue for the first time

The Routledge Handbook of Philosophy of Relativism Martin Kusch, 2019-12-06 Relativism can be found in all philosophical traditions and subfields of philosophy It is also a central idea in the social sciences the humanities religion and politics This is the first volume to map relativistic motifs in all areas of philosophy synchronically and diachronically It thereby provides essential intellectual tools for thinking about contemporary issues like cultural diversity the plurality of the sciences or the scope of moral values The *Routledge Handbook of Philosophy of Relativism* is an outstanding major reference source on this fundamental topic The 57 chapters by a team of international contributors are divided into nine parts Relativism in non-Western philosophical traditions Relativism in Western philosophical traditions Relativism in ethics Relativism in political and legal philosophy Relativism in epistemology Relativism in metaphysics Relativism in philosophy of science Relativism in philosophy of language and mind Relativism in other areas of philosophy Essential reading for students and researchers in all branches of philosophy this handbook will also be of interest to those in related subjects such as politics religion sociology cultural studies and literature

The Oxford Handbook of Truth Michael Glanzberg, 2018-06-26 Truth is one of the central concepts in philosophy and has been a perennial subject of study Michael Glanzberg has brought together 36 leading experts from around the world to produce the definitive guide to philosophical issues to do with truth They consider how the concept of truth has been understood from antiquity to the present day surveying major debates about truth during the emergence of analytic philosophy They offer critical assessments of the standard theories of truth including the coherence correspondence identity and pragmatist theories They explore the role of truth in metaphysics with lively discussion of truthmakers proposition determinacy objectivity deflationism fictionalism relativism and pluralism Finally the handbook explores broader applications of truth in philosophy including ethics science and mathematics and reviews formal work on truth and its application to semantic paradox This Oxford Handbook will be an invaluable resource across all areas of philosophy

Cognitive Phenomenology Elijah

Chudnoff,2015-04-10 Phenomenology is about subjective aspects of the mind such as the conscious states associated with vision and touch and the conscious states associated with emotions and moods such as feelings of elation or sadness These states have a distinctive first person feel to them called their phenomenal character In this respect they are often taken to be radically different from mental states and processes associated with thought This is the first book to fully question this orthodoxy and explore the prospects of cognitive phenomenology applying phenomenology to the study of thought and cognition Does cognition have its own phenomenal character Can introspection tell us either way If consciousness flows in an unbroken stream as William James argued how might a punctuated sequence of thoughts fit into it Elijah Chudnoff begins with a clarification of the nature of the debate about cognitive phenomenology and the network of concepts and theses that are involved in it He then examines the following topics introspection and knowledge of our own thoughts phenomenal contrast arguments the value of consciousness the temporal structure of experience the holistic character of experience and the interdependence of sensory and cognitive states the relationship between phenomenal character and mental representation Including chapter summaries annotated further reading and a glossary this book is essential reading for anyone seeking a clear and informative introduction to and assessment of cognitive phenomenology whether philosophy student or advanced researcher It will also be valuable reading for those in related subjects such as philosophy of mind philosophy of psychology and epistemology

Explanation and Understanding Arnon Levy,2025-06-30 Science has multiple goals to describe the world as it is now to predict the future and to make inferences about the past Science also aims to understand the world to explain why it is the way it is But what does it take to explain a phenomenon How does science generate understanding and what does that take In this thorough and clearly written introduction to scientific explanation Arnon Levy explores the following problems and questions the background to the topic of scientific explanation particularly the questions of what an explanation is what makes a good explanation and why seek them in the first place empiricism about explanation Hempel s deductive nomological model and its problems unificationism about explanation must good scientific explanations fit into an overall explanatory store causation and explanation Lewis s description based model Woodward s interventionist view and Strevens s criterion of selection theory connections between explanation and understanding models idealization and explanation non causal explanation and explanation in non scientific contexts the nature of understanding Additional features such as chapter summaries suggestions for further reading and a glossary make this an excellent resource for students of philosophy of science metaphysics and epistemology

Moral Epistemology Aaron Zimmerman,2010-06-10 How do we know right from wrong Do we even have moral knowledge Moral epistemology studies these and related questions about our understanding of virtue and vice It is one of philosophy s perennial problems reaching back to Plato Aristotle Aquinas Locke Hume and Kant and has recently been the subject of intense debate as a result of findings in developmental and social psychology In this outstanding introduction to the subject Aaron Zimmerman

covers the following key topics What is moral epistemology What are its methods Including a discussion of Socrates Gettier and contemporary theories of knowledge skepticism about moral knowledge based on the anthropological record of deep and persistent moral disagreement including contextualism moral nihilism including debates concerning God and morality and the relation between moral knowledge and our motives and reasons to act morally epistemic moral scepticism intuitionism and the possibility of inferring ought from is discussing the views of Locke Hume Kant Ross Audi Thomson Harman Sturgeon and many others how children acquire moral concepts and become more reliable judges criticisms of those who would reduce moral knowledge to value neutral knowledge or attempt to replace moral belief with emotion Throughout the book Zimmerman argues that our belief in moral knowledge can survive sceptical challenges He also draws on a rich range of examples from Plato's Meno and Dickens David Copperfield to Bernard Madoff and Saddam Hussein Including chapter summaries and annotated further reading at the end of each chapter Moral Epistemology is essential reading for all students of ethics epistemology and moral psychology The Meaning of 'ought' Matthew Chrisman, 2016 This book motivates a novel inferentialist account of the meaning of a core set of normative sentences Building on a careful truth conditionalist semantics for ought considered as a modal word Chrisman argues that ought sentences mean what they do neither because of how they describe reality nor because of the noncognitive attitudes they express but because of their inferential role

The Philosophical Review Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 2011 An international journal of general philosophy Disjunctivism Matthew Soteriou, 2016-03-31 It is commonly held that the experiences involved in cases of perception illusion and hallucination all have the same nature Disjunctivists deny this They maintain that the kind of experience you have when you perceive the world isn't one you could be having if you were hallucinating A number of important debates in the philosophy of mind and epistemology turn on the question of whether this disjunctivist view is tenable This is the first book length introduction to this contested issue Matthew Soteriou explains the accounts of perception that disjunctivists seek to defend such as naïve realism and the accounts to which they are opposed such as sense datum theories and representationalist theories He goes on to introduce and assess key questions that arise in these debates Is disjunctivism consistent with what has been established by the science of perception Does introspective reflection support naïve realism Can disjunctivism be motivated by appeal to the role that perception plays in enabling us to think demonstratively about mind independent objects and qualities in our environment Does disjunctivism offer the best account of perceptual knowledge What can disjunctivists say about the nature of hallucination and illusion Including chapter summaries annotated further reading and a glossary this book is an ideal starting point for anyone studying disjunctivism for the first time as well as for more advanced students and researchers Hyperintensionality and Normativity Federico L. G. Faroldi, 2019-03-28 Presenting the first comprehensive in depth study of hyperintensionality this book equips readers with the basic tools needed to appreciate some of current and future debates in the philosophy of language semantics and

metaphysics After introducing and explaining the major approaches to hyperintensionality found in the literature the book tackles its systematic connections to normativity and offers some contributions to the current debates The book offers undergraduate and graduate students an essential introduction to the topic while also helping professionals in related fields get up to speed on open research level problems

Analyticity Cory Juhl, Eric Loomis, 2009-09-11 Analyticity or the analytic synthetic distinction is one of the most important and controversial problems in contemporary philosophy In this outstanding introduction to analyticity Cory Juhl and Eric Loomis provide a clear and thorough survey of the problem

Semantic Externalism Jesper Kallestrup, 2013-03-01 Semantic externalism is the view that the meanings of referring terms and the contents of beliefs that are expressed by those terms are not fully determined by factors internal to the speaker but are instead bound up with the environment The debate about semantic externalism is one of the most important but difficult topics in philosophy of mind and language and has consequences for our understanding of the role of social institutions and the physical environment in constituting language and the mind In this long needed book Jesper Kallestrup provides an invaluable map of the problem Beginning with a thorough introduction to the theories of descriptivism and referentialism and the work of Frege and Kripke Kallestrup moves on to analyse Putnam's Twin Earth argument Burge's arthritis argument and Davidson's Swampman argument He also discusses how semantic externalism is at the heart of important topics such as indexical thoughts epistemological skepticism self knowledge and mental causation Including chapter summaries a glossary of terms and an annotated guide to further reading *Semantic Externalism* an ideal guide for students studying philosophy of language and philosophy of mind

Egalitarianism Iwao Hirose, 2014-07-17 Some people are worse off than others Does this fact give rise to moral concern Egalitarianism claims that it does for a wide array of reasons It is one of the most important and hotly debated problems in moral and political philosophy occupying a central place in the work of John Rawls Thomas Nagel G A Cohen and Derek Parfit It also plays an important role in practical contexts such as the allocation of health care resources the design of education and tax systems and the pursuit of global justice Egalitarianism is a superb introduction to the problem of contemporary egalitarian theories It explains how rival theories of egalitarianism evaluate distributions of people's well being and carefully assesses the theoretical structure of each theory It also examines how egalitarian theories are applied to the distribution of health and health care thus bringing a deceptively complex philosophical debate into clear focus Beginning with a brief introduction to basic terminology Iwao Hirose examines the following topics Rawlsian egalitarianism luck egalitarianism telic egalitarianism prioritarianism sufficientarianism equality and time equality in health and health care Including chapter summaries annotated further reading and a glossary this is an ideal starting point for anyone studying distributive justice for the first time and will also be of interest to more advanced students and researchers in philosophy economics political theory public policy and public health

The Bloomsbury Handbook of Ethics Christian B. Miller, 2023-10-19 Updated and expanded to represent the fundamental questions at the heart of philosophical ethics today

the second edition of The Bloomsbury Handbook of Ethics covers the key topics in metaethics and normative ethical theory This edition includes 12 fully revised chapters and 3 newly commissioned contributions from a range of esteemed academics who provide accessible introductions to their own areas of expertise The first part of the book covers the field of metaethics including subjects such as moral realism expressivism constructivism practical reason moral psychology experimental ethics and evolutionary ethics as well as two new chapters that respond to ethical debates concerning moral relativism and moral responsibility that enable students and scholars to better navigate this complicated ethical terrain Moving onto normative ethical theory the second part of the book ranges across morality and religion consequentialism and particularism as well as Kantian virtue feminist and Confucian ethics This comprehensive edition provides a one stop resource for students of ethics which includes updated detailed overviews of the field and methodological issues as well as an appendix of additional resources including technical terms in ethics

Moral Disagreement Richard Rowland, 2020-11-25 Widespread moral disagreement raises ethical epistemological political and metaethical questions Is the best explanation of our widespread moral disagreements that there are no objective moral facts and that moral relativism is correct Or should we think that just as there is widespread disagreement about whether we have free will but there is still an objective fact about whether we have it similarly moral disagreement has no bearing on whether morality is objective More practically is it arrogant to stick to our guns in the face of moral disagreement Must we suspend belief about the morality of controversial actions such as eating meat and having an abortion And does moral disagreement affect the laws that we should have For instance does disagreement about the justice of heavily redistributive taxation affect whether such taxation is legitimate In this thorough and clearly written introduction to moral disagreement and its philosophical and practical implications Rach Cosker Rowland examines and assesses the following topics and questions How does moral disagreement affect what we should do and believe in our day to day lives Epistemic peerhood and moral disagreements with our epistemic peers Metaethics and moral disagreement Relativism moral objectivity moral realism and non cognitivism Moral disagreement and normative ethics Liberalism democracy and disagreement Moral compromise Moral uncertainty Combining clear philosophical analysis with summaries of the latest research and suggestions for further reading *Moral Disagreement* is ideal for students of ethics metaethics political philosophy and philosophical topics that are closely related such as relativism and scepticism It will also be of interest to those in related disciplines such as ethics and public policy and philosophy of law

Attention Wayne Wu, 2014-04-24 Attention is a fundamental feature of the mind yet has languished in the backwaters of philosophy Recent years however have witnessed a resurgence of philosophical interest in attention driven by recognition that it is closely connected to consciousness perception agency thought justification and introspection As is becoming clear attention has a rich philosophical significance This is the first book to provide a systematic overview and assessment of different empirical and philosophical aspects of attention Wayne Wu discusses the following central topics and problems major experiments and

theories of attention in psychology since the 1950s the neuroscience of attention including basic mechanisms and models attention's intimate relation to agency the phenomenology of attention attention as a gatekeeper for consciousness attention as the basis for perception based thought about objects the role of attention in the justification of belief attention in introspection of consciousness A key feature of the book is its skilful analysis of the empirical work on attention and how this relates to philosophy Additional features include chapter summaries annotated further reading and a glossary making this an ideal starting point for anyone studying attention for the first time as well as being suitable for more advanced students and researchers in psychology cognitive science and philosophy

Emotion Charlie Kurth, 2022-03-07 Emotions have long been of interest to philosophers and have deep historical roots going back to the Ancients They have also become one of the most exciting areas of current research in philosophy the cognitive sciences and beyond In this book Charlie Kurth explains the philosophy of the emotions structuring the book around seven fundamental questions What are emotions Are emotions natural kinds Do animals have emotions Are emotions epistemically valuable Are emotions the foundation for value and morality Are emotions the basis for responsibility Do emotions make us better people In the course of exploring these questions he also discusses cutting edge empirical research on emotion feminist approaches to emotions and their value and methodological questions on how to theorize about the emotions The book also contains in depth discussions of specific emotions like compassion disgust anxiety and curiosity It also highlights emerging trends in emotion research Including suggestions for further reading and a glossary of key terms Emotion is ideal for those studying and researching the philosophy of emotion as well as ethics epistemology and the philosophies of mind and psychology

Noncognitivism In Ethics New Problems Of Philosophy Introduction

In the digital age, access to information has become easier than ever before. The ability to download Noncognitivism In Ethics New Problems Of Philosophy has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Noncognitivism In Ethics New Problems Of Philosophy has opened up a world of possibilities.

Downloading Noncognitivism In Ethics New Problems Of Philosophy provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Noncognitivism In Ethics New Problems Of Philosophy has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Noncognitivism In Ethics New Problems Of Philosophy. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Noncognitivism In Ethics New Problems Of Philosophy. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Noncognitivism In Ethics New Problems Of Philosophy, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from.

In conclusion, the ability to download Noncognitivism In Ethics New Problems Of Philosophy has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Noncognitivism In Ethics New Problems Of Philosophy Books
