Not My Mothers Sister Generational Conflict And Third Wave Feminism:

Not My Mother's Sister Astrid Henry, 2004-09-07 Rebellious generations and the emergence of new feminisms **Not My Mother's Sister** Astrid Henry, 2004-09-07 No matter how wise a mother's advice is we listen to our peers At least that's writer Naomi Wolf's take on the differences between her generation of feminists the third wave and the feminists who came before her and developed in the late 60s and 70s the second wave In *Not My Mother's Sister* Astrid Henry agrees with Wolf that this has been the case with American feminism but says there are problems inherent in drawing generational lines Henry begins by examining texts written by women in the second wave and illustrates how that generation identified with yet also disassociated itself from its feminist foremothers Younger feminists now claim the movement as their own by distancing themselves from the past By focusing on feminism's debates about sexuality they are able to reject the so-called victim feminism of Catherine MacKinnon and Andrea Dworkin Rejecting the orthodoxies of the second wave younger feminists celebrate a woman's right to pleasure Henry asserts however that by ignoring diverse older voices the new generation has oversimplified generational conflict and has underestimated the contributions of earlier feminists to women's rights They have focused on issues relating to personal identity at the expense of collective political action Just as writers like Wolf Katie Roiphe and Rene Denfeld celebrate a new feminist hetero sexuality posited in generational terms queer and lesbian feminists of the third wave similarly distance themselves from those who came before Henry shows how 1970s lesbian feminism is represented in ways that are remarkably similar to the puritanical portrait of feminism offered by straight third wavers She concludes by examining the central role played by feminists of color in the development of third wave feminism Indeed the term third wave itself was coined by Rebecca Walker daughter of Alice Walker *Not My Mother's Sister* is an important contribution to the exchange of ideas among feminists of all ages and persuasions **Unruly Girls, Unrepentant Mothers** Kathleen Rowe Karlyn, 2011-01-15 Since the 1990s when *Reviving Ophelia* became a best seller and *Girl Power* a familiar anthem girls have assumed new visibility in the culture Yet in asserting their new power young women have redefined femininity in ways that have often mystified their mothers They have also largely disavowed feminism even though their new influence is a likely legacy of feminism's Second Wave At the same time popular culture has persisted in idealizing demonizing or simply erasing mothers rarely depicting them in strong and loving relationships with their daughters *Unruly Girls Unrepentant Mothers* a companion to Kathleen Rowe Karlyn's groundbreaking work *The Unruly Woman* studies the ways popular culture and current debates within and about feminism inform each other Surveying a range of films and television shows that have defined girls in the postfeminist era from *Titanic* and *My So Called Life* to *Scream* and *The Devil Wears Prada* and from *Love and Basketball* to *Ugly Betty* Karlyn explores the ways class race and generational conflicts have shaped both Girl Culture and feminism's Third Wave Tying feminism's internal conflicts to negative attitudes toward mothers in the social world she asks whether today's seemingly materialistic and apolitical girls inspired by such real and fictional

figures as the Spice Girls and Buffy the Vampire Slayer have turned their backs on the feminism of their mothers or are redefining unruliness for a new age *Feminism in the Worlds of Neil Gaiman* Tara Prescott, Aaron Drucker, 2012-10-06 This collection of new essays looks carefully at the broad spectrum of Neil Gaiman's work and how he interacts with feminism Sixteen diverse essays from Gaiman scholars examine highlights from Gaiman's graphic novels short stories novels poems and screenplays and confront the difficult issues he raises including femininity the male gaze issues of age discrimination rape and feminine agency Altogether the essays probe the difficult and complex representation of women and issues of femininity in the worlds of Neil Gaiman **The Women's Movement in Protest, Institutions and the Internet** Sarah Maddison, Marian Sawyer, 2013-08-15 The death of feminism is regularly proclaimed in the West Yet at the same time feminism has never had such an extensive presence whether in international norms and institutions or online in blogs and social networking campaigns This book argues that the women's movement is not over but rather social movement theory has led us to look in the wrong places This book offers both methodological and theoretical innovations in the study of social movements and analyses how the trajectories of protest activity and institution building fit together The rich empirical study together with focused research on discursive activism blogging popular culture and advocacy networks provides an extraordinary resource showing how the women's movements can survive the highs and lows and adapt in unexpected ways Expert contributors explore the ways in which the movement is continuing to work its way through institutions and persists within submerged networks cultural production and in everyday living sustaining itself in non receptive political environments and maintaining a discursive feminist space for generations to come Set in a transnational perspective this book trace the legacies of the Australian women's movement to the present day in protest non government organisations government organisations popular culture the Internet and the Slut Walk The Women's Movement in Protest Institutions and the Internet will be of interest to international students and scholars of gender politics gender studies social movement studies and comparative politics Rethinking Women's and Gender Studies Volume 2 Catherine M. Orr, Ann Braithwaite, 2023-11-23 The second volume of Rethinking Women's and Gender Studies addresses the complexities and inherent paradoxes within the expansive knowledge project known as Women's and Gender Studies for audiences both inside and adjacent to the field Each of the volume's chapters identifies and critically examines a key term that circulates in this field exploring how the term has come to be understood and mobilized within its everyday narratives and practices In constructing provocative genealogies for their terms authors explicate the roles that this language and the narratives attached to it play in producing and limiting possible versions of the field The ongoing aim of Rethinking Women's and Gender Studies both in the original volume and this entirely new extension is to trace and expose important paradoxes ironies and contradictions embedded in the field from its high theory to its casual conversations that rely on these terms Forging collective conversation and intellectual community from its thoughtful and critical lines of inquiry the second volume

of Rethinking Women's and Gender Studies remains bracingly original and full of fresh insight. It provides a perfect complement for Feminist Theory Senior Capstone and introductory graduate level courses offered in Women's and Gender Studies and related fields. *On the Feminist Philosophy of Gillian Howie* Daniel Whistler, Victoria Browne, 2016-10-20 Over three decades Gillian Howie wrote at the forefront of philosophy and critical theory before her untimely death in 2013. This interdisciplinary collection uses her writings to explore the productive yet often resistant interrelationship between feminism and critical theory examining the potential of Howie's particular form of materialism. The contributors also bring to this debate a serious engagement with Howie's late turn towards philosophies of mortality, therapy and living with dying. The volume considers how differently embodied subjects are positioned within public institutions, discourses and spaces and the role of philosophy, art, film, photography and literature in facing situations such as sexual oppression and life-limiting illness.

Bad Mothers: Regulations, Representations and Resistance Hughes Michelle Miller, 2017-03-01 While the image or construct of the good mother has been the focus of many research projects, the bad mother as a discursive construct and also mothers who do bad things as complicated agentic social actors have been quite neglected despite the prevalence of the image of the bad mother across late modern societies. The few researchers who address this powerful social image point out that bad mothers are culturally identified by what they do yet they are also socially recognized by who they are. Mothers become potentially bad when they behave or express opinions that diverge from or challenge social or gender norms or when they deviate from mainstream white middle class heterosexual nondisabled normativity. When suspected of being bad mothers, women are surveilled and may be disciplined, punished or otherwise excluded by various official agents, i.e. legal, medical and welfare institutions as well as by their relatives, friends and communities. Too often women are judged and punished without clear evidence that they are neglecting or abusing their children. Frequently they are blamed for the marginal sociocultural context in which they are mothering. This anthology presents empirical, theoretical and creative works that address the construct of the bad mother and the lived realities of mothers labeled as bad. Throughout the volume the editors consider voices and acts of resistance to bad mother constructions demonstrating that mothers across time and across domains have individually and collectively taken a stand against this destructive label.
