Nurse Portfolio Guide:

Making Sense Of Nursing Portfolios: A Guide For Students Timmins, Fiona, 2008-05-01 All students undertaking pre registration nursing qualifications are required to complete a portfolio as part of their formal assessment This book is pitched at introductory level and provides a guide to the context of portfolio development and its importance not just to assessment but to the patient experience Writing Your Nursing Portfolio: a Step-By-step Guide Fiona Timmins, Anita Duffy, 2011-04-16

I am delighted to endorse this practical and accessible guide to writing and developing a portfolio for nurses Unlike many how to do approaches to portfolio compilation this book acknowledges the complexity involved in learning from practice and recording that learning in a meaningful way The book respectfully guides the reader through essential elements to be considered if a portfolio is to be more than a depository of paper yet avoids prescription in acknowledging the individual nature of the portfolio and its necessity to reflect the nurse's own journey through their career Professor Melanie Jasper Head of College of Human and Health Sciences Swansea University UK The compilation of a nursing portfolio is a task which is often neglected in the busy student nurse's life between long shifts and assignments Timmins Duffy encourage one to take on the challenge and guide one through the process systematically Examples of structured reflections and of portfolio layouts make the realisation of one's own well presented portfolio easier than one might think Any student or qualified nurse will thus benefit from Timmins Duffy's encouraging book Karin Schirmaier Student University of the West of England UK This book is intended for nurses at all stages of their careers and offers a much needed step by step guide to planning writing and maintaining a portfolio I was particularly pleased to see a strong emphasis on reflection and education as a means of encouraging nurses to think critically and learn from their own practice All in all this is a very well constructed book which I highly recommend Professor Gary Rolfe Swansea University UK This handy guide co published with the Nursing Standard is perfect for nurses who need to put together a portfolio and don't know where to start Written as a step by step guide it answers all the common questions about how to compile and write a good nursing portfolio Each chapter includes different tasks so you can create your portfolio as you work through the book The book assumes no prior knowledge of portfolio building and includes Examples of good and challenging portfolio pieces Tools and techniques for reflection and critical thinking Guidance on the NMC competency frameworks Writing your Nursing Portfolio is indispensable reading for all nursing students looking for a clear and accessible guide to creating and developing a portfolio The book describes how the nursing portfolio fits into clinical practice and how it can make a positive difference to the nurse patient and others
