Confidential Informants Jon Shane,2015-09-19 While confidential informants CI s can play a crucial role in police investigations they also have the potential to cause great harm if they are dishonest The process by which police agencies qualify a CI to work and the strength of agency policy may be the source of the problem This Brief examines the integrity problem involving CIs in police operations within the United States provides an overview of pitfalls and problems related to veracity and informant integrity including the difficulties in detecting when a CI is lying and compares the provisions of actual published police policy to the model CI policy published by the International Association of Chiefs of Police IACP The analysis shows a wide divergence between actual police policy and the national standard promulgated by the IACP The Brief provides policy recommendations for improving use of CIs that can potentially reduce or eliminate integrity problems that can lead to organizational accidents such as wrongful arrests and convictions injuries or deaths Some Courts have issued measures to ensure that information received from CIs is reliable by examining sworn testimony and documents related to their work However as this Brief explores this judicial effort arises only after a police operation has taken place and the use of force even deadly force has already been employed The author proposes integrity testing beforehand which would allow police to have a greater understanding of a CI s motivation ability and veracity when conducting law enforcement operations In addition there are aspects of police policy that can enhance CI management such as training supervision and entrapment that can further guard against integrity problems Although integrity testing is not flawless it does interpose an additional step in the CI management process that can help guard against wrongful conviction and perjury that harms the judicial process

Municipal Liability Law and Practice Fourth Edition Student Conduct Practice Diane M. Waryold, James M. Lancaster, 2023-07-03

Since the publication of the first edition of Student Conduct Practice in 2008 the landscape of student conduct has matured and shifted dramatically. As the composition of the overall population and of the student body on campuses across the nation has changed, institutions of higher learning have a greater awareness of the importance of preparing students to function competently in a diverse society. They are seeing student behaviors such as challenging mores, rules, and policies that reflect the growing polarization and complexity we see in our larger society, and such trends as a marked increase in student mental health challenges as well as changing social dynamics, all of which require a new awareness and a rethinking of policies and responses by conduct professionals, including embracing the social justice as a lens by which we perform our work. This updated and considerably expanded edition maintains the objectives of the first to constitute a compendium of current best practices in the administration of student conduct, to summarize the latest thinking on key issues facing practitioners today, and to provide an overview of the role and status of conduct administrators within their institutions. This text invites student conduct administrators to examine current programs and policies to ensure that the spaces that they create during interactions with students are spaces in which all students feel welcome and heard. As we strive to prepare students not only to be productive members of today's workforce and more importantly to be good people and upright citizens, this text accentuates the delicate balance between responding to regulatory mandates and meeting the educational aims of student conduct. The aim is to offer those with an interest in student conduct and those professionals who are new or seasoned student conduct administrators with both a compendium of chapters on best practices and the background to grapple with the thought-provoking situations they will encounter. In close collaboration with the leadership of the Association for Student Conduct Administration (ASCA), the editors identified the most pressing conduct issues on our campuses, and practitioners and faculty who offer related expertise and a necessary diversity of voices. Internal Security and Statebuilding B. K. Greener, W. J. Fish, 2014-11-27 This book examines international efforts to provide security in post conflict sites and explains why internal security should be given precedence in statebuilding endeavours The work begins by exploring the evolution of security sectors in mature liberal democratic states before examining the attempts of such states to accelerate that evolutionary process in post conflict sites through statebuilding and security sector reform These discussions suggest interestingly different answers to the question of who should provide for internal security in international operations When considering mature states there are both practical and normative reasons as to why internal security has become the sole domain of police with military forces being excluded from internal affairs In peace and stability operations on the other hand difficulties with utilising police personnel have led to military forces being required to play internal security roles This tension is investigated further through detailed case studies of three recent missions Afghanistan Timor Leste and Solomon Islands These case studies both reinforce and augment the practical and normative reasons for ensuring that internal security remains the domain of police This then impacts upon peace and stability operations in two important ways If we are to provide enduring security in post conflict sites we should both i prioritise internal security agencies in security sector reform efforts and ii prioritise ways of enabling police to play internal security roles in the contributing mission This book will be of much interest to students of statebuilding peace and conflict studies military studies police studies historical sociology
