Fieldwork is a practical guide for faculty and clinicians to design and implement Level I fieldwork experiences for occupational therapy and occupational therapy assistant students. Fieldwork Educator's Guide to Level I Fieldwork was designed to address the challenges of integrating Level I fieldwork with classroom learning experiences. Expansive and versatile, the book meets the recently expanded definition of Level I fieldwork according to the 2018 Accreditation Council for Occupational Therapy Education standards, including faculty-led experiences, standardized patients, simulation, and supervision by a fieldwork educator in a practice environment. Each unit of the text builds upon the previous unit. The first unit provides fundamental knowledge on experiential learning and includes an orientation to the purpose of Level I fieldwork in occupational therapy. Building on this foundation, the second unit equips the reader with resources to develop a Level I fieldwork learning plan suitable for their setting. The final units focus on situational scenarios that emerge during Level I fieldwork placements and provide a framework for assessing student learning during Level I fieldwork. While each chapter is designed to build upon one another, they also can be used as stand-alone resources depending on the needs of the reader. What is included in Fieldwork Educator's Guide to Level I Fieldwork: Up-to-date terminology; Experiential learning frameworks and models in diverse contexts, including role emerging and simulation; Strategies for addressing anxiety and student stress management and supporting students with disabilities; Models to support clinical reasoning development during Level I fieldwork; Mechanisms to foster student professional development and communication skills.
