Doerr, Debra J. Occhi, 2019-02-08 What happens when a group of people see things that others do not and begin acting accordingly The Augmented Reality of Pok mon GO Chronotopes Moral Panic and Other Complexities explores this question by examining what happened after Pok mon GO a smartphone augmented reality game was released in July 2016 The game overlaid the world of Pok mon onto the real physical world drawing 30 million players in the first two weeks Pok mon GO has created new ways of sensing the environment reading things around us walking the street and dwelling in certain areas i e inhabiting the world Through detailed text analyses of the game and auto ethnographies of the contributing authors experiences playing the game analyzed from anthropological perspectives this volume provides nuanced analyses of this new way of relating to the world the augmented reality world of Pok mon GO Each chapter focuses on specific aspects of this new experience of the world the cosmology of the world of Pok mon and the multifaceted ways we relate to our environment through Pok mon GO the notion of space and time in Pok mon GO and its interface with that of real world as it guides our actions the phenomenology of Pok mon GO in urban walking with its complex relationships to public space nature as constructed through modernity cell phone infrastructure and urban landscapes where insects animals birds human history transportation infrastructure and trash all intermingle to create its ambiance and the game s link to the wider social issue as it gets appropriated for friendly authoritarian goals of civil society imposing various ideologies and accruing commercial gains Through participant observation all contributors have been avid Pok mon GO players themselves this volume offers snapshots of the Pok mon GO effect from its initial stage as a social phenomenon to Spring 2018 **Understanding Virtual Reality** Sarah Jones, Steve Dawkins, Julian McDougall, 2022-12-30 This book provides critical commentary on key issues around virtual reality using media technology as a tool to challenge perspectives for learning and understanding cultural diversities With a focus on empathy embodiment and ethics the book interrogates the use of immersive technologies for formal and informal educational contexts Taking a critical approach to discourses around emerging technology and learning the book presents the idea that a new literacy is emerging and an emphasis on media and technology is needed in the context of education to explore and experience cultural diversities Employing a personal reflexive narrative the chapters highlight key issues through research and interviews with leading practitioners in the field Understanding Virtual Reality will be of great interest to academics and students interested in the effects of immersive realities on the education experience and to anyone keen on exploring the paradigm shift from entertainment to education Emerging Technologies of Augmented Reality: Interfaces and Design Haller, Michael, Billinghamurst, Mark, Thomas, Bruce, 2006-11-30 This book provides a good grounding of the main concepts and terminology for Augmented Reality AR with an emphasis on practical AR techniques from tracking algorithms to design principles for AR interfaces The targeted audience is computer literate readers who wish to gain an initial understanding of this exciting and emerging technology Provided by publisher **Hidden Disney Easter Eggs** Logan Rodriguez, AI, 2025-02-24 Hidden Disney Easter Eggs unveils the captivating world of hidden details within

Disney's films and theme parks revealing how these Easter eggs enrich the viewing experience. It explores the historical context and artistic rationale behind these subtle jokes, familiar faces and interconnected storylines woven into Disney's animated classics, live-action films and attractions. For example, Pixar's consistent use of the Pizza Planet truck across films demonstrates how these references create a shared universe. The book argues that these seemingly minor details are integral to Disney's storytelling strategy, fostering a sense of community among fans. It examines thematic connections between film franchises, the integration of film themes into parks through Imagineering, and the use of audio cues. By providing visual evidence and insights from animators and Imagineers, the book moves beyond simple lists, offering an analytical framework to deepen the appreciation of Disney's commitment to rewarding attentive audiences. The book progresses from defining Disney Easter eggs and setting the historical stage to exploring connections between film franchises and Imagineering, and ultimately the use of audio cues. This approach provides a comprehensive understanding of how Disney's creators have woven intricate layers of interconnected storytelling into their work, appealing to Disney enthusiasts, film buffs, and anyone interested in visual storytelling.

Handbook of Research on Technological Developments for Cultural Heritage and eTourism Applications Rodrigues, João M. F., Ramos, Célia M.Q., Cardoso, Pedro J. S., Henriques, Cláudia, 2017-11-30

Tourism is one of the most rapidly evolving industries of the 21st century. The integration of technological advancements plays a crucial role in the ability for many countries all over the world to attract visitors and maintain a distinct edge in a highly competitive market. The Handbook of Research on Technological Developments for Cultural Heritage and eTourism Applications is a pivotal reference source for the latest research findings on the utilization of information and communication technologies in tourism. Ontology-based Procedural Modelling of Traversable Buildings Composed by Arbitrary Shapes Telmo Adão, Luís Magalhães, Emanuel Peres, 2016-09-26. This book presents a new procedural modelling methodology capable of producing traversable buildings constrained by arbitrary convex shapes based on a pure treemap approach. The authors establish a process to change the format of interior rooms through wall number modification and offer an adaptation of a fake concave technique to support non-convex building layouts. It will also include a proposal for an extensible building ontology to guide the methodology process and support the generation of other architectural style buildings, e.g., Roman houses. A presentation of an ontology-based grammar to provide the procedural modelling methodology with production rules. Experimental computer-managed processes for the stochastic generation of buildings. Most of the existing solutions regarding building interiors only focus on the generation of floor plans mainly composed of rectangular shapes. Yet there are a wide variety of ancient and contemporary buildings that are composed of shapes other than rectangles both internally and externally.

Ontology based Procedural Modelling of Traversable Buildings Composed by Arbitrary Shapes will address this by providing the Procedural Modelling field with processes and techniques capable of properly supporting for example digital preservation of cultural heritage or extensive virtual urban environment productions specifically ones involving the generation reconstruction of virtual buildings with such geometric requirements

Extinct Monsters to Deep Time Diana E. Marsh, 2019-02-18 Via the Smithsonian Institution an exploration of the growing friction between the research and outreach functions of museums in the 21st century Describing participant observation and historical research at the Smithsonian's National Museum of Natural History as it prepared for its largest ever exhibit renovation Deep Time the author provides a grounded perspective on the inner workings of the world's largest natural history museum and the social processes of communicating science to the public From the introduction In exhibit projects the tension plays out between curatorial staff academic research or scientific staff charged with content and exhibitions public engagement or educational staff which I broadly group together as audience advocates charged with translating content for a broader public I have heard Kirk Johnson Sant Director of the NMNH say many times that if you look at dinosaur halls at different museums across the country you can see whether the curators or the exhibits staff has won At the American Museum of Natural History in New York it was the curators The hall is stark white and organized by phylogeny or the evolutionary relationships of species with simple albeit long text panels At the Field Museum of Natural History in Chicago Johnson will tell you it was the exhibits people The hall is story driven and chronologically organized full of big graphic prints bold fonts immersive and interactive spaces and touchscreens At the Denver Museum of Nature and

Science where Johnson had previously been vice president and chief curator we actually fought to a draw That he says is the best outcome a win on either side skews the final product too extremely in one direction or the other This creative tension when based on mutual respect is often what makes good exhibitions
