loved author Tove Jansson's work reflected the tenets of her life: her love of family and special bond with her mother of nature and her insistence on freedom to pursue her art. Love and work was the motto she chose for herself and her approach to both was joyful and uncompromising. If her relationships with men foundered on her ambivalence towards marriage, those with women came as a revelation, especially the love and companionship she found with her long-time partner, the artist Tuulikki Pietilä, with whom she lived on the solitary island of Klovharu. In this meticulously researched, authorised biography Boel Westin draws together the many threads of Jansson's life from the studies interrupted to help her family, the dark shades of war, and her emergence as an artist with a studio of her own, to the years of Moomin mania and later novel writing. Based on numerous conversations with Tove and unprecedented access to her journals, letters, and personal archives, *Tove Jansson: Life Art Words* offers a rare and privileged insight into the world of a writer whom Philip Pullman described simply as a genius.

Crossing Boundaries with Children's Books Doris Gebel, United States Board on Books for Young People, 2006-05-25 This annotated bibliography, organized geographically by world region and country, describing nearly 700 books representing 73 countries, is a valuable resource for librarians, teachers, and anyone else seeking to promote international understanding through children's literature. It is the third volume sponsored by the United States Board on Books for Young People. The first, Carl M. Tomlinson's *Children's Books from Other Countries* (1998), is a compendium of international children's literature with annotations of both in and out of print books published between 1950 and 1996. Susan Stan's *The World Through Children's Books* (2002) was the second, and it included books published between the years 1997 and 2000. *Crossing Boundaries* includes international children's books published between 2000 and 2004, as well as selected American books set in countries other than the United States. Editor Doris Gebel has compiled an important tool for providing stories that will help children understand our differences while simultaneously demonstrating our common humanity.

Arctic Hysteria and Other Strange Northern Emotions Elise Nykänen, 2024-11-08 *Arctic Hysteria and Other Strange Northern Emotions: Case Studies in Finnish Literature* opens a new perspective on the thriving area of research on the imagined North by studying emotions in the light of case studies in Finnish literature. The volume addresses the cultural history of Arctic hysteria and maps other strange emotions depicted and evoked in literature of the Finnish North. The volume comprises seven case studies which range from the works of internationally renowned authors such as Rosa Liksom, Emmi Itäranta, and Tove Jansson to the affectively controversial and provocative writings of Timo K. Mukka, Marko Tapio, and Pentti Linkola. Drawing from the study of the imagined North and theories and tools in the study of literature and emotions, the analyses show how such moods as melancholia, ecstasy, or a peculiar sense of November are generated in texts and how literary emotions entangle with the Northern environment they depict. By focusing on the imagined North in Finnish modernism and contemporary literature, the authors offer original views

on experiences of late modernity merging with the changing Northern environment in the age of the Anthropocene
