Josephine M. Guy

Morris Manual Handling:

Made in Sheffield Massimiliano Mollona, 2009-03-01 In 1900 Sheffield was the tenth largest city in the world Cutlery made in Sheffield was used across the globe and the city built armored plate for the navy in the run up to the First World War Today however Sheffield's derelict Victorian shop floors and industrial buildings are hidden behind new leisure developments and shopping centers Based on an extended period of research in two local steel factories this book combines a lively descriptive account with a wide ranging critique of post industrial capitalism Its central argument is that recent government attempts to engineer Britain's transition to a post industrial and classless society have instead created volatile post industrial spaces marked by informal labor industrial sweatshops and levels of risk and deprivation that divide citizens along lines of gender age and class The author discovers a link between production and reproduction and demonstrates the centrality of kinship relations child and female labor and intra household exchanges to the economic process of de industrialization Paradoxically government policies have reinvigorated working class militancy spawned local industrial clusters and re embedded the economy in the spatial and social structure of the neighborhood *Audacious Jewish Lives Vol. 4* Jonathan Bergwerk, 2020-01-02 The lives ideas and influence of ten audacious Jews what they did what they believed and their contribution to the Jewish story Courageous challenging and often misunderstood they left a lasting legacy for humanity This book has a chapter on each character in an easy to read bullet point format which gives a summary of a character's life personality beliefs and contribution to Judaism Jacob The most successful biblical patriarch Naomi The heroine of the biblical Book of Ruth King Solomon The second monarch of Judah and Israel Akiva ben Yosef The leading 1st century Rabbi and martyr Theodor Herzl The journalist writer and inspiration of modern political Zionism Franz Kafka A literary genius of the 20th century Marc Chagall The most famous Jewish artist of the 20th century Golda Meir Israel's fourth Prime Minister Isaiah Berlin The liberal philosopher and one of the finest minds of the 20th century Leonard Bernstein The American composer conductor and pianist **Cassier's Industrial Management and Mechanical Handling**, 1972

Meaningful Work Andrea Veltman, 2016-09-20 This book develops the view that meaningful work is central in human flourishing The author defends a pluralistic account of what makes work meaningful arguing that work can be meaningful in virtue of developing capabilities supporting virtues providing a purpose or integrating elements of a worker's life **The Windsor Magazine**, 1914 & 2 John William Mackail, 1920 **History of Architectural Theory** Hanno-Walter Kruft, 1994 As the first comprehensive encyclopedic survey of Western architectural theory from Vitruvius to the present this book is an essential resource for architects students teachers historians and theorists Using only original sources Kruft has undertaken the monumental task of researching organizing and analyzing the significant statements put forth by architectural theorists over the last two thousand years The result is a text that is authoritative and complete easy to read without being reductive *The Sociology of the Workplace (RLE: Organizations)* Malcolm Warner, 2013-05-02 This volume

adopts an interdisciplinary approach The study of the workplace is approached from the standpoint of industrial sociology industrial relations industrial anthropology and other related disciplines It includes contributions from economists and psychologists as well as from sociologists The theoretical and practical issues raised are however central to the sociological tradition of Marx and Weber in that they concern the meaning of human and social phenomena and their relevance to resolving questions of moment in industrial and industrializing societies

Socialist Imaginations Stefan Arvidsson, Jakub Beneš, Anja Kirsch, 2018-09-21 This volume offers new perspectives on the appeal and profound cultural meaning of socialism over the past two centuries It brings together scholarship from various disciplines addressing diverse national contexts including Britain China France Germany Norway Sweden and the USA Taken together the contributions highlight the aesthetic narrative and religious dimensions of socialism as it has developed through three broad phases in the modern era early nineteenth century beginnings mass based political organizations and the attainment of state power in the twentieth century and beyond Socialism did not attract millions of people primarily because of logical argument and empirical evidence important though those were Rather it told the most compelling story about the past present and future Refocusing attention on socialism's imaginative dimensions this volume aims to revive scholarly interest in one of the modern world's most important political orientations

Intimations of Nostalgia Michael Hviid Jacobsen, 2021-11-05 This volume investigates the relationship between nostalgia and contemporary social issues From history and political theory to marketing and media each chapter discusses the way nostalgia has been presented within a specific disciplinary context and shows how nostalgia as a topic of research has evolved over time

Art Workers Julia Bryan-Wilson, 2009 From artists to art workers Carl Andre's work ethic Robert Morris's art strike Lucy Lippard's feminist labor Hans Haacke's paperwork

The Complete Works of Oscar Wilde Josephine M. Guy, 2007-09-06 Volume IV of the Oxford English Texts Complete Works of Oscar Wilde is the first variorum edition of Wilde's major critical writing it includes the critical essays which were re published in book form in his life time that is those anthologised in *Intentions* and *The Soul of Man* as well as his graduate essay usually known by the title *The Rise of Historical Criticism* but which this volume titles *Historical Criticism* The Introduction gives a detailed account of the composition of each of the essays it gives a new explanation for the relationship between the *The Decay of Lying* and *Pen Pencil and Poison* arguing that they are best understood as companion pieces it provides the first concrete demonstration that Wilde did on occasions knowingly copy his own work and it reveals that substantial cuts were made to some of Wilde's essays without his full consent by the periodical editors with whom he worked The edition also provides for the first time a full collation of the textual variants between the published versions of Wilde's essays that is both book and periodical and all extant manuscripts in addition it establishes a new authoritative text for *Historical Criticism* based on an examination of the original manuscript which differs significantly from that printed by Robert Ross in his 1908 *Collected Edition* and subsequently reprinted in the *Collins Complete Works* The annotation to the edition reveals the full extent of Wilde's

borrowings both from his own work and from other writers it also reveals that much of Historical Criticism is in fact paraphrasing or translating well known classical texts and that the some of denseness of the argument is due to ellipses in Wilde's text that were disguised by earlier editors

An Architecture of Parts: Architects, Building Workers and Industrialisation in Britain 1940 - 1970 Christine Wall, 2013-07-04 This book is unique in describing the history of post war reconstruction from an entirely new perspective by focusing on the changing relationship between architects and building workers It considers individual as well as collective interactions with technical change and in doing so brings together for the first time an extraordinary range of sources including technical archives oral history and visual material to describe the construction process both during and in the decades after the war It focuses on the social aspects of production and the changes in working life for architects and building workers with increasing industrialization in particular analysing the effect on the building process of introducing dimensionally co-ordinated components Both architects and building workers have been accused of creating a built environment now popularly discredited architects responsible for poor design and building workers for poor workmanship However many of the structures and ideas underpinning this period of rapid change were revolutionary in their commitment to a complete transformation of the building process *An Architecture of Parts* adds to the growing literature on changes in the building world during and immediately after the Second World War It is significant both empirically and historically in its examination of the ideas technology and relationships that fired industrialization of the building process in mid-century Britain

William Morris's Utopianism Owen Holland, 2017-12-04 This book offers a new interpretation of William Morris's utopianism as a strategic extension of his political writing Morris's utopian writing alongside his journalism and public lectures constituted part of a sustained counter-hegemonic project that intervened both into the life-world of the fin-de-siècle socialist movement as well as the dominant literary cultures of his day Owen Holland demonstrates this by placing Morris in conversation with writers of first-wave feminism nineteenth-century pastoralists as well as the romance revivalists and imperialists of the 1880s In doing so he revises E.P. Thompson's and Miguel Abensour's argument that Morris's utopian writing should be conceived as anti-political and heuristic concerned with the pedagogic education of desire rather than with the more mundane work of propaganda He shows how Morris's utopianism emerged against the grain of the now here embroiled in instrumental propagandistic polemic complicating Thompson's and Abensour's view of its anti-political character

Fail Better Hal Foster, 2025-02-25 From the distinguished art critic and historian vital essays on key artists and critics revealing how they redefined art and criticism over the last six decades Serious art anticipates the future as much as it reflects the present Hal Foster remarked in a 2015 interview By the same token serious art history is driven by the present as much as it is informed by the past In *Fail Better* Foster an art critic and historian whose influential work spans disciplines and decades brings this peripatetic perspective to contemporary art art criticism art history and his own work over the past 50 years In these 40 texts Foster reviews artists from Richard Hamilton and Jasper

Johns to Gerhard Richter and Ed Ruscha considers contemporaries from Louise Lawler and Cindy Sherman to Jeremy Deller and Adam Pendleton and traces the development of criticism since the early 1960s with essays on such influential figures as Susan Sontag and Rosalind Krauss and institutions like Artforum magazine and the Whitney Museum Independent Study Program Taking his title from Beckett try again fail again fail better Foster notes that etymologically an essay is always an attempt more or less failed Critics fail artworks because there can never be a definitive reading art fails its historical moment because it cannot resolve the contradictions that prompt it But in these failures Foster finds historical consciousness and with it the promise of future work future illumination In his reckonings he turns his own long history of criticism to account and succeeds in conveying shifting concepts of art and criticism the work of key artists and critics and the relationships between criticism theory history and politics over the last six decades *EBOOK: Embodying Women's Work* Caroline Gatrell, 2008-09-16 What is the relationship between women's reproductive bodies and women's productive work How does women's potential for maternity affect women's workplace opportunity How far can women choose and maintain their own embodied boundaries in relation to work and working practices This fascinating and topical book evaluates the growing debate on gender women's bodies and work Through the lens of the body and from a feminist perspective Gatrell considers women's work from two angles the first conceptualizing the labour of maternity as women's work the second exploring the dynamics between women's bodies and employment The author suggests that maternity constitutes women's work with some women expected to produce children while others are criticised for giving birth She calls for the re-conceptualization of pregnancy birth and breastfeeding as forms of labour asserting that mothers are required to perform particular forms of body work in order to comply with ideals of good mothering and norms of the workplace The book observes that these are conflicting requirements which place irreconcilable demands on women and constrain women's choice At the heart of *Embodying Women's Work* is the idea that women's bodies are central to gendered power relations and remain a negotiated site of power between men and women within late modern society The book considers women's bodies in the context of different forms of paid work discussing how far women remain at an economic disadvantage in comparison with male workers *Embodying Women's Work* is of key interest for students and academics of sociology social welfare and women's studies **Man & Work** David Meakin, 2025-06-30 Man yet the relationship of man to work cannot be limited to physical survival alone since it is inextricably linked with our humanity In tracing the various related and contrasting views David Meakin covers such vital topics as the nostalgia for roots and permanence the exaltation of technology the emergence of anarchism and revolutionary syndicalism and the concept of creativity which leads on to the relationship between art and work and the idea of non-fragmented organic living The dangers of the ethic of work in particular its exploitation by fascist ideologies are also considered Fully integrating both the literary and sociological evidence the argument ranges widely from the thought of Marx Freud Marcuse Carlyle Ruskin William Morris Huizinga P. Guy and Simone Weil to the writings of

Lawrence Hardy Tolstoy J nger Kaiser Zola Camus and Wesker The author concludes by surveying various solutions proposed and argues the urgency of such speculation for the future of democracy in its deepest sense This is a must read for scholars and researchers of literature philosophy and sociology **Who's who** ,1897 **English Rebels and Revolutionaries**

Stephen Basdeo,2022-06-16 Throughout history brave Englishmen and women have never been afraid to rise up against their unjust rulers and demand their rights Barely a century has gone by without England being witness to a major uprising against the government of the day often resulting in a fundamental change to the constitution This book is a collection of biographies written by experts in their field of the lives and deeds of famous English freedom fighters rebels and democrats who have had a major impact on history Featured chapters include the history of Wat Tyler s Rebellion when an army of 50 000 people marched to London in 1381 to demand an end to serfdom and the hated poll tax Alongside Wat Tyler in this pantheon of English revolutionaries is Jack Cade who in 1450 led an angry mob to London to protest against government corruption There are three chapters on various aspects of the English Civil War during which the English executed their king Other rebel heroes featured include Thomas Paine the great intellectual of the American and French Revolutions Mary Wollstonecraft author of The Rights of Woman Henry Hunt who as well as the Chartists after him campaigned for universal suffrage William Morris the visionary designer and socialist thinker and finally the Suffragettes and Suffragists who fought for women s voting rights **Returning to the Long Revolution** Stewart Ranson,2024-09-06 Facing fundamental changes

to the climate the environment and the nature of work will require cooperative action for an effective response This presents a crisis of recognition of different communities needing to learn how to value the practices of collaboration for a common purpose The central argument of this book is that the key to motivating such change now lies in a radical re imagining of our democratic citizenship empowering citizens to participate in and take responsibility for remaking the communities in which they live and work We need to reconfigure ourselves from being clients dependent on professional knowledge or consumers competing in a market place to becoming active citizens makers of our worlds Only a transformation of democracy can enable public participation in this way and through practice in deliberating common goods achieve mutual recognition of cultural differences and social cohesion
