Block, Sheri R. Parris, 2008-04-22 This comprehensive professional resource and text is based on cutting edge research. In each chapter leading scholars provide an overview of a particular aspect of comprehension, offer best practice instructional guidelines and policy recommendations, present key research questions still to be answered and conclude with stimulating questions for individual study or discussion. Coverage includes such timely topics as differentiated instruction, technology and reading comprehension, teaching English language learners and the implications of current neuroscientific findings.

Harness the Power of Reflection Ron Nash, 2011-04-07 Anyone in the education field would benefit from reading this book. Ron Nash expertly weaves in case studies illustrating the topic of each chapter. He has inspired me to continue to focus on improvement in my school. Jill Broadus, Principal, Cool Spring Elementary, Leesburg, VA. Elevate your team's attitude from whatever to whatever it takes. Seasoned educator Ron Nash shares the results of his visits to schools where we will do better. He has replaced whatever as the official mantra. His findings will inspire school staff members to embark on their own continuous improvement journeys and model that experience for their students. This book provides a framework for individual reflection and evaluation of schools' processes as part of a professional development program. Ideally, all staff members will be on board. But even with less than 100% support, each person can make a difference. The results speak for themselves. Inspired and empowered staff members. Active classrooms with engaged students who enjoy school. A customer service oriented culture where parents feel welcome and valued. A schoolwide commitment to sustaining improvement efforts. Included are strategies, action items, processes and examples from successful programs nationwide. From the classroom to the lunchroom, students learn from those around them. By modeling commitment, self-renewal and persistence in the face of difficulties, we are teaching skills that will serve students well in adulthood.

Best Practices in Teaching Digital Literacies Evan Ortlieb, Earl H. Cheek Jr., Peggy Semingson, 2018-08-22 This edited volume provides a practical framework for teacher education programs to develop K-12 students' digital literacies. It serves as a set of best practices in teaching digital literacies that promotes access to research-based pedagogies for immediate implementation in their classrooms. *"I Hate Reading"*

Justin M. Stygles, 2022-09-15 It can take a lifetime to eradicate a reader's shame, or it can take one great teacher. Shame-bound readers want someone to notice them. It's true. But then what does a teacher do to help students? Justin Stygles found fresh answers in Gershen Kaufman's seminal research on shame and applied it to his teaching. The results proved to him and now us that taking deliberate actions is crucial. At heart, it's about mentoring these fragile readers. Yet the beautiful surprise is in store. A few shifts in classroom practices changed everything for every reader. Learn to spot all the distress signals, including withdrawal, perfectionism, sweetness. Help students see that they are not permanently locked out of a reading life. Use assessment instruments to note and celebrate incremental change. Plan mini-units that develop skills in concert with engagement. Design small group experiences that are free of levels and other shame-inducing labels.

Teaching Numeracy Margie Pearse, K. M. Walton, 2011-03-23 Do some of your students arrive at wildly wrong answers

to mathematical problems but have no idea why If so they are not alone Many students lack basic numeracy the ability to think through the math logically solve problems and apply it outside of the classroom This book outlines nine critical thinking habits that foster numerate learning and details practical ways to incorporate those habits into instruction Referencing the new common core standards NCTM standards and established literacy practices the authors include How Can I Use This in My Math Class Tomorrow applications throughout the book which shows you how to Monitor and repair students understanding Guide students to recognize patterns Represent mathematics non linguistically Encourage questioning for understanding Develop students mathematics vocabulary Create a collaborative environment Latter chapters show how to develop numeracy rich lesson plans and provide several ready to use models with clear directions and student handouts The book s practices activities and problems will help you move your students from simply doing the math to a deeper understanding of how to think through the math

From Seatwork to Feetwork Ron Nash, 2015-10-22 The essential book on student engagement now fully updated Learning is not a spectator sport That s the guiding principle behind Ron Nash s bestseller which has helped thousands of teachers transform their classroom environments by energizing and engaging their students In the newly revised edition Nash offers proven strategies that involve students as active participants in their own learning Teachers of all levels will benefit from The latest research on exercise learning and brain development New chapters on the value of empathy and the use of feedback versus praise Additional material on maximizing the use of classroom time and supporting speakers and listeners Even more classroom examples at both the elementary and secondary levels Novel teaching strategies that align with the Speaking and Listening Skills requirements of the Common Core State Standards Discover or re discover this trusted resource combining down to earth wisdom with important insights on movement memory and learning Mr Nash understands learners particularly today s learners and he effectively advises how to embrace their need for a more participatory role in their own learning I recommend this book to all teachers those who are new and those who need to be re newed Buy a copy buy a new highlighter and prepare to be inspired to make sure it is the students who are tired at the end of the school day not the teacher Debbie Silver Ed D Retired teacher author consultant speaker
