Kosar,2017-04-15 You might think moonshine only comes from ramshackle stills hidden away in the Appalachian Mountains but the fact of the matter is we ve been improvising spirits all around the world for centuries No matter where you go there is a local bootleg liquor whether it s bathtub gin peatreek or hjemmebrent In this book Kevin R Kosar tells the colorful and at times blinding history of moonshine a history that s always been about the people from crusading lawmen and clever tinkerers to sly smugglers and ruthless gangsters from pontificating poets and mountain men to beleaguered day laborers and foolhardy frat boys Kosar first surveys all the things we ve made moonshine from including grapes grains sugar tree bark horse milk and much more But despite the diversity of its possible ingredients all moonshine has two characteristics it is extremely alcoholic and it is in most places illegal Indeed the history of DIY distilling is a history of criminality and the human ingenuity that has prevailed out of officials sights from cleverly designed stills to the secret smuggling operations that got the goods to market Kosar also highlights the dark side completely unregulated many moonshines are downright toxic and dangerous to drink Spanning the centuries and the globe this entertaining book will appeal to any food and drink lover who enjoys a little mischief     **Self Reliance** John Yeoman,1999     **Moonshine Markets** Alan Haworth,Ronald Simpson,2004-06 Moonshine Markets the sixth book in the ICAP Series on Alcohol in Society explores consumption patterns of a type of alcohol that is generally but not exclusively illegal in most of the countries where it is consumed     **Home Distilling Handbook** Christopher G.
