

MORALITY AND CAPITALISM

A DIALOGUE ON FREEDOM

BY DAVID L. KENDALL

Morality And Capitalism A Dialogue On Freedom

Charles Taylor

Morality And Capitalism A Dialogue On Freedom:

Morality and Capitalism David L. Kendall, 2014-05-16 Critics of capitalism claim that it is unjust and immoral never mind that it has advanced human prosperity far beyond anything imaginable just 200 years ago Are the opponents of capitalism right Is capitalism unjust and immoral The dialogues of Solon and Tyro and the citizens of Threesville may have you changing your mind about the morality of capitalism by book s end [The SAGE Encyclopedia of Business Ethics and Society](#) Robert W. Kolb, 2018-03-27 Thoroughly revised updated and expanded The SAGE Encyclopedia of Business Ethics and Society Second Edition explores current topics such as mass social media cookies and cyber attacks as well as traditional issues including accounting discrimination environmental concerns and management The new edition also includes an in depth examination of current and recent ethical affairs such as the dangerous work environments of off shore factories for Western retailers the negligence resulting in the 2010 BP oil spill the gender wage gap the minimum wage debate and increasing income disparity and the unparalleled level of debt in the U S and other countries with the challenges it presents to many societies and the considerable impact on the ethics of intergenerational wealth transfers Key Features Include Seven volumes available in both electronic and print formats contain more than 1 200 signed entries by significant figures in the field Cross references and suggestions for further readings to guide students to in depth resources Thematic Reader s Guide groups related entries by general topics Index allows for thorough browse and search capabilities in the electronic edition

Encyclopedia of Business Ethics and Society Robert W. Kolb, 2008 This encyclopedia spans the relationships among business ethics and society with an emphasis on business ethics and the role of business in society **Research Handbook on Corporate Governance and Ethics** Till Talaulicar, 2023-07-01 This essential Research Handbook provides an in depth analysis of the link between corporate governance and ethics By bringing together internationally renowned scholars it reflects upon pertinent trends and challenges within the field Significantly it illuminates the ethical foundations of corporate governance *Absolute Ethical Life* Michael Lazarus, 2025-06-03 Karl Marx gave us not just a critique of the political economy of capital but a way of confronting the impoverished ethical quality of life we face under capitalism Interpreting Marx anew as an ethical thinker *Absolute Ethical Life* provides crucial resources for understanding how freedom and rational agency are impacted by a social world formed by value under capitalism with consequences for philosophy today Michael Lazarus situates Marx within a shared tradition of ethical inquiry placing him in close dialogue with Aristotle and Hegel Lazarus traces the ethical and political dimensions of Marx s work missed by Hannah Arendt and Alasdair MacIntyre two of the most profound critics of modern politics and ethics Ultimately the book claims that Marx s value form theory is both a continuation of Aristotelian and Hegelian themes and at the same time his most distinctive theoretical achievement In this normative interpretation of Marx Lazarus integrates recent moral philosophy with a historically specific analysis of capitalism as a social form of life He challenges contemporary political and economic theory to insist that any conception of modern life

needs to account for capitalism With a robust critique of capitalism derived from the determinations of what Marx calls the form of value Lazarus argues for an ethical life beyond capital

Morality and Modernity Ross Poole, 2012-11-12 Ross Poole displays the social content of the various conceptions of morality at work in contemporary society and casts a strikingly fresh light on such fundamental problems as the place of reason in ethics moral objectivity and the distinction between duty and virtue The book provides a critical account of the moral theories of a number of major philosophers including Kant Marx Nietzsche Habermas Rawls Gewirth and MacIntyre It also presents a systematic critique of three of the most significant responses to modernity liberalism nationalism and nihilism It takes seriously the suggestion that men and women are subject to different conceptions of morality and places the issue of gender at the centre of moral philosophy Poole has written a valuable addition to the Ideas series

Marxism, Morality, and Social Justice Rodney G. Pfeffer, 2014-07-14 The interpreter of Marx's writings faces the task of reconciling on the one hand Marx's frequent explicit condemnations and criticisms of morality and on the other the obvious way in which his world view reflects substantive moral judgments In this book R G Pfeffer tackles the challenges of finding in Marx's work an implicit moral theory of answering claims that Marxism is incompatible with morality and of developing the outlines of an adequate Marxist moral and social theory Pfeffer analyzes the moral components of Marx's thought and considers all the major interpretations of his moral perspective he concludes that Marx is a mixed deontologist who is most committed to a maximum system of equal freedoms both positive and negative He then utilizes contemporary metaethical theory to show that Marxism is compatible with morality in general and with the concepts of justice and rights in particular Pfeffer proposes a radically egalitarian theory of social justice which subsumes Marx's own moral theory and a minimal set of Marxist empirical theses which together entail the Marxist's basic normative political positions This book demonstrates that contemporary analytic political philosophy is invaluable for coming to terms with Marxism and that it is only Marx's less abstract empirical theories about classes and class struggle the dysfunctions of capitalism and the possibility of creating democratic self managing postcapitalist societies that are needed for the development of an adequate Marxist moral and social theory Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Software Evangelism and the Rhetoric of Morality Jennifer Helene Maher, 2015-08-27 Examining the layers of meaning encoded in software and the rhetoric surrounding it this book offers a much needed perspective on the intersections between software morality and politics In software development culture evangelism typically denotes a rhetorical practice that aims to convert software developers as well as non technical lay users from one platform to another e g from the

operating system Microsoft Windows to Linux This book argues that software evangelism like its religious counterpart must also be understood as constructing moral and political values that extend well beyond the boundaries of the development culture Unlike previous studies that locate such values in the effects of code in use or in certain types of code like free and open source FOSS software Maher argues that all code is meaningful beyond its technical executable functions To facilitate this analysis this study builds a theory of evangelism and illustrates this theory at work in the proprietary software industry and FOSS communities As an example of political liberalism at work at the level of code these evangelical rhetorics of software construct competing conceptions of what is good that fall within a shared belief in what is just Maher illustrates how these beliefs in goodness and justice do not always execute in replicable ways as the different ways of decoding software evangelisms in the contexts of Brazil and China reveal Demonstrating how software evangelisms exert a transformative force on the world one comparable in significance to code itself this book highlights the importance of rhetoric in even the most seemingly a rhetorical of technical endeavors and foregrounds the crucial need for rhetorical literacy in the digital age

Moral Responsibility and the Boundaries of Community Marion Smiley, 2009-09-15 The question of responsibility plays a critical role not only in our attempts to resolve social and political problems but in our very conceptions of what those problems are Who for example is to blame for apartheid in South Africa Is the South African government responsible What about multinational corporations that do business there Will uncovering the true facts of the matter lead us to the right answer In an argument both compelling and provocative Marion Smiley demonstrates how attributions of blame far from being based on an objective process of factual discovery are instead judgments that we ourselves make on the basis of our own political and social points of view She argues that our conception of responsibility is a singularly modern one that locates the source of blameworthiness in an individual's free will After exploring the flaws inherent in this conception she shows how our judgments of blame evolve out of our configuration of social roles our conception of communal boundaries and the distribution of power upon which both are based The great strength of Smiley's study lies in the way in which it brings together both rigorous philosophical analysis and an appreciation of the dynamics of social and political practice By developing a pragmatic conception of moral responsibility this work illustrates both how moral philosophy can enhance our understanding of social and political practices and why reflection on these practices is necessary to the reconstruction of our moral concepts

Can Democracy and Capitalism Be Reconciled? Sidney M. Milkis, White Burkett Miller Professor of Politics Sidney M Milkis, 2025 In *Can Capitalism and Democracy Be Reconciled* Sidney M Milkis and Scott C Miller have gathered a truly eminent cast of contributors to provide a multidisciplinary examination of the intersection of capitalist economic systems and democratic societies across time and space Featuring twenty four essays from scholars across nine different academic fields the volume interrogates the ideas history and policy behind these two principal elements of liberal society The volume begins with an introduction that explores the vibrant historical debate over whether democracy and

capitalism can and should coexist in America and further analyzes the places where democracy and capitalism thrive and diverge and the systemic adjustments needed to sustain democratic capitalism in the future Power and Ethics Waleed Mahmud Tariq, 2024-04-20 Dive into the philosophical journey that shaped the Western world from the ancient Greeks to the digital age Power it invites to understand the profound debates and the philosophical foundations that have influenced modern ideologies and our understanding of a just society Through the pages readers familiarize themselves with the likes of Socrates Plato Aristotle and move through the transformative periods of the Renaissance the Enlightenment and into the throes of modern and postmodern challenges As our world grapples with issues of democracy ethics in technology and global justice this book connects past wisdom with present dilemmas providing a critical perspective that is both enlightening and necessary It is not just a book for philosophers or academics it is crafted for anyone who seeks to understand the deep moral and political currents that continue to shape our world Power Ethics is your guide through the ages as it illuminates the ongoing discourse on rights justice and the ethical challenges of the 21st century Engage with this narrative that not only recounts philosophical milestones but encourages you to question critique and perhaps redefine your understanding of the good life Prepare to be challenged and inspired on a journey that not only recounts the history of moral and philosophical thought but also examines how these enduring ideas can help us navigate the complexities of modern life Join me in a dialogue that spans millennia and discover how ancient wisdom can inform contemporary solutions for a just and equitable world Liberty, Games and Contracts Malcolm Murray, 2016-05-06 Jan Narveson is one of the most significant contemporary defenders of the libertarian political position Unlike other libertarians who typically defend their view with reference to natural rights or an appeal to utilitarianism Narveson's main contribution has been to offer a philosophical defence of libertarianism based on a Hobbesian individualist contractarian ethic Critiques of Narveson's contractarian libertarianism fall into three categories those that reject contractarian moral theory those that reject any link between contractarianism and libertarianism and those that accuse libertarians of conflating liberty with property In this book Malcolm Murray brings together the most significant of Narveson's critics and presents their work alongside replies by Jan Narveson **On the (Im)Possibility of Business Ethics** Minka Woermann, 2012-11-02 Corporations and the environments in which they operate are complex with changing multiple dimensions and an inherent capacity to evolve qualitatively A central premise of this study is that a postmodern reading of ethics represents an expression of and an engagement with the ethical complexities that define the business landscape In particular the deconstructive philosophy of Jacques Derrida offers a non trivial reading of a complex notion of ethics and thereby helps us to develop the skills necessary to critique and intervene in our practices and to develop robust strategies for living in the absence of prescriptive ethical frameworks Although a central premise of this study is that substantive ethical claims can only be generated within a given context the study nevertheless presents readers with a meta position that illustrates the type of considerations that should inform ethical

reflection from a complexity perspective In order to illustrate the value that this meta position holds for business ethics these considerations are explored in terms of the implications that they hold for our understanding of corporate social responsibility for the practice of responsible management and leadership practices and for teaching business ethics

Public Theology and Ethics of Life-World: Biopolitical Formation Paul S. Chung, 2023-04-03 Through an elaboration of public theology with an ethical project of life world Paul S Chung employs the sociological work of civil society public moral reasoning and bio political inquiry while undertaking a social scientific analysis of a capitalist revolution in the global empire Chung s approach to public theology and ethical deliberation of the life world opens up avenues for the postcolonial significance of the theology of nature and gene ethics engaged in biomedical technology and bio political governance in the time of the pandemic Public Theology discloses creative new facets of sociological ethical investigation into cultural justice race gender and sexuality through discourse clarification of power relations and construction of the life world Engaging in an expansive conversation with the thought of major figures in philosophy political economy and theology Paul Chung articulates a compelling argument for a public theology that takes seriously our postcolonial context Craig L Nesson Professor of Contextual Theology and Ethics Wartburg Theological Seminary Dubuque Iowa What does political and emancipatory public theology look like and does it function in a post colonial reality Interrogating foundational sources in ethics theology sociology and epistemology Dr Chung makes a resounding case for Christian public theology as explicitly ethical theology He demonstrates the profound importance of religiously articulated ethical guidance for individuals and the Church to promote true solidarity and democracy and justice oriented mutual responsibility in Civil Society Dr Chung s excavation of some of the root causes and frameworks of oppression invites deep and theologically informed engagement in the affairs of the world Kirsi Stjerna First Lutheran Los Angeles Southwest California Synod Professor of Lutheran History and Theology Pacific Lutheran Theological Seminary of California Lutheran University

Freedoms of Speech:
Anthropological Perspectives on Language, Ethics, and Power Matei Candea, **The Oxford Handbook of International Relations** Christian Reus-Smit, Duncan Snidal, 2010-07-01 The Oxford Handbook of International Relations offers the most authoritative and comprehensive overview to date of the field of international relations Arguably the most impressive collection of international relations scholars ever brought together within one volume the Handbook debates the nature of the field itself critically engages with the major theories surveys a wide spectrum of methods addresses the relationship between scholarship and policy making and examines the field s relation with cognate disciplines The Handbook takes as its central themes the interaction between empirical and normative inquiry that permeates all theorizing in the field and the way in which contending approaches have shaped one another In doing so the Handbook provides an authoritative and critical introduction to the subject and establishes a sense of the field as a dynamic realm of argument and inquiry The Oxford Handbook of International Relations will be essential reading for all of those interested in the advanced study of

global politics and international affairs **Africa's Peacemakers** Adekaye Adebajo, 2014-02-13 As Africa and its diaspora commemorate fifty years of post independence Pan Africanism this unique volume provides profound insight into the thirteen prominent individuals of African descent who have won the Nobel Peace Prize since 1950 From the first American president of African descent Barack Obama whose career was inspired by the civil rights and anti apartheid struggles promoted by fellow Nobel Peace laureates Martin Luther King Jr Nelson Mandela Desmond Tutu and Albert Luthuli to influential figures in peacemaking such as Ralph Bunche Anwar Sadat Kofi Annan and F W De Klerk as well as Ellen Johnson Sirleaf Leymah Gbowee Wangari Maathai and Mohamed El Baradei who have been variously involved in women s rights environmental protection and nuclear disarmament Africa s Peacemakers reveals how this remarkable collection of individuals have changed the world for better or worse

Marxism And The Moral Point Of View Kai Nielsen, 2021-11-28 Marxism and the Moral Point of View attempts to say what consistent Marxists working within the parameters of the canonical conceptions of Marxism should say about morality This includes what they should say about the function of morality in society about the extent of moral comment they can justifiably make and about freedom equality and justice including the justice of whole social formations Karl Marx and most Marxists follow him was opposed Marx's Dream Tom Rockmore, 2018-06-07 Two centuries after his birth Karl Marx is read almost solely through the lens of Marxism his works examined for how they fit into the doctrine that was developed from them after his death With Marx s Dream Tom Rockmore offers a much needed alternative view distinguishing rigorously between Marx and Marxism Rockmore breaks with the Marxist view of Marx in three key ways First he shows that the concern with the relation of theory to practice reflected in Marx s famous claim that philosophers only interpret the world while the point is to change it arose as early as Socrates and has been central to philosophy in its best moments Second he seeks to free Marx from his unsolicited Marxist embrace in order to consider his theory on its own merits And crucially Rockmore relies on the normal standards of philosophical debate without the special pleading to which Marxist accounts too often resort Marx s failures as a thinker Rockmore shows lie less in his diagnosis of industrial capitalism s problems than in the suggested remedies which are often unsound Only a philosopher of Rockmore s stature could tackle a project this substantial and the results are remarkable a fresh Marx unencumbered by doctrine and full of insights that remain salient today

Media Ethics Beyond Borders Stephen J.A. Ward, Herman Wasserman, 2010-06-15 Explores the construction of an ethics for news media that is global in reach and impact This title includes the essays that provide theoretical perspectives on major issues and applies the ideas to specific countries contexts and problems It offers a source of ethical thought and analysis on questions raised by contemporary global media
